It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by pudding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Local.

☞ Messrs. Leach & Co., the new Dry Goods men from Portland, have issued a second edition of their double-column advertisement, on our first page this morning; —"fired" another charge from their big gun, as they state the case. We can't say we admire the slang-whang style of advertising, though many people do; but since the copperhead print in this city, both in its editorial columns and in the advertisements of its putative chief owner, has seen fit to pitch into these strangers—we say let the hardest fend off; and we think the new traders at old Number 29, will show that they are fully as capable of taking care of themselves with the pen, as of the public with the yardstick.

☞ A fine schooner of 330 tons burden, belonging to George L. Green and others, of Boston, was launched at Fernald's (formerly Raynes') yard on Wednesday. The vessel will be named the Joshua S. Bragdon, and will be commanded by Capt. T. E. Newcomb.

Mr. Fernald has contracted with parties in Provincetown to build three schooners of 240 tons burden. The frame of one is well up, and the keel of a second is being laid, at his yard, while the third will be built on Noble's Island.

☞ The return of warm weather brings increased numbers to the boarders at our watering places.

To the old beach favorites—the Atlantic, Surf and Ocean—a new resort must be added next week, as Mr. Philbrick's new house will be open for guests. Its name will be Philbrick's Hotel, and its name will be a guarantee of its excellent character.

☞ That favorite troupe, Cotton and Murphy's Minstrels, are now enjoying their summer vacation, and will start on their fall tour about the first of September.—"Joe Murphy," the champion bone player of all creation is showing his estimation of the natural advantages of this section by spending his leisure with his friends in Kittery.

☞ So rarely are we favored with a good dramatic performance, our amusement-loving public will be gratified with the announcement of Mr. E. L. Davenport for Monday evening next, assisted by other favorites. See advertisement.

☞ Officer Pickering of this city captured two runaways from the Portland Reform School on Thursday morning, on the line of the Eastern Railroad, midway between Hampton and North Hampton, and will take them eastward this morning.

☞ We understand that James DeNormandie, "minister of the South Parish" in this city, (as he always styles himself,) designs starting on his European trip about the last of August.

☞ The new Congress Block is now going up. There will be but three stores this time, of which Messrs. Shores and Preston are to have two.

☞ We learn from the Worcester Spy that Walter Brown, formerly of this city and more recently from Portland, the champion sculler of New England, arrived in Worcester with his wherry a few days since, and immediately launched it upon Lake Quinsigamond, where he intends to practice until the regatta. Mr. Brown took the second prize there at the city regatta in 1864, and he also won the first prize in an easy manner at the 4th of July regatta in Boston this year. His boat, which is a splendid specimen of workmanship, is 28 1 2 feet long, 14 inches wide, weighs 33 pounds, and was made by himself. He is quite anxious to meet famous "Josh" Ward, who will probably be there, and if he does, it will be a very exciting contest.

☞ The Eclectic Magazine for August contains the cream of foreign periodical literature, and is embellished with a likeness of the late Elizabeth Barrett Browning. Published by W. H. Bidwell, New York.

☞ During a heavy storm or tornado, Wednesday evening, two spans of a new bridge, which had been building for years over the Susquehannah River, from Perryville to Havre de Grace, Md., were blown from the piers and entirely destroyed. Loss $50,000.

☞ In Washington, Wednesday evening, the proceedings of the Senate were interrupted by a thunder storm; and the rain fell so heavily on the glass roof that the Senators could not understand one another. The House adjourned for a similar reason.

☞ The St. Albans (Vt.) Messenger of Tuesday last says: "Butter sold at from 38 to 40 cents per pound in market to-day. The amount shipped from St. Albans to Boston to-day was 669 tubs—38,950 lbs. gross weight."

— Rev. Dr. Briggs, pastor of the First Church, Salem, has declined the call of the Unitarian Society at Washington.

NEATLY PUT.—In reference to Louis Napoleon's speech at Auxerre, a well-known capitalist on the Paris Bourse says: "The Emperor has carried deceit to such a point of refinement that one cannot even believe the *contrary* of what he says."

[This is putting a very fine point on it: but the art of lying is not confined to France. A distinguished public functionary in this country comes so near perfection in this line, that Louis Napoleon must look to his laurels.]

SOUTHERN SCHOOL BOOKS.—The Washington Chronicle says the University of Virginia is engaged in the labor of preparing a new series of school books for Southern children, in which the virtues of the "Confederate" cause, its soldiers, statesmen, &c., are to be duly celebrated and exemplified.

— An agent of a New Hampshire manufacturing company purchased in Vermont, within the last month, 22,000 pounds of wool, at prices varying from 51 to 57 1-2 cents per pound.

— The princess Mary of Cambridge, it is said, was weighed a few days before the marriage, when it was found that she represented the substantial figure of 252 pounds. Mary's a "booster."

— An inquest was held at Amesbury Mills on Monday upon the body of Michael Quinn, who was drowned by jumping from his boat into the Powow river while in a state of intoxication. The Jury brought in a verdict accordingly.

— Dr. Payne, who was convicted of being a Rebel spy and condemned to death, but whose sentence was subsequently commuted to imprisonment for life, was released from the Ohio Penitentiary last week, under an order from the War Department to discharge fifteen of the military prisoners confined at that place.

— The Lewiston (Me.) Journal gives a report, apparently authentic, that President Johnson has removed Dr. S. Oakes (Republican) the efficient and popular postmaster of Auburn, and appointed Willard Small (Johnson conservative) in his place.

☞ The following letter from William Cullen Bryant will be read with pleasure by all who wish success to the introduction of GOOD DOMESTIC WINES:

NEW YORK, March 20, 1866.
DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.
I am, respectfully yours,
(Signed) W. C. BRYANT.

Morning Chronicle.

Ex-Gov. Wise Explains his Position.—On last Saturday evening Henry A. Wise delivered an address at the Opera House in Norfolk, the subject of which was the Churches of the South, embodying the propriety and duty of rebuilding and repairing those churches in the Southern States which during the war had been injured, burned, and defaced. The address, tinctored with his well known rebellious views, was not quite as bitter as his late one, delivered at Alexandria. He endeavored to show that it was no spirit of insubordination, or rebellion to lawful authority, which forbade his taking the oath, but that the oath itself was false in its terms, in that there was a tacit admission that there had been a Rebellion; that he and others were rebels, and therefore traitors; that there is an existing Rebellion, and that he had been false to the Constitution of the United States and the Union of the States themselves. Whereas, for nearly half a century he had, by word and deed, in peace and war, battled for the Constitution and the Union; and before the war began had been one and alone who had desired to fight the fight in the Union.

☞ The Newburyport Herald, the only daily paper in Massachusetts, outside of Boston, which sustains "my policy," trembles for the Philadelphia Convention, in view of the fact that old politicians, like Mr. Moses Bates, are arranging the preliminaries. It "beseeches the old partisans to stand back and show small." It says "all that is wanted of politicians is to keep out of the way and not obstruct the work of reform." We submit this is unkind to Mr. Bates and his committee, who have gallantly stepped foward to lead the forlorn hope and to prevent the old Bay State from being entirely unrepresented at Philadelphia. The Herald wants the "people" to lead off, but unfortunately for its proposition they are not just at present looking in that direction, and, as the boys say, "don't see it."—*Boston Journal.*

☞ We sometimes in this country speak harshly of our public men, but the London Telegraph, alluding to one of the nobility, remarks:

Lord Carnarvon is a sort of patrician pump running with milk and water. He has that kind of amiably insipid gurrulity which is sometimes not disagreeable in a pretty girl, but which needs particularly rosy lips and exceedingly bright eyes to give it any charm. He would be invaluable as a male secretary to a Dorcas society; he shines, with a soft and moony lustre, at quarter sessions and at kettledrums; but in the heat, and crowd, and stress of practical politics, where bearded men are struggling for mastery, we should imagine that his neck-tie is likely to get out of order, and that some heavy, plebeian heels will tread rather roughly on his delicately varnished boots.

— Dennis Haggerty and his wife died at Holyoke one day last week, from drinking too much ice water while overcome by the heat. They leave eight children.

— The wealthiest congregation in New York city, perhaps in the whole country, is that of the Church of the Ascension, (Episcopal,) in the Fifth Avenue. Their aggregate incomes last year are shown by the official returns to have been nearly $18,000, 000.

By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

DOMESTIC ANIMALS.—The dog has his variety of moods, like his master. He is joyous, eager, sulky angry, restless, conscious of our love or displeasure; capable of correction, able to learn; has his own preferences, too; welcoming some of the habitual visitors to his master's house, growling at others, he only knows why.—He loves the children of the house; he submits to have baby's awkward helpless fat fingers thrust in his eye, without resentment. He romps with the boys, and with his own species, affecting the fiercest onslaughts, and mumbling, with a mouth like velvet, when the mimic war leaves him victor in the play! He is a creature made up of variety, But a cat is always the same. Equally on her guard with friend or foe—stealthy, indifferent, unsympathising,—as willing to gnaw the baby in its cradle as the rat in the barn; and gliding away to attend to her own private interests, let what will be the event of the hour in the household circle of which she forms a part. She is a daily mystery, a nightly annoyance. In the midst of her tame city life she is *fera natura*. We advertise our dogs as "Lost or stolen," but we say of our cat she is "gone away." Even in going away she consults her own convenience; she does not stay, like the dog, because she is ours, and because we are there, but so long as she is comfortable. *Macmillian's Magazine.*

☞ The following sketch by a Madrid correspondent shows how they treat captured insurrectionists in Spain:

"At last the twenty-one victims were ranged in file at about a yard's distance from a low clay wall, with their backs to the soldiers, and then the discharge took place. Nearly all of them fell. At that moment the Hermanos de la Caridad, or Brothers of Charity, rushed forward to save at least a few, but were repulsed by the troops, and firing went on, and more than two hundred shots were fired. What a sight. I saw one man raise himself three times and fall again on his knees, with his arms extended in a direction from which a piercing voice was heard to shriek in the midst of the massacre, 'Federico! Federico!' The soldiers then approached the corpses, turned some of them over with their feet, and still perceiving some signs of life here and there, discharged a last shot point blank. All was then over. The bodies were thrown upon tumbrils, and the regiments filed off, some to an air from *Norma*, some to one from *Semiramide*. Thirty more are to be shot in a day or two, all soldiers; the civilians will come after.

— In England a woman who lost her pocket book declined to prosecute the thief. She appeared in the witness-box, with a bible in her hand, and said she would not give evidence because the Scriptures ordered her to forgive those who trespassed against her. The magistrate called other evidence however, on the strength of which he committed the prisoner for trial.

SATURDAY, JULY 28, 1866.

CALL FOR THE PEOPLE.—The Gloucester Telegraph, (one of the very few republican papers that favors the Philadelphia Johnson convention,) publishes the call issued by the Massachusetts Democratic State Committee, and says:

"The call will excite some difference of opinion among the friends of the Administration. * * * While we are satisfied that the course of the Radicals is dangerous to our existence as a nation, and is rapidly destroying the probability of a fraternal and enduring union, we are not yet certain that the democratic party will prove the saviors of the country, or that there is no middle course, between these two extremes.

We think the call should have been addressed to the people, and not to politicians—and especially that there should have been no attempt to apportion the political character of the members in advance."

Well: we have read the call:—it does call on the people! but the Telegraph knows so well what *kind* of people will come for *that* call, that it fancies the call is exclusive, tho' really it is not.

"But for all this (adds the Telegraph) we are glad that somebody in Massachusetts has had courage enough to call a convention, even though the necessary boldness has been found only in the Democratic party.

There are probably a dozen or two of men in Massachusetts, called Republicans, who either hold U. S. offices, or wish to get them, who would be *bold* enough to call such a Convention—if—if they thought any considerable number of people would attend: but they know better.

"The President has deserved well of the radicals in Massachusetts, (says the Telegraph) particularly in this part of it. We shall see how earnestly they will rally to his support. We shall be happy to chronicle the formation of a new coalition, and to record its history and results."

The radicals don't see it. The new Coalition or Confederacy, will be of copperheads and conservatives, rebels and traitors. Perhaps it will call itself the Democratic party—but the rebel *wing suggests* using a new name, as the old one is in bad odor. We shall see what we shall see:—but we do not believe the freemen of New England are about to fall down and worship the stump of Dagon—even if the President could put him in his place again. They feel as if they had been betrayed—and they feel indignant at the betrayer, and have no confidence in him or his convention. U. T.

THE FAILURE OF THE APPLE CROP.—A Massachusetts correspondent of the Maine Farmer publishes his theory of the cause of failure of the apple crop, which is that fruit buds formed in the time of a severe drouth, must of necessity be weak and unable to carry out the crop the succeeding season. Through the dog days of 1864 a severe drouth prevailed, and the apple crop of 1865 was a failure. We were again visited last year with very dry weather during dog days, and the drouth continued not only into the fall, but up to the present time. The result is that the apple orchards are unproductive. Only a few orchards produced a good crop last year, and these were such as were in first rate condition, and able to withstand the drouth of 1864.

Some of our most careful observers agree with this opinion, and have recently expressed it.

THE MEMPHIS RIOTERS.—It is reported at Memphis that General Stoneman telegraphed to Washington that he should proceed to arrest and punish those connected with the late riot, unless otherwise instructed, and that, in answer, he was ordered to *Wait* for instructions!!!

CHEAP MEATS.—Western and Texas beef cattle we see are selling in the New Orleans markets. Choice Texas beef, of the first quality, is quoted at 10c per lb. net; second quality, $25 a $35 per head; third quality $9 a $20 per head. Clover sheep, per head, $3.25 a $4.25. Calves from $7 to $12.

— The President has appointed General Hancock to a Major Generalship in the regular army, vacated by the promotion of General Sherman; and General Ord to a Brigade Generalship, vice Hancock.

— It is said that the Maryland, Delaware and New Jersey peach crops will turn out very poor this year, and prices will be high; but then plenty is not always a security for low prices now-a-days.

— Forty-two boarders at the Pyle House, in Indianapolis, were poisoned at supper on the 22d inst., and some of them were very ill. The family of Mr. Pyle and the servants were also affected. The cause is not known.

— Special Washington dispatches say that the British Government has proposed a reciprocity agreement between the two countries, providing that England agrees to send home all distressed American seamen in British waters, the United States reciprocating.

— An agent is in Chicago, Ill., appointed by the Governor of Minnesota, superintending the passage of Scandinavian emigrants to the latter State. Seven thousand have already passed through Chicago for Minnesota during this season.

BREACH OF PROMISE IN N. H.—The Boston Journal's Concord correspondent says:—

The people of a neighboring town are full of gossip just at this time over a very novel breach of promise suit in marriage. In said town on the Fourth of July last a hale, hearty and well-to-do farmer eighty years of age and a widower for the second time, led to the hymenial altar a blooming and excellent widow rising of three-score years. The event was one of general interest in the place, and many were the congratulations received by the newly-married pair. But, alas, only four days of a honeymoon had passed ere a suit for an alleged breach of promise in marriage, with damages laid at ten thousand dollars, was brought against the husband, attaching all his visible property and trusteeing two towns and divers individuals who were owing him. The plaintiff is a widow of good standing, of rather engaging personal appearance and about fifty years of age. She had kept house for the defendant several years previous to his last marriage, and alleges that some time ago an agreement of marriage was made between them, which agreement she has continued sacredly to keep. The plaintiff has retained some of the ablest counsel in the State, while the defendant has not been behind his opponent in securing the services of eminent legal advisers. The situation of the new wife is anything but agreeable, yet she is a plucky woman and will encourage her husband to fight out the suit on the right line. It is expected that the case will come up for trial at the October term of the Supreme Judicial court in Concord.

NASHUA ITEMS. — Arrest for Passing Counterfeit Scrip.—George Stearns of Manchester, N. H., was arrested Monday by Assistant City Marshal John Barney, of Nashua, for passing counterfeit fifty-cent scrip of the latest issue in the last named city during the forenoon. Forty dollars in amount of the worthless currency was found upon his person. United States Commissioner C. W. Stanley, of Manchester, was sent for, who tried the criminal Tuesday morning. Waiving examination, he was put under four thousand dollars bonds to appear October 8th before the Circuit Court at Exeter, N. H. He was committed to jail in Manchester.

☞ During the week ending July 21, in Boston the deaths by cholera infantum rose to the number of 33; and one half of the whole number of deaths — 64 out of 129—were under five years of age. In New York, while the deaths by Asiatic cholera were 11, those by cholera morbus were 33, and those by cholera infantum went up to 278! In Philadelphia, Asiatic cholera took away 10, cholera morbus 23, and cholera infantum 168. We add that the deaths by the kindred diseases of diarrhea and dysentery were in New York 133, and in Philadelphia 39.

And yet, says the Boston Journal, there is very little talk about these other choleras whose ravages thus far have been from twenty to thirty times as destructive as those of the Asiatic cholera. Is it because we have got used to them, or because being native to the soil they do not have the trumpet of alarm sounded before them from Europe, months ahead, as in the case of the infrequent visitations of the Asiatic cholera? With respect to to the latter disease indeed, though we cannot tell what may happen hereafter, it has thus far, by the sanitary precautions it has occasioned, saved scores of lives for every one it has taken. But have we been and are we equally wise with regard to the other cholera?

☞ The New Hampshire Democratic State Committee met last week to talk about the Philadelphia Convention, and decided that "as at this busy season it would be inconvenient for most of the laboring people, the bone and sinew of the land, to attend," it was not advisable to call a mass convention to nominate delegates, but that the Democratic Committee should appoint ten delegates, one from each county, and that the Conservative Republican organization should select the same number. This is a convenient way to avoid showing their weakness.

☞ A caucus, under the auspices of Thurlow Weed, is reported to have been held recently in New York, the object being to see what course conservative Republicans should take with regard to the Philadelphia Convention. Some of the speakers stated that there was a possibility that delegates would be admitted to the Convention with whom Republicans could not affiliate; and in that case the Republican delegates should withdraw. It was finally agreed that the leaders should meet at Saratoga, and take steps, if they thought best, to elect delegates to the convention.

— The Mobile Register recommends a delegate to the Philadelphia Convention upon the ground that "he fought as a private soldier in behalf of the Southern cause."

— Col. Ashby has been arrested in Washington on a charge of treason, but was bailed in the sum of $3000.

— It appears that the late rains extended over most of Virginia and North Carolina, if not other Southern States. The effect on the crops is described as highly beneficial, and will doubtless add greatly to the harvests of the farmers.

IN THE U. S. SENATE, July 26, Mr. Patterson, Senator elect from Tennessee, presented his credentials, which, after debate, were referred to the Committee on the Judiciary, by a vote of 26 to 14. The Senate went into executive session, and confirmed the nominations of Sherman as Lieut. General, and David Porter as Vice Admiral. Also nearly 400 naval promotions, over 100 military promotions, and a large number of postmasters, including nearly all of those in New England. The nomination of George J. L. Colby to be Postmaster at Newburyport was laid over. An Indian treaty was also confirmed.

A joint resolution appropriating $119,000 for the relief of the builders of the iron-clad monitor Camanche, which was sunk at San Francisco, was taken up and passed.

The Deficiency bill was taken up and many amendments concurred in—one of them appropiating $20,000 to complete the repairing and furnishing of the President's house. The bill passed.

The House, on the Reward for arresting Booth and Harrold, agreed to an amendment proposed by Mr. Delano of Ohio, which gives Gen. L. C. Baker $3750, E. J. Conger $15,000, Luther B. Baker $3000, J. R. O'Beirne $2000, H. H. Wells, Geo. Cottingham and Alex. Lovett $1000 each, and Capt. E. R. Doherty $525. The report of the Committee proposed to give L. C. Baker and Conger $17,500 each.

Gen. Banks' new Neutrality Bill, after a speech from him was passed, 124 to 0. Mr. Raymond did not vote.

The House passed the Senate joint resolution for the temporary relief of the sufferers by the late fire in Portland, by suspending the collection of revenue taxes, after so amending it as not to exempt persons who lost property in Portland but who reside elsewhere.

☞ On Thursday in the U. S. House of Representatives, was introduced a bill to incorporate the national farm and colored school for the Orphans of colored soldiers, which was passed.

A bill reported from the Judiciary Committee was passed, which provides that any person who shall steal from another, personal property belonging to the United States shall be deemed guilty of a felony, and punished by a fine not exceeding four times the value of the property stolen, or imprisonment not exceeding twenty years; and any person who shall impede the passage of locomotives or cars carrying the mails or troops, shall be liable to a fine of $20,000 or imprisonment not exceeding twenty years, or both.

WASHINGTON ITEMS.—Gov. Boutwell is concluding his report on the complicity of Jeff. Davis and other leading rebels with the assassination plot. The apocryphyal evidence about which so much has been said, will be given by itself, as having been sworn to and then withdrawn. An interesting yet painful feature of the report will be the cruel treatment of Union soldiers in rebel prisons, as narrated in the official reports of rebel officers.

Surgeon General Barnes reports 1758 patients now in the U. S. military hospitals—a smaller number than there has been since 1861.

Secretary Welles has turned over to the Treasury Department, in accordance with a recent law, for investment in registered securities, the Naval Hospital fund, now $11,750,000.

☞ Speaking of the new Neutrality Bill, a Washington Correspondent says, of its passage through the House, the bill is largely in the Fenian interest, President Roberts of the Fenian Brotherhood, and other prominent Fenians being on the floor at the time of its passage. It has gone to the Senate, but it is believed that it is too late in the session for that body to carefully consider and pass it.

During the debate Gen. Banks stated that this bill was almost identical with the one passed during Washington's administration.

☞ A melancholy accident occurred on Wednesday at a small place named Gainesburg, near Middletown, Pa., resulting in the death of a young lady named Caroline Sweeny. At the time of the occurrence she was lying sick in bed, when a younger brother picked up an old gun, and playfully pointing it toward her, pulled the trigger, and a bullet passed through her head, killing her instantly.

☞ Major General Howard has authorized a board of officers to meet at Washington and revise the regulations of the Freedmen's Bureau. It is composed Gens. Tillson, Gregory and Sprague, and Chaplain French, with Capt. Deforest as Secretary.

☞ Hall's Journal of Health for August contains about twenty Essays,—Medical, Moral and Religious—and all interesting.

— The President has signed the joint resolution for the purchase of the law library of the late Judge Pettigru of South Carolina, which is really a testimonial to his daughters, of the nation's estimation of their father's patriotic loyalty when all others around him were traitors.

☞ One of the California Congressmen, who receives about $17,000 per Congress as pay and mileage, has been so overdrawing his account that, should he die before his mileage and pay for the next session is due, his creditors would be losers to the amount of $7000; so to protect themselves, they have had his life insured for that amount.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light com plexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. PURIFY THE BLOOD.—If the blood be pure, the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matters from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if
Struck by Lightning.
Now, this can be remedied.

Local.

IN BOARD OF ALDERMEN, Thursday evening, July 26, a petition of the County Commissioners for a door in rear of Court House, was referred to the Committee on City Lands and Buildings, with power to act.

Petition of Daniel Odiorne and ten others for a new highway from North street to Freeman barn, was referred to Committee on Streets.

The Committee on Streets, to whom was referred the petition of J. M. Edmonds and others for bridge across North Mill Pond, &c., recommended that the petition be granted, providing the petitioners pay one-half the cost of laying out highway, building and completing the bridge, &c. Adopted.

The Committee on City Lands and Buildings presented specifications for Ward Room and Schoolhouse in Ward 3. Adopted—and the Committee were authorized to build the same. Adjourned.

☞ The annual PicNic of Miss Isabella Ham's private School, was gathered at the picturesque residence of Mr. A. J. Penhallow, on the Kittery shore of the river, on Thursday afternoon. This was the first of the dog-days; and if it be true that every dog has his day, this must have been a good dog's day. The attendance was large, and everything tended together to make this one of the most complete "lawn parties" of the season. The cordial and genial hospitality dispensed by the courteous lady of the host, with the arrangements perfected by the very agreeable pedagogue to whom all were indebted for this beautiful entertainment, made the hours fly all too swiftly; and the unstinted supper spread in the grove on the hill, was a gay and festive occasion indeed. We hardly knew which to admire the more, the beautifully undulating harvest-loaded and tree-shaded grounds we wandered over, with the hundred or two of happy children and youth and their older friends scattered all about, or the ever varied but always beautiful views presented therefrom, of the river, harbor and city—which are among the finest to be got any where in this vicinity,—and we might add, or elsewhere, as to that. But we could not help feeling a bit regretful, as we approached the city, to compare the little commercial business which *is* done at our wharves, with what *might be* done, had our citizens generally a little more of the "one thing needful" for success.

☞ There is not one steam-engine in this city where there ought to be twenty. That at the new grain mill of Neil, Tarlton & Co., as it busily puffs and throbs out over the Piscataqua, and that at the Concord Railroad wharf—seem almost to be innovations along that sleepy old line of once-active wharves. Need these things be so?

☞ Is was not difficult, (notwithstanding we omitted the author's name,) to detect in the thorough and well written articles on old newspapers, portions of two of which we have recently copied from the Washington National Intelligencer—the pen of a gentleman from this State, who has been for sometime connected as a leading writer with that paper, and whose contributions have also graced the journals of our State. We allude, of course, to M. B. Goodwin Esq., well known as "M. B. G." of the Concord Statesman.

TEXAS.—A letter from Texas states: "I fear, though the radicals are defeated in Texas for State officers, the new Constitution is defeated, a thing more desired than their defeat in the race for State officers, but I pray to God it is not so."

A detachment of Federal cavalry has arrived in Tyler to put in order the graves of the Federal dead, buried at Camp Ford.

A terrible hurricane swept over the northern edge of Nacogdoches county a few days ago, doing enormous havoc in the pine forrests.

Two negroes were recently killed on Cedar Creek, in Bastrop county. The affair is undergoing judicial investigation. A man named Charles Barnett is charged with the killing.

A raid has been made upon several of the negro ranches in Tyler, with a view of breaking them up, which was pretty effectually done. Many of the citizens complained of their gardens being greatly damaged.

GOLD, Friday, 150 1-4.

—A new law in Connecticut provides a severe penalty for the crime of procuring the publication of bogus marriage notices.

—Rev. James B. Moore, a young clergyman of Concord, has received a unanimous call to the pastorate of the First Unitarian Society in Lawrence, Mass.

—The New Orleans Tribune states that there are several thousand negroes in that city who fill responsible positions, their united incomes amounting to $20,000 per day.

☞ An Internal Revenue Inspector has just returned to Washington from Danville, Va., where he went to take action against the Mayor of that city for forging Internal Revenue stamps, amounting to over $2000, upon his tobacco recently sold in New York. He found such strong sentiment there against the Government and its officers, and the Mayor so bold and defiant, while confessing the robbery, that he came away, glad to get Walker's note for the amount of stamps forged.—*Boston Herald.*

And this is reconstructed Virginia, is it? And would not Mr. Walker make a likely Delegate to the Doolittle Convention?

☞ The Washington correspondent of the New York Commercial Advertiser says that some of the politicians now enjoying good places as clerks in the War Department are organizing a secret political association for the support of Edwin M. Stanton for President and Gen. Hamilton of Texas for Vice President.

Well: why may not *clerks* try electioneering, as well as presidents, secretaries, post master generals, or others? Who can tell? We could never see why an office holder should be more or less a politician or citizen, than any body else.

GOLD.—The New York World states that a combination of capitalists in New York have bought $6,000,000 in gold, and intend to buy more, in order to run up the price when there is a favorable opportunity. These combinations are frequently made, but they fail in their object quite as often as they succeed. Gold speculation, like any other kind of venture, frequently ends in breaking those who indulge in it.

—Col. Withers advertises in the Jackson, Mississippi, papers that he has an enormous amount of European capital which he is ready to advance upon the growing cotton crop, and proposes to buy in lots of from one bale to one thousand bales.

—A West Troy Millerite makes a prediction. He says the hot weater will continue to grow hotter and hotter until the world is consumed with fire.

Laws of New Hampshire.

PASSED JUNE SESSION, 1866.

AN ACT concerning deserters from the military and naval service of the United States, and avoiding the draft into the same.

Whereas by section 21 of the act of the Congress of the United States, approved March 3, A. D. 1865, entitled "An act to amend the several acts heretofore passed to provide for the enrolling and calling out the national forces, and for other purposes," it was enacted as follows, namely,

"SECTION 21. *And be it further enacted*, That in addition to the other lawful penalties of the crime of desertion from the military or naval service, all persons who have deserted the military or naval service of the United States, who shall not return to said service, or report themselves to a provost marshal within sixty days after the proclamation hereinafter mentioned, shall be deemed and taken to have voluntarily relinquished and forfeited their rights of citizenship, and their right to become citizens; and such deserters shall be for ever incapable of holding any office of trust or profit under the United States, or exercising any rights of citizens thereof; and all persons who shall hereafter desert the military or naval service, all persons who being duly enrolled, shall depart the jurisdiction of the district in which he is enrolled, or go beyond the limits of the United States with intent to avoid any draft into the military or naval service, duly ordered, shall be liable to the penalties of this section. And the President is hereby authorized and required, forthwith, on the passage of this act, to issue his proclamation, giving full notice to the provisions of this section, in which proclamation the President is requested to notify all deserters, returning within sixty days, as aforesaid, that they shall be pardoned on condition of returning to their regiments and companies, or to such other organization as they may be assigned to until they shall have served for a period of time equal to their original terms of enlistment."

And whereas, on the eleventh day of March, in the year of our Lord one thousand eight hundred and sixty-five, the President of the United States did issue his proclamation, which after reciting the preamble thereof, is as follows:

"Now, therefore, be it known, that I, Abraham Lincoln, President of the United States, do issue this, my proclamation, as required by said act, ordering and requiring all deserters to return to their proper posts; and I do hereby notify them that all deserters who shall within sixty days from the date of this proclamation, namely, on or before the tenth day of May, 1865, return to service or report themselves to a provost marshal, shall be pardoned on condition that they return to their regiments and companies, or to such other organizations as they may be assigned to, and serve the remainder of their original terms of enlistment; and in addition thereto a period equal to the time lost by desertion;" Therefore—*Be it enacted, &c.*

SECTION 1. That all persons who, on the said third day of March, A. D. 1865, were deserters from the military or naval service of the United States, who did not return to said service, or report themselves to a provost marshal, as provided in said act and proclamation, and all persons who, since said third day of March, 1865, have deserted said military or naval service, and any person who during the time being duly enrolled, departed the jurisdiction of the district in which he was enrolled, or went beyond the limits of the United States with intent to avoid any draft into such military or naval service, duly ordered, who have not, by law, since said act was passed and said proclamation was issued, been exempted from the disabilities arising therefrom, shall be deemed and taken to be liable to the penalties of the twenty-first section of said act, and shall be incapable of holding any office of trust or profit, or of exercising the elective franchise in this State so long as said act of Congress shall remain unrepealed and in force.

SEC. 2. If any selectman, at any session holden for the correction of the list of voters, on receiving satisfactory evidence that any person whose name is on said list is not a legal voter according to the provisions of this act, shall neglect or refuse to erase such name from said list, or who shall at any time insert on said list the name of any person not a legal voter according to the provisions of this act, knowing such to be the case, or shall neglect or refuse to hear or examine any evidence offered for such purpose in either of the cases aforesaid, he shall be punished by fine not exceeding fifty dollars for each offense.

SEC. 3. This act shall take effect whenever His Excellency, the Governor, shall declare, by his proclamation, that the Supreme Judicial Court shall have pronounced the same to be in conformity to the Constitution of this State; and that the Opinion of the Supreme Judicial Court be published in the next volume of New Hampshire Reports after its delivery. Approved July 7, 1866.

AN ACT relating to attachments.

SEC. 1. *Be it enacted &c.* At the commencement of any suit in equity the property of the defendant may be attached in the same manner and with the same effect as may be obtained by the complainant in the same manner and to the same extent, and with the same effect that the property of defendants in suits at law may now be attached.

SEC. 2. Upon filing his bill in the office of the clerk of the supreme judicial court, the complainant may take a subpoena substantially in the form of a writ of summons and attachment. The officer serving the subpoena may make attachment of the property of the defendant therein in the same manner as in suits at law. When an attachment shall be made by leaving a copy of the subpoena with the town clerk, it shall be the duty of the complainant to cause a copy of the bill to be left with the town clerk, within ten days after the service of the subpoena, otherwise the attachment shall be dissolved.

SEC. 3. All attachments made as aforesaid may be dissolved by the supreme court, or judge thereof, upon application made to him by the defendant, and a tender by the defendant to the plaintiff of other security sufficient in the estimation of the court or judge, fairly to secure the demand set up by the complainant in his bill.

The Chronicle.

☞ The Assistant Commissioner of the Freedmen's Bureau for the State of Arkansas reports great destitution among both white and colored within the State. He also reports that the number of government rations issued to the destitute for the quarter ending June 30, in the States of Missouri, Arkansas and the Indian Territory, as follows: To 11,287 refugees were issued 166,200 rations, at a cost of $20,379.30; to 1490 freedmen were issued 26,041 rations, costing $3,307.09.

[Yet the new presidential and conservative policy is to abuse, belie and destroy the Bureau, by vetoes and other base missiles.]

☞ We find the following neat paragraph in the New Orleans Times:

Some time since the New York Tribune declared that if it could find a colored man who could edit it better than it was then edited, his services would certainly be engaged, if possible. From a manifest improvement which is recently exhibited in its editorial management, we presume that the Freedmen's Bureau has furnished it with an intelligent contraband.

We think the Tribune is greatly improved; and it may be as the Times suggests, that a colored man improved it.—Why not? Douglas and Dumas are colored.—So was Esop: so were Toussaint L'Ouverture and Pierre Toussaint.

☞ Two runaway couples reached the town of Quitman, Mississippi, on the 10th, in search of somebody to marry them. The brides were only sixteen and eighteen, and being refused on account of tender age, they declared they intended to—"fight it out on that line" if it took all summer.

Such early marriages were formerly common, and are not very rare now, in some parts of the country. As a curious counterpart to the above, read the following item, which came along in the same mail:

Mr. John Bixier, of Beaver, Ohio, recently died, leaving a widow twelve years old and a child nearly six months old. She is the youngest widow in America.

MONDAY, JULY 30, 1866.

CONGRESS.—The Senate on the 27th passed the three House bills authorizing the metric system of weights and measures, and the bill for the relief of the Portland sufferers, all of which go to the President. The bill for the admission of Nebraska to the Union was passed, 24 to 18. In evening session bills were passed authorizing the Secretary of War to furnish transportation to discharged soldiers of the United States to whom artificial limbs were furnished by the Government, and giving Mrs. Mary Phelps $20,000 for services in taking care of sick soldiers and caring for soldiers' orphans. Senator Wilson's army resolution was passed. The "galvanized" Tariff bill was agreed to. The Senate went into executive session at 11 P. M., having passed the bill giving Miss Minnie Reams $10,000 for a statue of Mr. Lincoln.

In the House, the appropriation to repair the Mississippi Levees was defeated, and the House refused to concur in the Senate amendment increasing the pay of Members of Congress to $5000 per annum. Nebraska was admitted by a vote of 63 to 52.

In a night session on Friday, the Senate refused to accept the report of the Committee of Conference on the omnibus appropriation which refused to equalize soldiers' bounties, but increased the salaries of Congressmen from $3000 to $5000. The supplementary postal appropriation was passed. At quarter to 6 Saturday morning the House Committee on Conference entered the Senate with their report insisting on the equalization of bounties in a modified form which was passed.

The report gives to every soldier who served three years, or who agreed to but was discharged on account of wounds, or to the heirs of every soldier killed or who died from wounds, one hundred dollars bounty; and to every soldier who served two years, or who agreed to but was discharged on account of wounds, or to the heirs of every soldier killed or who died from wounds, fifty dollars; any soldier who has bartered, sold, loaned, assigned, transferred or given away his discharge, is not to receive any bounty.

NEW HAMPSHIRE ITEMS.

—— They had a lunar rainbow at Newport on Thursday evening.

—— The County Commissioners of Grafton County have been authorized to borrow a sum, not to exceed $30,000, to purchase and stock a farm for the use of said county in caring for its poor.

—— James W. Rollins, of Rochester, who is said to have deserted from the navy and afterwards lost a leg while serving in the 14th N. H. V., has been committed to Manchester jail for horse stealing.

—— Rev. Charles W. Flanders, D. D., late minister of the First Baptist Society in Concord, N. H., has received and accepted a call to the pastorate of the Baptist Church in Kennebunkport, Maine.

—— The barn of John Johnson, in Warner, was struck by lightning on Wednesday of last week, and burned with its contents. Between Warner and Bradford the telegraph wires were twisted and the posts torn up to some extent during the same shower.

—— Among the nominations sent in by the President to be confirmed, we notice:

To be District Judge for New Hampshire: Daniel Clark of New Hampshire.

To be Colonel of Volunteers by Brevet—Lieut. Col. Frank S. Fiske, 2d New Hampshire; Lieut. Col. Tileston A. Barker, 14th New Hampshire.

—— The Manchester Mirror says there is an old lady on the shore of Policy Pond, in the town of Windham, N. H., named Mary Campbell, who lives entirely alone in a hut close to the railroad, and quite a long distance from neighbors. She is eighty-two years of age, and was for more than twenty years a school teacher, she said. Sixty one years ago she was teacher in Boston. She little guesses the wonderful changes in the methods of teaching which have been developed during those sixty years.

SOUTH CAROLINA.—Reports received at the Freedmen's Bureau in Washington from South Carolina represent that the Circuit Courts in that State discriminate against the freedmen in their applications of laws and their decisions and sentences. The Court in Charleston is conducted in this manner, and when freedmen bring complaints they are ordered off and their reports discredited without investigation.

A late order of this Court requires them to pay the costs of trials in advance, otherwise their complaints will receive no attention, nor will any parties committing outrages upon colored people be arrested or tried. The Civil Rights bill is ignored by the Courts, and the Judges assign as a reason that they have not received *official* notice that the Court is to be regulated by its provisions, although it is known to be the law of the National Legislature.

HOW WE LOOK TO STRANGERS.

OUR TRIP ALONG THE COAST.

PORTSMOUTH, N. H., July 9.

DEAR ARGUS—Soon after daylight yesterday, our handsome little yacht weighed anchor at Gloucester, and stood out to sea for Portsmouth, a distance by water of some forty miles. The wind continued light, the sky clear and the sun hot. After a pleasant sail of several hours, we anchored off the Kittery Navy Yard, in Maine, and within three miles of the town of Portsmouth the two places, in different States lying on opposite banks of the same river. We were prevented from going to town until evening, owing to the tide—an unusually strong one—being out, and also owing to a squall, which came up about 3 o'clock and lasted a couple of hours. By 6 o'clock, however, we gained one of the Portsmouth docks, and made fast for the night. After a light supper, the party scattered off through the town for sight seeing and walking exercise, some going to church, and others out into the suburbs in quest of cool air, for, notwithstanding the heavy shower, the atmosphere in the streets was uncomfortable.

Portsmouth contains twelve or fifteen thousand inhabitants, and is, by far, the prettiest town we have yet visited. Like most of these old Eastern, and like our own old Albany, the streets are not laid out with any marked regularity; nor are they paved, but they are clean, and have good sidewalks, which are evidently well cared for. There is scarcely a street that is not handsomely shaded, chiefly with elms, and the dwellings are mostly built in cottage style, with roomy wings, and are surrounded with attractive garden grounds. The business street is well filled for half a mile or more with modern looking stores, and wears an appearance of thrift that carries with it the assurance that Portsmouth is a live town.

Kittery undoubtedly contributes much to its prosperity. Several vessels, including two propellers, are now under way at the Navy Yard, and Fort *Independence*, three miles below, is being rebuilt, in a very substantial manner, of granite. It is already a very formidable structure, and, when mounted, must be capable of affording complete protection to the harbor. Here, and in the Yards, Government must employ at least a thousand men, nearly all of whom live with their families in Portsmouth. It was a fine sight this morning, to see some forty good sized row boats put off with the workmen from the town for the Yard. They carried from eight to ten oars each, and as they went *out into the stream in the early sunlight, every* oarman pulling lustily and all with the precision of clock work, it looked for all the world like a spirited regatta.

I fancy one could gather up here, promiscuously, and in one day, a boat's crew that would find it comparatively light work to worry the best professional oarsmen of the Western cities. Over in this direction, boys and girls, and men and women, take to the water as naturally as New Yorkers do to picnics. If they have a day for recreation it is spent upon the water; if an excursion is planned, it must be upon the water; and if they set about showing the town to a stranger, the first move is to give him a pleasant sail over the Bay, so that his first impression is from an outside view, and it is not extravagant to say that many of the girls can sail the scull yachts as cleverly as can the men. * * * At 10 o'clock this morning we started down the Bay for the Isle of Shoals, a distance of some ten miles out of Portsmouth, and which is reported to be prolific fishing grounds.

PORTLAND, July 10.

DEAR ARGUS:—After closing my last letter, or rather, the morning after, we left Portsmouth for the Isles of Shoals, a group of several small, rocky islands, on the principal one of which is a large tavern, known as Laten's Hotel. It is a watering place of some note with the Eastern folks, being convenient to Boston and the other Eastern cities. Judging from its present patronage, however, it is not sufficiently popular to be profitable, there being only some forty or fifty boarders on the Island. After supper the party visited the hotel, and spent the evening pleasantly enough—some in the billiard saloon, others at the bowling alley, and in the parlors.

Rising between five and six, fishing was the first exercise in order, and the company took to it with more than usual zeal, as they were informed that fine sport—awaited them. They were somewhat disappointed, however, catching, before breakfast, only thirty or forty cod and haddock, averaging a couple of pounds a piece; some of them weighing four or five pounds. Soon after breakfast it was determined to sail direct for Portland, and a very pleasant sail we had of it.

— Prof. Agassiz arrived in New York on Friday night, from Brazil.

— Henry Williamson was fatally injured while intoxicated, by being run over by a train of cars at Augusta, Me., on Monday, and died the next day. He was 21 years of age.

—Many Southern journals speak of the Philadelphia Convention in warm terms. Others declare that if the friends of the South, Wood and Vallandigham, Voorhees and others are to be excluded, the South has no business there.

— Samuel S. Cox, it is understood, will receive the Democratic nomination for Congress in the Sixth district of New York, now represented by Henry J. Raymond. John Morrissey will be nominated in the Fifth, J. W. Chanler in the Seventh, and James Brooks in the Eighth districts.

— The most destructive hail storm ever known in Berkshire county, passed over New Ashford Wednesday afternoon. It hailed steadily for an hour and many of the stones were as large as walnuts. Great damage was done to the crops, and scarcely a house escaped without having more or less window panes broken out.

Correspondence of the Chronicle.

NEW YORK, July 26.

Total deaths in New York city last week, 1342.

Largest burials any one day, 343; smallest, 87.

Many cases of coup de soliel are included in these figures.

The capital of the new Western Ex. Co. is ten millions. The stock is very generally owned by Western merchants. We understand the name is to be the "Merchants Union."

It should be generally understood that cholera in New York up to date has been almost entirely in the poor districts,—and without exception traceable to filth, improvidence or neglect.

It is proposed to have a "circuit drive" round the edge of the big reservoir of 106 acres at the Park.

Portsmouth readers of the August Atlantic will be interested in a long commentary on the Poems of Thos. Bailey Aldrich. The bit at the "Mouse" is neither very brilliant or effective. Such little depredations, on the merit of Mr. Aldrich's Poems, are surely welcome substitutes for a well-known strain which overburdened his earlier productions.

We think those readers of the Atlantic Monthly who have appreciated its elevated tone, and the previous almost unexceptional culture and refinement of its articles, would be gratified by an assurance that the character of such a story as "Griffith Gaunt" was not fully known by the Censor of the Magazine till after its publication had been commenced.

The total N. Y. subscription for Portland is $158,000.

The Stetsons of the Astor House have opened a new and elegant hotel at Long Branch—the "Stetson House." N.

RESCUED.—Capt. Chauvel, of ship Chimiste of Fecamp, France, reports having picked up on the 19th inst., on the Grand Bank, a seaman who had been five days in a dory alone and *without food*. He was in a state of extreme exhaustion. He gave his name as J. A. Hunter, belonging to the Sch. Robert Raikes of Provincetown, Capt. McIntosh. He was landed at St. Peirre, June 23, and placed in the care of the Consul of the United States.

☞ Who appreciates the fact that there is any great importance attached to such a commodity as a Pill? It is generally supposed that anybody can make them, as all can take them. But visit the laboratory of Dr. J. C. Ayer and you will be disabused of the idea, that it is a trifle to make any medicine and adapt it to the wants of millions of men—to so adjust it to their needs, and so cure their complaints, as to make them its constant customers in all the zones. Physicians find it requires some skill to adapt their doses to a single patient: ask them if it is not an intricate problem to adjust a purgative pill to the necessity of untold numbers, so that it shall benefit them nearly all. Dr. Ayer's laboratory supplies 60,000 doses of his Pills per diem, or 19,000,000 a year. Think of that Esculapius! Well may it whiten the head of any man to administer to that amount of suffering, and especially when, as is here evident, everything is done with the extremest nicety and care.—*Randolph (Vt.) Statesman.*

VIRGINIA AND EAST TENNESSEE.—The Lynchburg Virginian says the crops in Southwestern Virginia and East Tennessee are of the most promising character. The oat and hay crops, now harvested, are splendid, and the corn promises to yield a most bountiful harvest. There will be enough produced there to feed the entire State. The wheat turned out better than was expected, and realized about half a crop. The tobacco in the counties nearer Lynchburg is looking well. The planting was large.

☞ The Commissioner of Internal Revenue publishes a tabular statement of the number of gold watches in the United States, for which the tax was paid up to the end of last March. The aggregate is 370,530; of tax paid, $418,691. The largest number was in New York, the tax amounting to $107,268; the next, Massachusetts, amounting to $45,418; the smallest, Idaho, amounting to $35.

— Mr. Guthrie thought the best course to pursue was to swear in Mr. Patterson, and if it appeared afterward that he was not entitled to a seat the Senate could expel him.

— The Montgomery Ala. Mail (late rebel, now Johnson) calls loudly for the proscription of the Federal office-holders in that State because they do not support the Randall-Niblack Convention.

— More members of the Tennessee Legislature have obtained leave to record their votes in favor of the joint resolution adopting the Constitutional amendment. The vote of the Legislature on this measure now stands: Senate—ayes, 25; noes, 6. House—ayes, 45; noes, 11.

— Major Lansom, Recorder of Deeds of Jackson County, Mo., while going to his house, in the suburbs of Kansas City on Saturday, was attacked by five bushwhackers, and shot three times and severely wounded. The Major returned the fire and the assassins fled. A party of citizens immediately started in pursuit. The outlaws are known, and will be brought to justice.

Holloway's Pills.—Derangement of the Stomach and Bowels.—As the stomach by the agency of the gastric juices assimilates digested food into elementary blood, we cannot be too careful of preserving it in a healthy and vigorous condition. PARAGUAY.—Rio Janeiro dates to the 2d state that Lopez had bought cannon at Humaita and commenced the bombardment of the allied camp. The situation of the latter was critical and called for the immediate expulsion of the Paraguayans from their strong position or the abandonment of the invasion.

The Camp, the Battlefield and the Hospital,

or Lights & Shadows of the Great Rebellion. Heroic, Patriotic, Romantic, Humorous & Tragical. Splendidly Illustrated with over 100 fine Portraits and beautiful Engravings.

This work, for genial humor, tender pathos, startling interest and attractive beauty, stands peerless and alone among all its competitors.—The Valiant and Brave Hearted, the Picturesque and Dramatic, the Witty and Marvellous, the Tender and Pathetic, the Roll of Fame and Story, Camp, Picket, Spy, Scout, Bivouac, and Siege; Startling Surprises; Wonderful Escapes; Famous Words and Deeds of Woman, and the whole Panorama of the War are here thrillingly portrayed in a masterly manner, at once historical and romantic, rendering it the most ample, brilliant and readable book that the war has called forth.

This work sells itself. The people are tired of dry details and partizan works, and want something humorous, romantic and startling. We have agents clearing over $200 per month. Send for circulars, and see our terms and proof of the above assertion. Address,

POOR PLACE FOR THIEVES.—David E. Young runs an express team from Epping to the different towns back from the Railroad in that vicinity. He is what is termed a "Shoe freighter." Upon his arrival at Epping his shoes are placed on board the train, brought here and trans-shipped on the E. R. R. to Lynn. For about two months past Young has been missing shoes from his car every week. He notified the police authorities of this city some weeks since. Officers were placed on the train on the day upon which Young's shoes were on the train. The cars have been watched, and persons suspected have been looked after,—and it seemed almost impossible to strike any "lead" which could be followed. "The way of the transgressor is hard," however; and on Friday night Patrick Griffin was arrested—it having been ascertained that he had sold some of the shoes. He had a trial before Judge Odell Saturday afternoon, and was bound over to the October term of the Circuit Court in the sum of $500. City Marshal Johnson and assistants worked this case up. Other parties are suspected.

☞ We learn that that grand excursion to the Lake and almost everywhere else, by way of Concord and Manchester, will take place next Thursday, if good weather. A special train will leave the C. & P. Depot in this city at 7 o'clock. Tickets only $2.25 for the round trip, of 225 miles of railroad and 50 miles of steamboat travel, through the most beautiful region in the world—the regular fares for which are $7.60. Several new attractions have been added since the former excursions—a chief one being a fine hotel on Diamond Island. Particulars tomorrow.

☞ Thanks to John S. Harvey, Esq., for a beautiful basket of delicious black tartarian Cherries, from his garden on Deer street. If anybody has grown richer fruit, we have not had opportunity to test it. Few men attend to business closer than Mr. Harvey, and few enjoy their garden more; and we hope we are not altogether selfish in wishing him a long continuance of his good success therein.

☞ U. S. Deputy Marshal Morse and a United State detective, with a search warrant, entered the residence of Jas. W. Tuttle, in Manchester, on Friday, and there secured an apparatus used for coloring counterfeit bank bills. Tuttle is now in Manchester Jail on charge of uttering forged notes.

☞ The New England Publishing Company announce in our columns, to-day, a most attractive book upon the war—"The Camp, the Battlefield and the Hospital"—printed on fine paper and clear type, with many engravings, and making a volume of over 500 pages. Mr. Edwin H. Leslie, agent for this county, will call upon our citizens, and give them a chance to inspect the work, which is sold by subscription only.

☞ Bachman & Co. have a whole column of dry goods talk on the 1st page—and wish it to be understood that they are not to be beat in their line, by anybody in the business, old or new comers.

☞ It is hardly needful to advise our citizens to avail themselves of the opportunity offered them this evening to enjoy a good dramatic entertainment. When they are reminded that E. L. Davenport is to play, with competent support, the bint will be sufficient to insure a good house.

☞ Read every page of to-day's paper. The list of incomes, for which we are indebted to our friends of the Journal, will be found on the fourth page. Bachman & Co. also announce their determination not to be undersold by any dealers in their line.

☞ At the Worcester Regattas, on Friday, in the race for single sculls, Walter Brown was the victor, over Joshua Ward, of Newburg, N. Y., making the two miles in 15:15 very easily. Ward's time was 15:33. Harvard was victor over Yale in the Scientific and University races.

☞ We are indebted to Senator Cragin for numerous documentary favors.

— Five noblemen own one-fourth of Scotland.

— They have a pleasant custom of sending the printer a greenback with marriage notices, out in Ohio. Down South they send him a bottle of "green seal."

—A rural chap visiting Grand Rapids, Mich., got playfully drunk, when, observing a bull pup, he went down on his hands and knees to have a little game with him. The pup feeling cross, grabbed him by the nose, and after much trying and twisting, tore it off.

— C. H. Brand, a Chicago saloon-keeper, ordered his bar keeper to draw him a mug of beer one day last week, which he took in one hand and a Colt's revolver in the other, and going to the rear of his saloon, drank off the beer, deliberately sat down the mug, wiped his mouth, and then inserting the muzzle of the pistol into his mouth, fired it, blowing his brains all around the shed.

Caution

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 Endicott St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. Invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.

Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They eliminate the humors from the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true of one is present in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

COMMISSIONED.—We learn that Mr. James H. Berry of Newington, who was in the naval service during the rebellion, has been commissioned as third Lieteanant in U. S. Revenue service, and is stationed on board revenue steamer Fessenden, off Detroit, Michigan.

TEMPERANCE DIVISION.—Last Wednesday evening the Sons of Temperance had a social gathering at their rooms, in which they installed their officers for the next six months. After the installation was through, Mr. James Dearborn of Greenland, sang a variety of amusing songs suitable to the occasion. Then came the beautiful Drama entitled the "Fugitive Slave" which was most splendidly performed and was applauded by all witnesses as being very appropriate. The audience were then favored with another comic song, which concluded the evening's entertainment. The Division did their best to make everything pass off pleasantly and agreeably.

John Knowlton, Esq. of this city, has been appointed Naval Officer for this District, in place of Ex-Mayor Dearborn. The Senate have confirmed the appointment.

A dispatch of forty words per day through the Atlantic cable will cost the press of this country about $125,000 per annum.

An injunction has been served on the Treasurer of Lowell not to pay to the people of Portland $10,000 voted by the City Council.

In addition to our business of selling Wines, etc., in original packages, and in order to insure to consumers Pure Liquors in a compact and convenient form, we commenced the enterprise of bottling and packing in cases our well-known Wines, Brandies, Whiskies, etc., and have sent them out in a style that would preclude the possibility of their being tampered with before reaching the purchaser. The general appreciation and gratifying success that has rewarded our efforts has encouraged us to maintain the standard as regards quality; also, to make increased efforts to retain the confidence and patronage which has been so liberally bestowed upon us. The Use of this Column

Has been bought and paid for for three months, by

C. A. RICHARDS & CO.,

the largest Wine Merchants in New England. Their object for this outlay is to

TELL THE PEOPLE

that they have the most extensive variety of

PURE WINES AND SPIRITS

of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—

EXTRACT OF RYE,

EXTRACT OF RYE;

WHAT IS IT!

Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

Perhaps they are right. Try it and see.

IT IS MADE FROM

RYE,

and from the best Rye at that.

None of your musty, mouldy, heated stuff, but the

Very Best of Rye

that grows in the Cumberland Valley.

It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.

It is Made Different.

It retains, by a peculiar mode of distillation, the very

MEDICINAL QUALITIES

that have made it so popular. If you want to use

A Pure, Genuine Article of Spirit,

to stimulate a Weak stomach, or to give you renewed health and long life, use the

TEXAS, &c.—A dispatch from Navasoto, Texas, July 26, says:

The convention here to-day adopted strong resolutions appealing to the Northern people of all parties to disregard the fanatical statements made to the injury of the State. Delegates to the Philadelphia Convention were appointed.

Another dispatch says the Stonewall Home Guard, composed of fifty late rebel soldiers, has been broken up at Galveston, Texas, by the military authorities. The members generally act defiantly, and intend to organize at some other place.

The military are after Bill Forrest and his gang of murderers, who have been the terror of Grenada, Miss.

A dispatch from Memphis says a gentleman formerly surgeon in the United States army, was brutally beaten on the head with a pistol because he had dared to purchase property at the United States tax sales.

News from Fort Smith, Arkansas, is to the effect that serious troubles had arisen between the Choctaws and their former slaves, and that troops had been sent to quell the disturbance.

The Richmond Whig complains because negro military companies are allowed to be organized in that city.

— A soldier threw himself from the top of the Column of July, in Paris, a few days ago, because he did not get the cross on his return from Mexico, as he expected. He was taken up dead, of course.

— A Democratic letter from Washington says: "Observing men, who have mixed with the people in the West lately, are not very hopeful of a thorough change in the character of the House at the coming fall elections."

— Agassiz says that man existed on this earth 70,000 years ago, and Dr. Barret of Middletown says man trod the Connecticut valley 90,000 years ago, but an entirely different race from ours, which he says is a new and distinct creation.

TUESDAY, JULY 31, 1866.

OUR COUNTRY.—This is a great country, as Kossuth when here truly said. Stretching from the great lakes to the inland ocean improperly called the *Gulf* of Mexico, and from ocean to ocean, it embraces a territory larger than all Europe—larger than any other country, Russia perhaps excepted. Our population is larger than that of England, and about equal to that of France. No other nation has so large a mercantile marine. Our commerce extends to every sea on the globe. And yet we are a young nation.

The number of our States has been increased from thirteen to thirty-seven; an empire, we fear, too extensive for a free republic. It may require a strong central government to hold the whole in due subjection. The plan of our government is an experiment never before tried; the general diffusion of knowledge and virtuous principles are the main pillars for its support; without these it is certainly true that our political edifice would fall. We enjoy the blessings of the mildest, the least oppressive, the most benificent, and in fact the best government that human wisdom ever devised. This is because the people govern themselves, through their representatives. Here all political power is derived from the people, thus refuting the absurd doctrine held under monarchies, that the power is derived from crowned heads.

Is it not, therefore, strange—marvellously strange, that any portion of our people should attempt to subdue such a government; or that any rational being at the North should sympatize with the bloody traitors, who aimed a deadly blow at our national life? But the government, supported by our patriotic and loyal people was strong enough to crush out the most atrocious and wicked rebellion that ever disgraced the earth. All good citizens readily submitted to heavy taxation, because it was for their interest so to do. Besides the dreadful sacrifice of human life, the rebellion has been the means of creating a national debt of over two billions, which, in justice, and according to the usages of war, ought to be paid by the conquered rebels. But the merciful conqueror will only require them to pay their proportion, after being admitted into the Union. Such are the vast and inexhaustable resources of the North and Northwest, that it would be in their power to liquidate the national debt in a very few years, but it is proper and expedient that it should be paid gradually, so as not to be oppressive upon the present generation.

It appears that the amount of revenue paid into the national treasury during the fiscal year ending on the 30th June last, was nearly five hundred and thirty millions —larger by $150,000,000 than Great Britain ever collected in one year. From customs $170,000,000 were paid in gold. The internal revenue was $273,000,000, and from miscellaneous taxes $21,000,000 more. From this vast amount the public debt, besides paying the interest $142,500,000, was reduced to the 1st June $87,000,000.

Still the taxes are at present necessarily onerous, and we think ought to be largely reduced upon the necessaries of life, and probably will be at the next session of Congress. The import duties upon foreign importations ought to be increased, in order to reduce the internal taxes, and also lessen foreign importations, in excess in value of our exports; for at present the balance of trade is against us, and must be paid by the export of gold, which tends to delay an immediate return to a specie currency. Secretary McCULLOCH, in his able report, recommends a return to the specie currency as soon as practicable. This is sound doctrine.

MEXICAN LIBERAL GOVERNMENT.—It is alleged that official advices from Chihuahua state that Juarez and his whole Cabinet was there on the 20th and the Government is in full operation. It is reported that they met with an enthusiastic reception on the route.

☞ It is related of a distinguished official that when one of the chiefs of the bread and butter brigade demanded that he signify his sentiments in regard to the Philadelphia Convention, he replied by stating: "I am earnestly in favor of that Convention, and that ought to be sufficient; but if you need my reason for approving it, I cheerfully give you the advantage of it. I favor the Philadelphia Convention because I believe it will blow the whole administration to the devil."

— The Johnson Convention in Vermont is said to have numbered forty-six persons.

— James W. Nye and Wm. Stewart, Senators in Congress from Nevada, have engaged passage in the San Francisco steamer which leaves New York on the 11th of August, and will, on their arrival at home, immediately enter upon the political campaign.

THE RICHMOND CHIVALRY. — The Richmond chivalry are sadly troubled at the independent attitude of some of their freedmen. The *Whig* of yesterday morning says:

"The negroes who insult this community by military organizations, drills and parades and by incendiary gatherings, harangues and resolves, should remember that they are dependent upon the white people of Richmond for every morsel of bread that goes into their mouths, and for every house, hut or cellar that shelters them and their families. If these things go on we shall advise that a full list be made out of the names of all who take part in any such proceedings, for publication in the papers, and shall call upon the good people of Richmond not to give employment, even to the blacking of a boot, to any one whose name is embraced in the list, and not to rent so much as a dog kennel to any one of them for protection from the coming blasts of winter.— If they choose to insult, to irritate and endanger the peace of the community from whom they receive nothing but kindness, we shall do our part to see that they are not allowed to remain in that community. We speak now for their good more than that of their late masters, who will know how to protect themselves should an emergency arise.

☞ The Washington correspondent of the Hartford Press says of Gen. Grant:

"All talk about his agreement with the President's policy is copperhead lying— *there isn't a word of truth in it.* Gen. Grant agrees with Gen. Logan, and with his intimate of friends, Mr. Washburne, member from the Galena district, who is now lying ill at the General's house. Mr. Washburne is a prominent radical. Look at Grant's recent order! The President would put his foot on it if he dared. It would be open war between the two men were it not for Seward, who is a diplomatist."

☞ Major General Wright, commanding the Department of Texas, has issued a general order stating that as information had reached him to the effect that some of the persons chosen at the late election claim to enter without any other authority upon the duties of their office, he orders that the commanding officers of the Districts, posts and detachments shall in no way recognize them as officers, but shall continue to support the *Provisional* Government and the officers appointed under it until such time as that government shall be discontinued by an order from the President of the United States.

☞ A great storm of thunder, rain, hail and wind, occurred on Friday afternoon at Hartford, Conn., and in the valley as far as Hadley, making bad havoc of the tobacco crop, and damaging the corn. A similar storm, mostly of hail, took place on Wednesday, in Middletown and its vicinity.

LIGHT OUT OF DARKNESS.—The boys are now plucking from its watery bed that beautiful flower, the pond-lilly, and vending them on the station platform, and at other places where people most do congregate. What flower so fragrant comes from so black, slimy, and foul a bed? It is the emblem of light out of darkness. Without planting and without care, this lovely and sweet-scented product of the water, comes forth in equal abundance every year, to fill its allotted space in the vegetable kindom, and prove that beauty can be educed even from corruption. But the pond-lilly, in spite of its beauty and its fragrance, is regarded by some people as a valueless flower, because of its plebeian origin.—*Ex.*

— On Friday evening of last week as some young men employed at Thompson's Tannery in Winchester, Mass., were frolicing together, a man by the name of John Welsh, who was reclining upon the ground was taken hold of by another by the legs, and in an attempt to throw him over, wrenched the spine of said Welsh, which led to the complete paralysing of his body below the neck. He lived until the next evening at 5 o'clock, when he died in convulsions.

— An elderly lady, aged about 75 years, and two young ladies, belonging in Stratford, Conn., recently went into the garden to gather cherries, when it was proposed to find out which of the trio could climb the tree the quickest. The result was that the old lady reached the top of the tree some time before the young ladies got half way up. A smart old lady that.

—The minority report of Representative Rogers on Jeff. Davis' complicity with the assassination of President Lincoln, charges the majority of the committee with keeping the documents from him until last Friday, and argues that Davis should be tried by the civil authority if evidence is found implicating him.

— A horse recently jumped over the rail at a racecourse and seriously hurt a young man. While he was lying on the grass, another young man uttered a piercing cry, and exclaimed, "My brother, my poor brother!" He flung himself on the prostrate form, from which he was at length kindly and gently raised, while the injured man was taken away to receive medical care. It afterward transpired that the affectionate creature who flung himself on the body of his brother, had done so to steal his gold watch and chain and portemonnaies.

— The Empress (so called) of Mexico is on her way to Europe,—to come back in November, perhaps.

— A vessel has sailed from New York with a cargo of arms and powder for Matamoras, Mexico—to be used by Juarez' army.

GOLD, Monday, 147 1-2.

☞ On Sunday, at Plymouth, Mass., severe thunder showers prevailed nearly the whole day, the lightning striking in several places. The dwelling house of Major S. H. Doten was struck, but the conductors carried the fluid safely to the earth. In the afternoon a bolt descended upon the Universalist church, shattering the spire, and then glancing from the house finally passed off through the kitchen of a house near by occupied by Judge Russell of Boston as a summer residence, without causing further damage.

☞ Dispatches from New Orleans, July 28 and 29, exhibit something of a melee, in which Gov. Walker, Mayor Monroe, Gens. Baird and Sheridan, the Convention of '61 and the negroes, are somewhat mixed up; but we suppose the two Generals will straighten out matters in due time.

In an interview with the Mayor, Gen. Baird stated positively that he would prevent the Sheriff and posse, or any State or civil officers from interfering with the Convention.

☞ Twenty circular buoys, each about twenty tons lifting power, are being built at Portsmouth, Va., to be used in raising the sunken liners Delaware and Columbus at the Gosport Navy Yard. After being placed in position under the hulks they will be pumped out by means of force pumps, and by this means the contractors expect to raise the vessels.

☞ Barnum and Van Amburg have projected a new enterprise—a Zoological Garden in New-York—with a capital of two million dollars ($2,000,000), a free Museum, &c.

☞ A good number:—The Phrenological Journal for August. Fowler & Wells, publishers, New York.

OF THE CLOSE OF THE SESSION OF CONGRESS, Perley says there were no quarrels, no fights, and none of the other disgraceful exhibitions which used to be witnessed at the close of sessions when we had the chivalrous sons of the South there.

Gen. Banks' neutrality bill was defeated in the Senate through the opposition of Senator Sumner. [It will probably pass at the next session.]

Among the confirmations by the Senate on Friday night were the Commissioners to revise the laws of the United Stacs, viz: Caleb Cushing, William Johnston and Charles P. James.

The only bills remaining in the President's hands unsigned are the bills to admit Nebraska, and the joint resolution permitting the use of the Fair building by the friends of Ireland.

The President and the Cabinet spent about two hours on Saturday in discussing the civil appropriation bill. The features which gave most trouble were the bounty provision and the increased pay of members of Congress. The bill was signed by the President very reluctantly.

☞ The news of Monday morning, announced the completion of the Second Atlantic Cable, and the Peace in Europe. A telegram from Heart's Content July 27, to Pres. Johnson, reads thus:

Sir: The Atlantic cable was successfully completed this morning. I hope it will prove a blessing to England and the United States, and increase the intercourse between our own country and the eastern hemisphere. Yours faithfully, C. W. FIELD.

The European news is in brief, that a treaty of peace has been signed between Austria and Prussia.

A previous telegram says that the five days armistice between Austria and Prussia commenced at noon on the 23d of July.

There was more fighting on the 22d, the Austrians claiming a victory.

The Earl of Shaftsbury has protested in Parliament against reform meetings.

In a discussion on the tariff Sir John Pakington admitted that England was behind other nations.

There was a severe engagement on the 20th off the Island of Lesina. The Austrians claimed a victory. They sunk the Italian iron-clads, running down one and blowing up three.

HOW VALLANDIGHAM WAS CHOSEN.—A special dispatch from Hamilton, Ohio, states that the Democratic District Committee for the 3d District of that State have appointed Judge Gilmore and C. L. Vallandigham delegates to their Philadelphia Convention. The Committee, as they came together, were divided upon Vallandigham and his opponent, and but one member from Montgomery City appeared. That member cast five votes for his absent colleagues and elected Vallandigham.

Strong efforts were made by prominent conservative Republicans and War Democrats in the 3d District to defeat the selection of Vallandigham, and appeals were made to him personally to withdraw from the contest, but Vallandigham insisted that he was the true representative of the people of his District, and he would go to the Convention, "let come what may."

— The Hon. W. L. Kelly of Pennsylvania declines being a candidate for the United States Senate, and declares in favor of the Hon. Thaddeus Stevens.

Heroic, Patriotic, Romantic, Humorous & Tragical. Splendidly illustrated with over 100 fine Portraits and beautiful Engravings.

This work, for genial humor, tender pathos, startling interest and attractive beauty, stands peerless and alone among all its competitors.—The Valiant and Brave Hearted, the Picturesque and Dramatic, the Witty and Marvellous, the Tender and Pathetic, the Roll of Fame and Story, Camp, Picket, Spy, Scout, Bivouac, and Siege; Startling Surprises; Wonderful Escapes; Famous Words and Deeds of Woman, and the whole Panorama of the War are here thrilliugly portrayed in a masterly manner, at once historical and romantic, rendering it the most ample, brilliant and readable book that the war has called forth.

This work sells itself. The people are tired of dry details and partizan works, and want something humorous, romantic and startling. We have agents clearing over $200 per month. Send for circulars, and see our terms and proof of the above assertion. Address,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spots,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. D. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible, and harmless.

Prepared by D. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $1 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. 1yeodsa—oct19

☞ This day's issue of the Morning Chronicle, completes the fourteenth year of our Daily publication. We enter on the fifteenth year, with prospects more encouraging than ever—thanks to liberal, long-continued and ever-increasing patronage.—We are intending, if the pressure of business of all sorts will allow,—to make considerable changes and improvements in both our Daily and Weekly editions, ere the the close of the year proper.

☞ To day is your last chance to save the 6 per cent. discount on City Taxes. And by the way, speaking of Taxes—what difference there is in some cases, between Assessors' estimate of a man's property, and his own statement of income, isn't there? Its looks as though some folks omitted a cipher from their profits last year. To be sure: a man may have considerable property to be taxed for, and still not make much money; but the two ought to bear some sort of relation to each other, generally, after all. And of course no *rich* man—no man of good income, ever pays too much City tax, not to mention income tax.

How absurdly people feel and act with regard to taxes, too, don't they? Many, perhaps most people, think *they* are taxed too heavily, and their neighbors not enough. Did you ever see a man who thought he himself was not taxed sufficiently? And the more property that a man has, the more he "feels" or begrudges his taxes, too; which always seemed the most absurd thing in the world to us, since if riches are more trouble or vexation than they are worth, it is so very easy and pleasant to give them away to the more needy and less fortunate—if indeed, there can *be* any human being "more needy or less fortunate" than a man who has got money enough to be called "rich," but who don't know how to enjoy it, and still craves more so strangely as to desire to shirk his due obligations to his fellow men, and the community he lives in, and the world.

POLICE COURT, July 30.—The case of Willey and Palmer, for breaking and entering store of C. W. Kimball, continued from June 30, was brought up and defendants discharged.
Tim Murphy for drunkenness, discharged.
Franklin Sweet, got sweetly drunk, and sobered on sour $6.86.
James M. Hyde, for gobbling and hiding cotton cloth from store of H. Poyser, was fined $5.00 and costs $5.74, and to pay Poyser $30, in default of which he joined the Joy-ful crowd at the county jail.

☞ It will be seen that the great Lake; Excursion takes place on Thursday next, and that no tickets will be sold which cannot find a seat. The price is much less than one-third of the regular fare; and as in former years, of course the tickets will be all taken up, and vainly called for at last—so if you would not be disappointed, secure them in season. Only think, a picnic on Lake Winnepisseogee for a couple of dollars or so. Or those who prefer it, can get a nice dinner on board the steamer or at the new hotel on the island. We don't see how the excursion can be afforded so cheaply, or how it could be improved.

Communication.
THE SHOALS FIRE.—*Mr. Editor*—Your remarks regarding Gosport were very just and appropriate. Every one admits that the desolated town has a claim upon our sympathy; that something ought to be done for her; and it is a shame that she has been so neglected — while Portland, which suffered far less in proportion, in loss of property and in its powers of recuperation, has been so nobly and generously relieved.—Every one aids *her*, from Congress to the State prisoners; while the Smith's Islanders are left to know what it is to be without shelter, without beds to sleep in, without clothes. And we do not know how soon this may be our own case, and we ourselves be driven to seek temporarily the shelter of some hospitable roof till Providence may restore ours.

That Providence calls upon us now to remember those in adversity, as being ourselves also in the body, and bound with them. There they are! (one fourth of the village and one-half their town value burned) and the bereaved not gone away. Who has offered to receive them? They are crowded into the remaining houses, which were generously opened to them by those who were ill able to bear the additional burden—and their sad case is as loudly calling for help as it was two months ago, when they were burned out, in May, I think.

Mr. Editor and the public, this must be looked to, and it will be. Such misfortunes cannot happen within ten miles of Portsmouth and "be passed by on the other side." The priest, the Levite and the Good Samaritan will all come to the rescue, wont they? ONE AFRAID OF FIRE.

[*Remarks.*—We can't say, though we devoutly hope they will. We suppose the only reason why these poor sufferers have been thus neglected and forgotten, is because they had no Mayor or other eminent representative to present their case to the world and beg for them. But was it not—*is* it not still, a case eminently worthy the taking up of contributions in *our* churches at least, and the most liberal contributions of all sorts,—money and material, private and public? If not, why not?—*Eds. Chronicle.*]

The subscription book for the relief of the Gosport sufferers may be found at the bookstore of Joseph H. Foster.

Ayer's Pills.
ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions, and remove the causes of sickness somewhere in the body, and derange its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.
They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.
Ayer's Ague Cure.
For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill-Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*
This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Morning Chronicle.

"Behold how Sinners disagree,—
The Publican and Pharisee."—*Watts.*

The call for a State Convention in New York to send delegates to Philadelphia, signed by Com. Vanderbilt, A. T. Stewart, William B. Astor, Hamilton Fish, John A. Dix and others, contains the following statement:

"By the language and spirit of the call (Philadelphia) those who refused their support to the Government in putting down the rebellion, and those who approve of the action of Congress by keeping loyal Representatives out of their seats, and loyal States out of the Union, are excluded from the invitation, and are not expected to participate in the preliminary meetings, or to take seats in the Convention."

Per contra, the New York News, Ben. Wood's paper, close an article on the Philadelphia Convention as follows:

"It is useless for the Times to manœuvre or to equirm. The convention is not to be governed by Mr. Raymond, nor will he dare to oppose it. Let him loyally accept the situation,' and unite in good faith with us and all true patriots in putting down the radicals and restoring the Union."

FAITHFUL SERVICE.—Messrs. Henry W. Dutton & Son—the proprietors of the Boston Transcript—have presented to Mr. Wm. Durant, (who has been in their employ for thirty-two years,) an elegant silver pitcher and salver, in remembrance of his efficient exertions to advance the interests of that establishment during a period including more than a generation. The incident is one creditable to the firm and the receiver of the handsome gift. Upon the pitcher is inscribed the following:

"Wm. Durant: On his fiftieth birth-day, July 26th, 1886. From H. W. Dutton & Son. In grateful appreciation of his services for thirty-two years in the office of the Boston Evening Transcript."

— Proper names are so few in Wales that out of 1000 births registered in the Methyr Upper district, between Oct., 59, and August, 1860, 100 were named Davis, 100 Jones, and 46 Williams; and out of 1000 births registered *during the same period in the Methyr Lower District*, 108 were named Jones, 94 Davis, and 62 Williams.

AMERICAN AND FOREIGN PATENTS

R. B. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and long experience in advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. B. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at the lowest possible charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN ADDITIONAL CLAIMS by one of which was decided in *his favor*, by the Commissioner of Patents.

R. B. EDDY.

DR. KNIGHTS' HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

FREAK OF AN INSANE MAN.—The relatives of one Mr. Cordes of St. Louis, Mo., recently came to the conclusion that he was insane. A short time ago he purchased a house and grounds, and concluded to construct a zoological aquarium and aviary for the pleasure of his friends and the public. Upon his grounds was a large sink hole, in which was a pool of water. He decorated the sides of this hole with jimson weed, dog fennel and boneset, and purchased a collection of beautiful singing birds, among which were the crow, the cat bird and hedge sparrow; and he imported two large alligators and placed them in his lake at the bottom of his sink hole, and took great delight in watching their sportive gambols. He people the laughing waters of the pool with melodious bullfrogs, beautiful water dogs, moccasin snakes, soft-shell turtles, gars and Mississippi catfish. Just as Mr. Cordes had completed these arrangements he learned that his relations had applied for a writ *de lunatico inquirendo*, and so he packed up his clothes and started for Minnesota. His friends, his alligators, and the Probate Court anxiously await his return.

BLESSING A BRIDGE.—A fine new bridge has recently been constructed at the village of Assumption, over the river of the same name. We learn from the Gazette de Joliette that a religious ceremony of inauguration took place before a large concourse of people. According to an old custom, which it is intended to revive, the parish priest, the Rev. Mr. Dorval, blessed the bridge, and not only blessed it, but also christened it, Monsieur and Madam Fontaine standing as godfather and godmother. Whatever will be thought of this ceremony of blessing, there seems no question but that the bridge is itself a great blessing to all the inhabitants of that region, and was much needed to facilitate their intercourse.—*Montreal Witness.*

— At a meeting of the National Democratic Union Club a vote was carried requesting Vallandigham not to present himself at the Philadelphia Convention. It is said that the Ohio Patriot resents the proposition with indignation.

WEDNESDAY, AUGUST 1, 1866.

POOH, POOH!—We have before us a New England paper which supports the Johnsonian policy, berates Congress, belies the radicals, and pins great faith on the sleeve of the Philadelphia convention:—and it says:

But the Philadelphia Convention will go on nevertheless. The Old Line Whigs, the War Democracy and Conservative Republicans are joining hands to stay the progress of the revolutionists, and will unite their forces in the coming elections to defeat radical men wherever they can.

War democrats! forsooth,—such as Vallandigham, Ben and Fernando Wood!—Who are going from New Hampshire? We do not know; but we have heard of two, viz. ex-President Pierce and Hon. Daniel Marcy. We don't believe either of them would claim the title of a *War* Democrat. And then, look at the following item from the Tribune.

Messrs. Ben and Fernando Wood have already taken proprietorship of the Philadelphia Convention. They do not object to allowing a delegation of Republicans to come in, provided they behave themselves—"provided," says the apostle of Peace and Chance, "they stand squarely on the principles of the Randall call. If they honestly act up to it we shall be glad to see them there. But there must be no looking one way and rowing another." We beg Mr. Raymond's attention.

STRAWS.—The *Rochester Express* says that the opinion of the TRIBUNE that Mr. Raymond's letter was mere Chinese thunder "is the universal feeling among Union men" in the western part of New York. We think our friend on the fence had better bring out his gong and try another alarm.

The *Lynchburg Virginian* thinks it is not possible that the test oath will be administered to the delegates to the Copperhead Convention at Philadelphia. We hardly think so.

The *Memphis Appeal* is afraid the Randall-Niblack Convention will disorganize the Democratic party! Don't be afraid! The Copperheads know what they are about.—*Tribune.*

☞ The wool amendment to the Tariff bill, as just passed by the House, preserves substantially the first and second sections of the bill which lately passed that body.—Wool and woolen manufactures are equally provided for, the amount of the amendment being the imposition on wool of 10 cents specific and 11 cents ad valorem, instead of 10 cents ad valorem. The change is sufficient to satisfy all interests without rendering its success as a measure doubtful, and establishes a more cordial understanding between the growers and manufacturers of wool.—*Tribune.*

LONDON ITEMS.—July 28.—An armistice of four weeks from yesterday has been signed by Prussia, Austria, Bavaria and the other German States. The propositions embrace a lasting peace over the whole continent of Europe.

The Tribune's special over the cable, dated Friday night, says: "In the House of Commons on Monday night Lord Stanbury said the Cabinet were anxious to remove any irritation arising out of the cases connected with the war between the North and South. If the claims were presented by the American Cabinet, the English Government intended to issue a royal commission to inquire into the neutrality laws, and if possible revise them.

Another dispatch to the Tribune, dated July 24th, says Baring Brothers announce that large remittances are on their way to pay the dividends on the Mexican bonds.

There was a reform demonstration in Hyde Park yesterday. Fifteen hundred police and a detachment of the guards protected the Park. The gates were closed.—The mob broke the iron railing and forced an entrance; several persons were injured. The horse guards charged the people but did not use their swords.

JAMES GALE.—Mr. James Gale, the inventor of the method for making gunpowder non-explosive, was born at Taveslock, a small town of Devonshire, in the west of England. He is the son of poor parents, and received but little education at the British school of that town. During his school days he earned his living by selling cakes of blacking on Saturdays, going from house to house. A sad calamity befell him while thus engaged. He became perfectly blind, after every effort had been made to restore his sight without success. He then resumed his former pursuit, walking his rounds alone. Having an ear for music he soon became an accomplished player on the concertina, which, with his blacking business, furnished him lucrative employment. Having made a little money, he married the school mistress of the Taveslock workhouse. Her friends blamed her much, but their advice was of no avail. They were married and removed to Plymouth, where they opened a bread store. The wife managed the shop, and the husband devoted his time to galvanism and electricity; and on learning of the explosion of the powder train at Balaclava, he conceived the idea of the possibility of making gunpowder non-explosive without deteriorating its power, so that by a mechanical change it was restored to its original strength. This he has succeeded in doing, and is now raised from comparative poverty to wealth. He has already received $150,000 for his invention, with an interest in the company which has undertaken to manufacture the article and carry on the business of carriers of the combustible article at non-explosive rates, saving the merchant £5 per ton for transportation.

—"I declare, Mr. Goldthumb, you have read everything." "Why, ma'am, after working thirty years as a trunk maker, it would be to my shame if I didn't know something of the literature of my country!"

NEW HAMPSHIRE ITEMS.

—The Golden Wedding of Capt. Daniel Wiggin and wife, of Stratham, was observed May 25.

—Rev. B. F. Bowles has resigned his pastorship of the Lowell Street Universalist Society in Manchester,—to close September 30.

—During the shower on Friday last, a large Elm tree about four feet through at the but, near Mr. John Nudd's house in Kensington, was struck by lightning, and shattered into splinters.

—In Exeter last week a young loafer insulted a married woman who was going into her house with an armful of wood, and having cautioned him to be careful, and he not heeding the advice, she dropped all her wood but one stick, took the lad by the collar, and beat him till he begged off and promised good behavior.

—Before Justice Clark of the Police Court in Manchester, last Saturday, Mrs. Sophia Corey plead guilty of stealing goods from Hooksett factory where she was employed. Fines and costs $180.60 cts. Kate Leigh for stealing cloth from the same, $25.80. And Mrs. Ameatha Hunt, for receiving, concealing, and selling stolen goods, fine and costs $185.60.

—200 women in Raymond have sent a petition to the selectmen, in which they say:—We represent, that the sale of intoxicating drinks in violation of law is an evil too great to be borne. It is against the good reputation of the town; is ruining husbands, fathers, sons and brothers, carrying poverty, sorrow, desolation and misery into families that might otherwise be prosperous and happy, and blasting our moral and religious prospects. We therefore respectfully request that you will use successful means to have the traffic cease, either by persuasion or the faithful execution of the law, according to its requirements in such case provided.

FROM MEXICO.—Havana dates of the 19th state that the Empress of Mexico arrived there on the 17th, on her way to Europe. She did not land, but proceeded next day.

News from Mexico represents the situation of the Empire as daily growing more critical. The fall of Matamoras had caused great dismay. The Imperalist newspapers are excited and petulant in their discussions of the situation.

A French steamer had arrived at Vera Cruz with 200 troops of the Foreign Legion.

The *Diario Del Imperio*, the official organ of the Empire, says the Empress has gone to Europe to treat upon the interests of Mexico and to arrange several international affairs. She is expected back in November next.

REMARKABLE COINCIDENCE.—It beats any of Mr. Weller's remarkable coincidences that the 14th of August, the day fixed for the assembling of the Philadelphia Convention, is the anniversary of Jeff. Davis' famous proclamation banishing all Union men from the South. As the delegates to and the friends of the Philadelphia conclave may have forgotten that document—which ought not to be the case amid their present love for Davis' associates—we reprint it as follows:

"Now, I, Jefferson Davis, President of the Confederate States, do issue this, my proclamation; and I do hereby order and require every male citizen of the United States, of the age of fourteen years and upwards, now within the Confederate States, and adhering to the Government of the United States, and acknowledging the authority of the same, and not being a citizen of the Confederate States, to depart from the Confederate States within forty days.—And I do warn all persons above described, who shall remain within the Confederate States after the expiration of said period of forty days, that they will be treated as alien enemies.

Given under my hand and seal of the Confederate States of America, at the city of Richmond, on this 14th day of August, A. D., 1861. JEFFERSON DAVIS.

R. M. T. HUNTER, Sec of State."

☞ At Bangor, Sunday night at 12 o'clock, the wooden shed of the Maine Central Railroad, containing 800 cords of wood, was set on fire in three or four places, and entirely consumed. Loss $6000.

—The picture of Farragut lashed to the shrouds of the Hartford, now suspended in the rotunda of the Capitol, is to be removed to the Navy Department.

—Judge McCunn of New York has arrived at the conclusion, where the health of at least a million of human beings is in jeopardy, owing to the business of fat-boiling establishments, that he is justified in granting injunctions against them.

—The standing armies of Europe amount to about six millions of men, and taking the real loss of their labor at a moderate calculation, it may be said that war costs Europe about five hundred millions sterling every year, which is more than half the national debt of Great Britain. "Man marks the earth with ruin," sang Lord Byron.

GREAT RIOT IN NEW ORLEANS.—The suicidal policy of encouraging rebels, has borne bitter fruits in New Orleans.

On Tuesday evening at Washington, the President received a dispatch from New Orleans, briefly stating that the State Convention convened in that city Tuesday, was broken up by the interference of citizens of New Orleans, and that a riot ensued; that several persons were killed; that the police had got the control of the mob, and that military aid was asked of Gen. Baird, who cheerfully and promptly responded, and ordered the troops to aid in quelling the disturbance.

On the same day it seems, first came the Andy Johnson ratification meeting, or, more properly speaking, the meeting ratifying the Democratic nomination of delegates to the Philadelphia Convention. It was convened in Lafayette square, where a platform, overhung with national flags and patriot transparencies, had been erected. The meeting was small, but orderly, and was not disturbed.

But the other, or Union Convention of Unionists, which met in the Mechanics' Institute, was disturbed and members wounded and imprisoned.

A dispatch from the New Orleans correspondent of the New York Times, says:

"The Convention met at 9 o'clock, 26 members present, and adjourned to call absentees. A negro procession, with martial music and national flags, had trouble on the street, and several pistol shots were exchanged but nobody hurt. The whites tried to take the flag away from the freedmen, and were repulsed. Stores and places of business on Canal street, were closed for fear of further riots.

A second dispatch says: "The Mechanic Institute, where the convention meets, is on Doyade street, between Canal and Common. The convention are still in it, with the mob on Canal and Common streets keeping them prisoners. The police are not in full force, and several negroes killed. The street in front of the Institute is now clear, but no one dares to go near it. Dead and dying negroes are on the sidewalks. Gov. Wells has gone to see Gen. Baird and get the military out. *Gen. Sheridan is not back yet from his brief trip; expected every moment.*"

A third dispatch says: "Several arrests of members have been made by the police; but few negroes are being arrested. As they are being killed, the police will soon attempt to storm the Institute building, which the Convention are yet holding. W. R. Fisk, a prominent ultra Unionist member of the Convention, has just been arrested. An attempt was made to lynch him, which the police prevented. It is Memphis on the freedmen."

A fourth dispatch says "Gov. Hahn was wounded, and has been arrested by the police. The military will soon be in the town, but the riot is about over. Gen. Baird has been very derelict in not bringing in the the troops more promptly to the enforcement of law and order. Dr. A. P. Doster, formerly State Treasurer, the most prominent of the Equal Rights men in the State, has been killed by the mob. He was attempting to escape from the Institute building at the time.

About one hundred negroes have been killed and wounded, and twenty-five whites, including several policemen."

— The Louisiana country press give favorable reports of the cotton crop. A few cotton worms have appeared, but have done no material damage.

— The death of Joseph Toynbee, F. R. S., the eminent aural surgeon, is announced by a leading London paper, which after alluding to his skill and kindness to the poor, adds: "He never walked the streets without stopping to put aside from the pavement every fragment of orange peeling, lest it should be a cause of accident to the old and feeble."

TEMPERANCE VS. CHOLERA.—At a meeting of the New York Board of Health, last week, Dr. Crane stated that in the pest-ridden Twelfth Ward of Brooklyn not a solitary one of the five hundred members of the Father Mathew Society resident therein has been attacked by cholera. A member of the Board clinched this remark by adding that not a cholera case had yet occurred among the sixteen thousand members of the Father Mathew Society in New York.

— There was a singular fact connected with the decease of the editors of the Troy Times last week. Mr. Fonda, expecting Mr. Thorn's death of consumption, had prepared a sketch of his life for publication, whenever it should occur; yet Mr. Fonda's death preceded Mr. Thorn's by two hours.

— It is but simple justice to the manufacturer of the J. Monroe Taylor Gold Medal Soap, to award him the credit of being far ahead of all competitors in catering to the luxury of the ladies, who prize nice, clean, white clothes (and what lady does not)? Our wife says she could not keep house without it. It is decidedly the soap of the world. It is a peculiar institution of itself, and such a luxury to use it, that after one trial, it is always found to be one of the most useful articles in the household. PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other afflictions of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

☞ The following letter from William Cullen Bryant will be read with pleasure by all who wish success to the introduction of GOOD DOMESTIC WINES:

NEW YORK, March 20, 1866.

DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.

I am, respectfully yours,

Local.

☞ Never were any Excursions in this vicinity so popular and successful as those to the Lake region via Concord, a few years ago. Three times did the pleasure-seekers fill the long train of cars, to enjoy the rare beauties of that route; and after every seat and all standing room was filled, the conductor had to give the signal to start, leaving disappointed crowds at the station. To render everything comfortable and pleasant, the managers have decided to positively limit the number of tickets to the seats this time; and those who secure tickets in season, will be sure of good accommodations and a fine trip, at a very low price. The special train leaves Portsmouth at 7 o'clock Thursday morning—no change of cars—and return same evening.

DOG DAYS.—Many persons have failed to comply with the regulations of the city which require dogs to be muzzled at this time of the year. All such run the risk of losing their pets. The police have no desire to kill any man's dog; on the contrary they ask all to comply with this simple precaution, and thus remove all obligation from their shoulders in this matter.

☞ We understand that Philbrick's new and elegant Hotel at Rye Beach, near the Atlantic House, will open for business today; and of course the many friends of the pioneer landlord of Rye, will be glad to greet him in his new and attractive quarters.

☞ It will be seen by Mr. Holbrook's advertisement that he has inaugurated a capital system for the accommodation of pleasure parties, in letting tents of all sizes, very convenient for carriage, and most agreeable for use when the camping ground is reached.

☞ A slight alarm of fire early on Tuesday evening was caused by smoke seen on Warren street, but the origin of the smoke is a mystery—the best solution of which we have heard is that it was occasioned by a lady singeing chickens.

☞ Dog-fish, which were formerly considered worse than worthless by our fishermen, are now turned to good account by them, the liver or the oil from the same bringing a good price.

☞ We learn that the house of Mr. Stephen Scammon, in Stratham, was struck by lightning on Sunday last. Damage slight. The fluid passed directly through an earthern cream-pot, making two small, neat holes.

☞ Rev. I. T. Otis has *declined* the call received from New Alstead. His post office address, after Sept. 1st, will be *Exeter, N. H.*

SOBER THOUGHTS.—A few more such riots as have disgraced Memphis and New Orleans will show the people of the country that the opinions which Gens. Grant and Sheridan hold about the necessity of keeping a military force at the South are not far from correct. And that "my policy" is productive only of riot, murder, injustice—and wickedness generally.

"It is not for Kings, O Lemuel, not for kings to drink wine, nor for princes strong drink; lest they drink, and forget the law, and pervert the judgment of any of the afflicted:—open thy mouth for the dumb, in the cause of all such as are appointed to destruction—judge righteously, and plead the cause of the poor and needy."

These words, from Proverbs XXXI, should be pondered and obeyed by "the government" now in Washington. And because they are not obeyed the land mourns. U. T.

☞ The first new place of public worship erected in Portland since the fire, has been put up by Bishop Bacon of the Church of the Immaculate Conception, on Congress street, by permission of the city authorities. It is a large temporary wooden structure capable of holding about twelve hundred people. The usual mass was celebrated by one of the priests, Father DeRose, attached to the church, on last Sunday.

Many a culprit, who doesn't want to hear one word from the Judge, hears a sentence. *Prentice.*

☞ Previous to the outbreak in New Orleans, the Tribune said: "By a special telegram from New Orleans it will be seen that the rebels propose to break up the Constitutional Convention by force. We hope the President is pleased with the results of his policy."

☞ Mr. Defrees has been removed from an office which he has ever creditably filled, to make way for Gen. Steadman, who has recently been performing the duties of a not very creditable office. Steadman has stood by the President, and we admire the promptitude with which he has been rewarded.—*Tribune.*

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding panel for ventilation), is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

CROPS IN MAINE.—Last week was splendid hay-making weather, and farmers improved it fully by putting a large amount of hay, in fine condition, into their barns. But few fields yield two-thirds as much as last year, and the great falling off, not only in our own State, but all through New England, will cause hay to command high price, and consequently lower the price of stock.

All kinds of growing crops are doing finely. Potatoes give promise of a heavy yield, if the rust holds off. Apples will be a light crop; corn good; grain fair. The soil is becoming dry, and rain is much needed.—*Belfast Age.*

— Gen. Neal Dow is in Scotland, talking plain truths on Temperance. Very large assemblages give him hearing, and his speeches make a decided impression. Great respect is paid him by prominent men, and much of his old fire seems to burn anew. He denounces with great fearlessness the course of some of the professed friends of religion in that country in relation to the liquor traffic, and is stirring up the sluggishness of the Scottish character with a sharp stick. His tour in England and Ireland seems equally successful and abounds in stirring incidents and large popular demonstrations.—*Star.*

☞ The Baltimore American says of the recent Johnson convention of Maryland:

"No such gathering has ever been seen in Maryland since the adjournment of the Frederick Legislature, which passed resolutions recognizing the Southern Confederacy. The old States' rights secession leaders seemed, as it were, resurrected, and came out from the quietude in which they have for years been concealed. The enemies of the Registry law, including a large number of the delegates to Mr. Blair's anti-Registry law convention, together with those who opposed the election of the lamented Lincoln as President of the United States, and expressed their gratification at his death by the hand of the assassin, bore a conspicuous part in the deliberations of this motley assemblage."

— The Boston Traveller tells of a man who worked at the same table in the Malden Dye House for 53 years! He has now retired to enjoy the fruits of his industry. We should think he would have died himself before that time.

The Chronicle.

EIGHT TO SIXTEEN.—Lord Shaftsbury recently stated in a public meeting in London, that, from personal observation, he has ascertained that of adult male criminals of that city, nearly all have fallen in a course of crime between the ages of eight and sixteen years; and if a young man lived an honest life up to twenty years of age, there were forty-nine chances in favor, and only one against him, as to an honorable life thereafter.

This is a fact of singular importance to fathers and mothers, and shows a fearful responsibility. Certainly a parent should secure and exercise absolute control over the child under sixteen. It cannot be a difficult matter to do this except in very rare cases; and if that control is not very wisely and efficiently exercised, it must be a parent's fault; it is owing to parental neglect or remissness. Hence the real source of ninety-eight per cent. of the real crime in a country such as England or the United States, lies at the door of the parents. It is a fearful reflection. We throw it before the minds of the fathers and mothers of our land, and there leave it to be thought of in wisdom, remarking only as to the early seeds of bodily disease, that they are in nearly every case, sown between sundown and bedtime, in absence from the family circle; in supply of spending money never earned by the spender, opening the doors of confectionaries and soda-fountains, of beer and tobacco and wine shops, of the circus, the negro minstrel, the restaurant and dance; then follows the Sunday excursions, the Sunday drive, with the easy transition to the company of those whose ways lead to the gates of social, physical and moral ruin. From eight to sixteen—in these few years are the destinies of children fixed in forty-nine case of fifty—fixed by the parents!

Poetry and poverty begin with the same letter, and in more respects than one are as like each other as two P's.—*Prentice.*

A man haunted by duns, no matter how fond he may be of beer, is frightened at every tap.—*Prentice.*

— In a little town in Ohio a lady teacher was examining a class of juveniles in mental arithmetic. She commenced the question, "If you buy a cow for ten dollars" ——when up came a little hand.—What is it, Johnny?" "Why you can't buy no kind of a cow for ten dollars; father sold one for sixty dollars the other day, and she was a regular old scrub at that!"

— The Petersburg mine "crater" is now in the midst of a luxuriant corn-field, and is itself planted in melons and fruit trees. A correspondent who has been there writes: "The immense excavation made by the explosion is now nearly closed to the surface, as it was converted to the uses of sepulture, and contains, I am assured, about 2500 dead bodies.

— A French father was recently trying to pursuade a young ward to marry his daughter, (the ward was very wealthy.)—He said: "She has talents even to her fingers' ends." I should prefer a thimble there." "She will be the very best of literary wives." "I should prefer the best of house wives." "She will go to posterity." "I had much rather she would go to market."

— A citizen of New York, who is no doubt thoroughly posted upon the tariff of charges by retail liquor dealers; says that they make enormous profits. A glass of ale costing three cents they sell for ten, a glass of beer costing two cents they sell for five; other liquors costing an average of five cents a glass are sold for ten cents, whilst cigars costing from five to fifteen cents are sold all the way from ten to thirty.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability or inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

TUESDAY, AUGUST 2, 1866.

NEW ORLEANS MATTERS.— On Tuesday President Johnson telegraphed to New Orleans as follows:

To Andrew S. Herron, Attorney General of Louisiana: You will call on Gen. Sheridan, or whoever may be in command, for sufficient force to sustain the civil authorities in suppressing all illegal or unlawful assemblies who usurp or assume to exercise any power or authority, without first having obtained the consent of the people of the State. If there is to be a convention, let it be composed of delegates chosen from the people of the whole State. The people must be first consulted in changing the organic law of the State, Usurpation will not be tolerated. The law and the Constitution must be sustained, and thereby peace and order. ANDREW JOHNSON.

A New Orleans dispatch of Wednesday morning says:—

Attorney General Herron, Lieut. Governor Voorhees and Mayor Monroe have called upon Gen. Baird and laid President Johnson's dispatch before him. It was agreed that the Military Governor and the Mayor should occupy separate offices in the City Hall, the Mayor performing his usual functions, and the Military Governor directing the movements of the troops in case of further rioting. It is supposed the order for martial law will be rescinded upon the receipt of dispatches from Washington.

A dispatch of Wednesday afternoon says:—

The Grand Jury have found a true bill against about 25 members of the Convention, but the writs will not be executed until the government of the city is restored to the civil authorities.

Twenty-two policemen in all were wounded yesterday, two of whom have died.—Capt. Loup was wounded in the leg. The Sergeant-at-Arms of the Convention was also badly wounded.

Many of the Conventionists and others who are wounded will probably die.

More than 200 arrests were registered yesterday at the 1st district station, and a proportionate number were carried to the other district stations, all of whom, as was previously reported, have been released by the military government.

[Every well informed man can see that nothing short of good honest military rule can protect loyal men in Louisiana now.—Mayor Monroe, *in advance*, threatened to break up the Convention! And he or the mob, or both, have done it. If now the President chooses to take and sustain the rebel side of the New Orleans riots and murders, he can do so; but happening just at this time, the Louisiana trouble may possibly affect the Philadelphia Convention.]

SHERMAN AT THE SOUTH.—Our reconstructed fellow citizens at the South do not regard Gen. Sherman with that complacency which becomes those who would let the bygones of the rebellion be bygones. The Nashville *Dispatch*, for instance, says of him:

"Whatever else may be reserved for our astonished gaze by the wheel of political change, of one fact we may be assured—to wit, that the crazy incarnation of the demoniac fiend of civil war will never be called by the freely-given votes of his fellow citizens to be the Representative and Executive of a great Democratic Republican people."

"Crazy incarnation of the demoniac fiend of civil war" is the expletive that frees the mind of a poor discontented and disappointed snob of fallen aristocracy. In such a person such language is pardonable—but we should not hear much of it, were it not encouraged by the miserable policy of some politicians who are digging a pit into which they must shortly fall, and be buried in deserved oblivion.

☞ The report of the Reconstruction Committee, which has been before the public for months, is strongly sustained by the publication of the evidence on which it was based. The facts proved are justification of the great measures of Congress. By the confession of leading Southerners alone—excluding the emphatic declarations of such men as Gens. Thomas, Sheridan, Terry, Saxton, and Grierson—it is demonstrated that nothing but military power keeps the smouldering embers of rebellion from bursting into new flame. But this old evidence that the Southern Rebels have not accepted their defeat as final is being rapidly made absolute by new outrages and outbreaks. The condition of the South now is far worse than when the Committee prepared its report, and the increase of disloyalty is due entirely to the failure of the President to punish traitors and make treason odious. We have laws that should speedily tame Rebel tyranny; but where is the power to enforce them?

— The Springfield *Republican* says of the Johnson caucus in that city, last Saturday, that "hardly a recognized, certainly not a prominent Republican took part in it, and though the list of delegates to the State Convention at Boston next week is a very respectable bit of mosaic, and altogether creditable for a beginning, most of the Republicans on it were chosen without their knowledge or consent, and some of them, at least, repudiate the movement."

—Which is the most wonderful animal in a farm-yard? A pig, because he is killed first, and cured afterwards.

NEW HAMPSHIRE ITEMS.

—— J. L. Gove, a music teacher of Enfield, has a young cow that has given 31 lbs. of Milk per day during the grass season.

—— Hon. George G. Fogg has purchased of Oliver L. Sanborn, his fine residence opposite the City Hall building in Concord for $12,000. It is the house where Senator Douglas and wife stopped at the time of their famous visit and reception at Concord.

—— The Democratic State Committee of New Hampshire are reported to have appointed the following Delegates to the Philadelphia Johnson convention:

Daniel Marcy, Rockingham; Joseph H. Smith, Strafford; John W. Sanborn, Carroll; Alexander H. Tilton, Belknap; John M. Hill, Merrimack; Lewis W. Clark, Hillsborough; Wm. P. Wheeler, Cheshire; Edmund Burke, Sullivan; John G. Sinclair, Grafton; William Burns, Coos.

IN WASHINGTON CITY, Tuesday evening, two District meetings were held to elect delegates to the Philadelphia Convention, one under the auspices of the National Democratic Association, and the other under a call of the conservative citizens without distinction of party. An effort was made by a Joint Committee to unite both meetings, but failed. The latter meeting finally adjourned without electing delegates, but after appointing a Committee to wait on the National Union Executive Committee to induce them to issue a general call for a meeting in order to elect delegates. The other meeting—the democrats, elected four delegates, and four alternates. And yet the Raymond and Doolittle company of fools, talk of "keeping the copperheads out." They can't do it. But suppose they *could* keep out the honorable ten from New Hampshire, and send them home with a flea in each ear;—where would the Seward and Johnson votes come from? echo answers where!

SWINDLE ON THE GOVERNMENT.—The Washington Republican says that a few weeks since a gentleman of good address, bearing what were supposed to be genuine credentials, and representing *himself* as a purser in the *United States* Navy, appeared at the Navy Department, and presented requisitions to the amount of $50,000, for which a navy warrant covering this sum was issued. The warrant was passed through the Treasury Department, and a draft to meet it issued on the United States Treasurer at Philadelphia, whither the sham purser repaired and got the money, and then left for parts unknown. The swindler gave his name as A. R. Allen; and the fact that there is a purser of that name serving in the navy, and the apparent genuineness of his papers, induced the Department to proceed with the settlement of his claims. All efforts to discover and arrest him have thus far been unavailing.

A ROBBERY AND WHAT CAME OF IT.—The Rockland (Me.) Gazette notices that about seven months ago Capt. Sylvanus Hascell of Deer Island missed from his safe, the key of which he invariably carried on his person, and which was never to his knowledge, out of his possession, U. S. bonds to the amount of nine thousand dollars. One day last week, having occasion for a board for some particular purpose, he was under the necessity of taking one from a partition in the barn, and on removing it he noticed, forced in by the side brace of the frame, a newspaper parcel, and on unfolding it he found six thousand of his missing funds. The newspaper and the location of the package gave him a clue to the robber. He had in his family a young man, adopted in childhood, upon whom no suspicion had rested until this moment, but upon examining his trunk, a bank book disclosed the fact that he had moneys deposited in one of the Boston Banks to the amount of twenty-five hundred dollars. He was immediately called in and confronted with the evidences of his rascality, when he owned up, not only to the abstraction of nine thousand dollars, but that he had purloined from his adopted parents various sums at different times, through a series of years, to the amount of more than thirteen thousand dollars. He was immediately arrested and is held for trial.

BUSINESS IN THE CITY OF NEW YORK. Everything is fluctuating and unsettled, unusually so at this time. A large number of heavy failures have transpired, and men who weathered the storm of civil war are in danger of rolling their masts overboard in the succeeding calm. A great mass of protested paper has been returned from England—over $300,000 from one house, and that the largest shipping house in London. Some of the heaviest shippers have as much as they can do to stand on their feet.

PEACE IN EUROPE.—The N. Y. Tribune of Aug. 1, has a special which says:—"Peace was certain at Berlin on Saturday. Bismark and the King return this week.—Prussia gains all her points. The Liberals support Bismark's foreign policy. Austria's naval victory is much overrated.

The Hyde Park riots and the movement to form exclusive reform league meetings have perilled the Derby government."

THE NEW PARTY.—The Convention at Philadelphia will be largely represented by New York. The great point is to keep the Copperheads out. A call has been issued for a convention to elect delegates, signed by Vanderbilt, Jerome, A. T. Stewart, M. O. Roberts, Hamilton Fish, Daniel Drew, Moses Taylor and men of that stamp. They distinctly announce that no man will be admitted to the convention who did not sustain the Government in the war against the rebellion. Growing out of this new order of things is a new daily paper to be the organ of the Conservatives. The stock is all subscribed and the best ability of the country is to be put upon the paper. It is also said that Mr. Dana of Chicago is to set up a paper in this city more radical than anything we have among us.—*Burleigh in Boston Journal.*

Keep the Copperheads out? Will you? and let the ex-rebels in! What a fine Church that will be. Keep out the Pharices and let in the Sadducees. Keep out Chang and let Eng come in. Won't there be fun, when the Ohio and New Hampshire delegations knock at the door, and Doolittle will say No entrance for Copperheads, and the Southern nest will give a vigorous hiss.

☞ A Fortress Monroe dispatch of Tuesday says:—

Charles O'Connor, one of Jeff. Davis' counsel, arrived here this morning. At an early hour he visited Mr. Davis, and remained all day in consultation with him.—The precise nature of his visit is unknown, except that the recent report of the Judiciary Committee has served to make Davis rather anxious.

Well may he be anxious, care-worn and distressed, if he has any remembrance of the thousands of yankees who were starving in his prison pens, while their parents, wives and children *anxiously* waited to hear from them, and learned finally, that in the midst of these horrors they died; and well may he be distressed when he remembers, that in his speech near his own home, he prophesied and promised that little or no southern blood would be shed in the contest which he and such as he were about to wage to defend slavocracy and oligarchy from the aggressions of freedom and equality.

— A mass convention of all in Connecticut who approve the declarations of the call for the Philadelphia Johnsonian Convention, was held in New Haven Wednesday, Senator Dixon in the chair. About 500 persons were present, mostly of the Democratic party.

☞ A baker in St. Louis, Mo., on the 17th applied to the county court to obtain admission for his wife to the alm-house while he came East to seek employment. Three years ago he was worth $32,000, but his establishment was burnt to the ground and other losses followed until he was reduced to pauperism. The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding sash) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. aul dawlm

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and an effectual remedy that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. ☞ The story of the rustic, dwelling near the White Mountains, who wondered why so many persons made long journeys to see "them hills," has been told so often that it seems a matter of history. It was called to mind by a conversation with an old berry woman a few mornings since. We mentioned that we had seen large quantities of green berries upon the top of Mount Agamenticus a short time previously. "Did ye, though?" queried she; "so you've been to the top of Adjemenkis! I've lived close to it all my life and never been to the top yit." "I have, a many time," said a younger woman who accompanied her, "and it's a cool, sightly place, when you get there. No matter how hot the day is, you always find a cool breeze at the top." We agree that 'tis "a cool, sightly place," and wonder that more of our citizens do not go to the mountains, for there are three spurs that invite ascent.

☞ It will be seen by a notice elsewhere that our enterprising shoe manufacturer, Thos. S. Nowell, the better to accommodate his increasing business, has associated with himself in partnership his brother, Edward P. Nowell. It is the intention of the firm still further to increase their facilities for production, and as every such establishment tends to build up and improve our city, we say: "Go it, Boots."

☞ That extra train for the Excursion to the Lake, leaves the Concord Railroad station this (Thursday) morning at 7 o'clock.

— Another set of Democratic delegates are to be selected in Ohio to represent the Vallandigham district in Philadelphia. It is alleged that fraud was resorted to by Vallandigham and his friends, in order to secure his election as a delegate.

Well: the more the merrier. Fraud—was there? If so, it is all in character: for it there ever was a fraud or swindle in any political party or movement,—it is in progress now, by two or three men elected as loyal, playing into the hands of rebels and traitors.

NEW YORK ITEM.—The number of cholera cases reported in the city Tuesday was 20, of which 7 died. In Brooklyn 16 cases were reported and 2 deaths. On the Isl and there was no increase of cholera reported.

☞ We published, not many days ago, an item from Washington, stating that Pres. Johnson encouraged Mr. Randolph, the acting Agent for colored schools in Louisiana, and gave $5000 toward the object. Mr. Randolph now publishes that the President subscribed $1000.

☞ It is said that soldiers will not receive any pay under the Bounty bill passed by Congress until after the assembling of the next session, there having been no appropriation made for the purpose.

— The public debt statement will show a further reduction during the last two months of about $27,000,000. $23,000,000 of the remaining 26,000,000 of certificates of indebtedness have been redeemed during the last month. The statement also shows that 7-30s are rapidly being converted into 5-20s.

— In Rhode Island, the Providence Journal says the Johnsonian Convention "was a Simon-pure Democratic Convention and nothing else."—In Florida the Governor appointed the delegates!

PRESIDENT WOODS, of Bowdoin College, has resigned his office.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Morning Chronicle.

JOSH BILLINGS.—If a man wants tew git at his aktual dimensiuns, let him visit a grave yard.

If enny man wants tew be an olde bachelor, and git sick at a boarding tavern, and have a back room in the 4th story, and have a red haired chambermaid bring hiz water gruel tew him in a tin wash basin, I have niwus sed, and I stick tew it yet, he haz got a perfek rite tew do it.

Owing tew the hi price and grate skarsity ov veal in Nu York city, meuny ov the fust familys are using artyfishal calves.—They say it helps finish out a leg ov mutton fust rate.

When a man loses his health then he fust begins tew take good care ov it. This iz good judgment! this iz!

It iz gitting so now-a-daze if a man can't cheat in sum way, he ain't happy.

Successes in life iz very apt to make us forgit the time when we wasnt much. It iz so with the frog on the jump; he can't remember when he was a tadpole—but other folks can.

An individual tew be a fine gentleman, haz either got tew be born so or be brought up tew it from infansy; he kant learn suddenly enny more than he kan larn how to tork injun korrectly by praktissing on a tommyhawk.

— The *Richmond Enquirer* seriously wonders whether this contest will "proceed to blood." In the first place, there is nobody who wants to fight, and in the second place, there is nobody who wants to be fought. The only fighting man we know is Raymond; and, as he is one way this week and another way the next, he will be kept pretty busy fighting himself. And, under such circumstances, we do not think the conflict will "proceed to blood."—*Tribune.*

Three fires having recently occurred in a house in Philadelphia, a young girl, one of the inmates, has been arrested for arson, and confesses she was hired to perform the act, that the family might obtain the insurance.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with stomach deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, soon take upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely cured by this agent by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Dropsy, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it modifies the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinine or any injurious effect whatever. Shaking brothers of the army and the west, try it and be free from dose these assertions.

EACH MAN TO HIS OWN TRADE.—There is a sharp county lawyer out in the county of Allen, whose name is James Mohally, slightly of the Hibernian persuasion, who, having succeeded in the way of making money, turned his attention to real estate, farming, etc. Among his purchases was a fine flouring mill on the waters of Hog Creek, which was superintended by a competent miller and did a thriving business.

Once upon a day it fell out that the miller was away on furlough, to be gone all day, and the proprietor happening at the mill, found a small boy in tattered garments sitting astride a bag of corn, which lay across the back of a sorry-looking nag. The boy said his mother had no meal, and would have nothing to eat unless the corn could be ground. The proprietor said he knew nothing about running a mill, but, since the case looked like a desperate one, he would try his hand at converting a sack of corn into a sack of meal. So lifting the boy off his grist, he took the corn, threw it in and started the mill, which rattled off in good style, ate up the corn, but returned no meal to the box. In short, the grist was totally lost.

The man and the boy hunted the mill high and low, but the meal could not be found! The man was in a quandary, the boy in distress; nothing at home to eat and the grist lost beyond recovery. The kind-hearted proprietor looked over his stores, and found a few quarts of his own meal, which he had tied in a corner of the boy's sack and sent him home, telling him that would keep his mother from starving until the miller should return to find where his grist had gone to.

The boy's corn being all ground out of the hopper, the proprietor undertook to stop the mill, but it would not stop! He pulled one lever and then another, but the mill rattled on with all its might. The mill stones having nothing to grind, took to grinding each other; presently they waxed hot, then hotter; the fire began to fly, and the proprietor became alarmed. He rushed to his house, mounted a fleet horse, and told his wife that he was going in search of the miller, and if any bigger fool than himself should happen along, for heaven's sake to get him to stop the mill.

Away rode the man, and, having found his miller ordered him to mount the horse and run for the mill before the thing should set itself on fire. The miller was not slow to obey, and having shut the gates the mad wheels stopped, and all was quiet again on Hog Creek.

But the lost grist—where had it gone? The proprietor showed the miller where he put it in, and the whole mystery was solved. The grist had been put in the wheat hopper, carried up in the elevators, deposited in the bolt, through which it could not sift so as to reach the box, and there it was inside the wheat bolt, where the miller could go and dip it out. And that is how a lawyer undertook to run a mill and lost a grist.—*Exchange.*

—"My dear boy," said a kind hearted country school mistress to an unusually promising scholar, whose quarter was about up—"My dear boy, does your father design that you should thread the intricate and thorny path of the professions, the straight and narrow way of the ministry, or revel amid the flowery fields of literature?" "No, marm," replied the juvenile, "dad says he's going to set me to work in the tatur patch."

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her protegée would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding panel) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Portsmouth, N. H.

FRIDAY, AUGUST 3, 1866.

A New Orleans Dispatch of August 1, says:—

Gen. Sheridan returned this morning from Brazos Santiago. Gen. Baird has appointed a military commission to investigate the Convention riots, with Gen. Mower as president. Mayor Monroe has addressed a letter to Gen. Baird, saying "without at tempting to dispute his (Baird's) military law, he cannot but express his astonishment at such a step and at a time when no exigence existed for it. The aid of military would have been most gladly received to repress violence when such intervention was asked; but I am at loss to understand by what authority it is made to assume the virtual suppression of the civil authorities.—We have always been taught to believe that it is the principal duty of the military officers in this country to sustain and enforce the civil law. If I am to understand from the words of your order that it is your desire to prevent a recurrence of the riotous and unlawful proceedings of Monday, I would respectfully suggest that your release of all the rioters and their accessories who were arrested by the police, as the first act in your administration of martial law, is not well calculated to accomplish that object." Mayor Monroe concludes his letter by declining to act as Mayor until the civil authority is restored.

In a dispatch sent to Washington, Gen. Baird states that about forty were killed and a large number wounded.

It is understood that the Secretary of War, by direction of the President, has ordered Gen. Sheridan to institute an investigation into the causes of the riot at New Orleans.

Mr. W. H. C. King, editor of the New Orleans Times, now in Washington, having published a letter defaming the Louisiana Convention, General Banks, under whose auspices the Convention was originally called, replies thus, under date of August 1, in a note to the Washington Republican newspaper, which is now a Johnson print:

"Sir — A communication published in your journal this morning, signed William H. C. King, gives an incorrect representation of the condition of affairs and the causes of the recent massacre in New Orleans. Its intemperate tone discloses and defeats its purpose. Nevertheless, knowing the history to which it refers, I deem it my duty to say that in my opinion it is unjust to the loyal men of Louisiana and unworthy of credit."

"The convention was the ostensible and not the latent cause of the outbreak. It was a peaceful and lawful assembly. One word from the recognized authorities of the United States, in New Orleans, would have secured its adjournment. There were other causes of fear than the convocation of this assembly. Its members were and had been firm supporters of the government and decided opponents of its enemies. They were, therefore, marked men. The wounds inflicted upon the body of Dr. Dostie will show by their number and result the intent and assurance of his murderers. I knew him well. No country ever gave birth to a more unselfish man, a truer patriot, or a more devoted friend to liberty. He and his associates were dangerous men to the enemies of this country. The mercenary hand that smote him was that which applied the torch to the city of New York, and by which Lincoln fell. His death will be avenged. The blood of the martyrs will become the sustenance of the church."

[Signed] N. P. Banks.

It is pertinent to add, that one of the leading men just appointed from Louisana to the Philadelphia Convention,—publishes a note in which he says the riot and murder have sealed the fate of the State, and therefore he will not go the Convention. Another delegate follows his example.

Alabama.—The white people of Marion and Perry counties, Ala., having passed resolutions speaking kindly of their former slaves, and offering to assist them in educating their children, the freedmen recently have held a meeting at Marion, and adopted resolutions expressing much satisfaction at the course of their former owners, and thankfully accepting the proffered aid.

Factories at the South.—The corner stones of two new cotton factories on the Chattahoochie river, near West Point, Ga., are to be laid August 1 with great ceremony. Leading men of Alabama and Georgia will make addresses on the occasion. The citizens of Auburn, Ala., are taking measures to build a cotton factory at that place.

— Twenty-six people committed suicide in one day, at Leipsic recently.

— Somebody recently asked a Parisian editor where he got all his intelligence. "From the newspapers." Where do the newspapers get it? "From other newspapers." But who is the first author of it? "Nobody."

— A young man engaged in drawing wood from Douglas (Mass.) woods a few days since encountered a huge rattlesnake, measuring nearly six feet in length and eleven inches in circumference, with eighteen rattles, which he finally killed with a stake from his wagon.

— In Sweetwater, Tenn., there is a gigantic girl five years old, that weighs one hundred and thirty-five pounds. Her name is Alice Leory Leath, and she is described as "blue-eyed, dark-haired, rosy-cheeked, quick-spoken, and of a beautiful countenance." She is the daughter of a Union soldier who was killed at Resaca.

City Marshal's Report.—The following Report was laid before the Mayor and Board of Aldermen on Thursday evening:—

Portsmouth, N. H., July 12, 1866.
To the Hon. the Mayor and Board of Aldermen:

Gentlemen: Agreeably to usage and in accordance with the ordinance in relation to the duties of the City Marshal, I herewith have the honor to transmit my second and final quarterly report, ending on this date:

The Police force consists of a Marshal, three Assistant Marshals, seven Policemen, which adds very much to their appearance and efficiency.

The time of the service or duty of the force is so arranged that at no hour during the day or night is the city without protection, or the station house without an officer.

Since the commencement of the year there have been comparatively but few depositions on property or persons,—and in all cases of any importance the offenders have been speedily arrested. Among the fraternity of thieves Portsmouth is considered a very undesirable place to visit to pursue their nefarious business; and while constant reports reach us from other places, of large burglaries, robberies and crimes incidental, our own city has enjoyed a remarkable exemption therefrom. I attribute it to the competency of the Police force under my charge, which it has been the pleasure of your Hon. body to appoint. The officers are men of character and intelligence, and have performed their duties in a creditable manner. Some of them are new to the business, and it would be strange if some mistakes were not made,—but I know that errors have been very few in number and less than could have been reasonably expected, and the defects very soon remedied.

It will be seen by the lists of arrests and causes therefor, that a large number are for drunkenness. The excessive use of intoxicating drinks is one of the greatest misfortunes to which communities are exposed. To it may be traced many of the arrests in all our towns and cities. A majority of the persons arrested in our city for this offence are non-residents. The Ordinance prohibiting the sale of liquor on Sunday has been very generally observed, and the Sabbath has been remarkably quiet. The detection and proof of this offence is very difficult; but I believe only one exception exists where a conviction did not ensue upon an arrest.

The proprietors of saloons where liquor is sold have as nearly as possible complied with the Ordinance requiring them to close their places of business at 11 o'clock P. M., and many of them have been prompt in this respect.

It will be seen by the table accompanying this, that very few persons have been arrested on charge of keeping disorderly houses. It may, perhaps, seem like a degree of negligence on the part of the Police. Such is not the case. When arrests are made in such cases, conviction is embarrassed and often defeated by the indisposition of respectable neighbors to appear either as prosecutors or witnesses.

I appeared before the Portsmouth delegation at Concord at the late term of the General Court, and presented for their consideration of the delegation a bill having for its object the suppression of many of these schools of vice and immorality. It was unanimously concurred in by them, and met their hearty approval. It was presented in the House by our esteemed citizen, Rev. Mr. Patterson, referred to the Judiciary Committee, and by them returned with a recommendation that it be indefinitely postponed,—and such was its fate. Had it been otherwise, Portsmouth like Portland would have had the power to have driven from her limits many persons who are now the source of much annoyance.

Second to well-founded complaints are made of the condition of the Station House. The cells are badly constructed and insufficient, and in their present condition are incurably unhealthy and scarcely safe. Both the Marshal's Office and Station House are of such a character as to render good sanitary conditions impossible; and there seems to be no reason why sufficient and permanent ones should not be provided; otherwise the police force and the public service suffer serious detriment. I believe that had an appropriation been made to have improved the city buildings, this department would have been improved as well.

There are in this city, as well as in all others, a class of juvenile offenders, who are too young to be placed in jail or the House of Correction with older criminals. The loss of the State Reform School by fire has prevented some of these parties from having justice done them. The building at Manchester is nearly completed, and there will soon be a place where such young persons can be educated to better things than they now learn by the neglect of parental influence and advice.

The Sidewalk Ordinance has been enforced without much trouble, Gentlemen, when remaining on the sidewalk to the detriment of passers-by or occupants of stores, have universally removed when politely requested. Another class of persons, whose "abiding place" was on the corners of our most respectable streets, have domiciled themselves in more secluded places.

During the summer an officer has been stationed at the Cemetery daily, whose duty it has been to preserve order in that vicinity, and prevent the violation of the statute laws relating to the defacing, mutilating or destroying any tomb, monument, tree, shrub, &c., in cemeteries.

The relations between the Board of Health and the police force has been mutual; assistance has been given and received. The two departments should be closely allied.

City Solicitor Goodall has treated this office with a marked degree of courtesy and urbanity—the duties of his office sometimes being quite unpleasant, it occasionally occurring that his attention will be needed at unseasonable hours of the day and night.

The City Missionary, Rev. Mr. Medbery, has very frequently called to have conversations with prisoners, and make such suggestions to them as would be for their interests. He seems to have a kind feeling and consideration for those who need his official sympathy.

It has been my province to have business with the Overseers of the Poor on many occasions. It not unfrequently happens that persons confined in the Station House for trifling offences desire to return home and reform. Persons arrested under the influence of intemperance, feeling the disgrace severely—being strangers in the city, and without the means to leave—the Overseers have in many such cases instructed me, with the consent of your Honor the Mayor, to pay the fare of such parties, and it has been done; and here permit to say that to the Eastern and to the Portsmouth, Saco and Portland Railroad Companies the city is indebted for many favors; for in several instances, upon representation that parties were poor, they have given them transportation,—and to the police department generally they have been very kind.

During my tenure of office, (five and one-half months) I have issued as Justice of the Peace 108 warrants, and I think the records of the Police Court will show that in no one instance has there been a failure to convict on any of these warrants. It has been my practice not to issue a warrant without first finding whether the complaint would be sustained by evidence.

Immunity from punishment emboldens offenders, who would, if justice were certainly and promptly administered, be held in check. In Judge Odell's Court this deficiency in the machinery of justice does not occur. His Honor is charitable, and yet justice gets her due. A case must be proved before him, or an acquittal is certain.

To the City Clerk and Associate Judge of the Police Court, Hon. Marcellus Bufford, who has aided me in my duties in carrying out the objects and purposes of the office, I would return my acknowledgments.

And, Mr. Mayor, permit me to thank you for your many acts of kindness; for the advice, assistance and prompt support which I have at all times received at your hands in the discharge of my duties. I would also acknowledge my indebtedness to the gentlemen composing the Board of Aldermen and Council for their assistance—an assistance no man need flatter himself he can do without, when placed in a similar position.

In conclusion, gentlemen, I again return you my thanks, and my acknowledgments to the Police force for their cordial co-operation, vigilance and efficiency. I am, gentlemen, very respectfully, your obedient servant,

J. Horace Kent.

Mexico.—The following letter from the City of Mexico, July 10th, written to the Boston Journal, gives a clearer idea of some matters in Mexico, than we usually get by dispatches:—

The Empress Carlotta left the Capital by way of Ayotla on the morning of the 7th inst. for Paris. She will be escorted as far as Jalapa by Maximilian. They are to rest three days at Puebla, two more in Orizaba, and two in Jalapa. The Empress will then proceed to Vera Cruz and take passage on board the French man-of-warIque for Paris. Her mission to Europe is a diplomatic one. She hopes to induce Louis Napoleon to not only retain the French troops now here, but to give additional corps.

The Emperor Maximilian understands perfectly well that evacuation is abdication, and no doubt if any one can cause the III Napoleon to revoke the order for evacuation, Carlotta can. The Emperor of the French not only *planted* the Archduke Maximilian here, but compromised his government with the promise to *support* him.—Carlotta will urge the fulfilment of that promise.

The Imperial decree which made President Jaurez an outlaw, placed this government in a very awkward position. In case of evacuation or abdication, with whom can Maximilian treat or arrange the payment of his European debt.

Marshal Bazaine is in San Luis Potosi, and that capital city is beseiged by the Liberals.

The Liberals are threatening this city and Puebla.

During the absence of Marshal Bazaine, Mexico is in hourly danger of being surrounded and taken by the Liberal troops, which are neither few in number or far away.

A severe earthquake was felt here at quarter past five o'clock P. M. on Saturday the 7th inst.

A band of Confederate colonists who came to Cordova by invitation of old "Pap Price," Maury and Joe Shelby, arrived in this city on Saturday last in a most pitiable and destitute condition. Young Maury, Pap Price, Joe Shelby and Judge Perkins are obliged to secrete themselves, in order not to be assassinated by their victims.

☞ Bonner of the New York Ledger, has just bought the trotting mare Young Pocahontas, in Boston,—it is said for $50,000. Yes, fifty thousand dollars—by far the highest price ever paid for a horse in this country—and all the horse men, and Wilkes' Spirit, say that this beautiful daughter of Ethan Allen and the old paceress Pocahontas, is the best young trotting horse in America or anywhere else. Bonner's half dozen trotters beat the world, and must have cost him a hundred thousand dollars or so.

☞ Our readers already know that Walter Brown beat Josh Ward in rowing, at the Worcester regatta. Ward now challenges Brown to another contest, three or more miles for $500 a side, and offers him $100 to go to Newburg, Penn. to try it.

Sport at Nantucket. — The yacht Lizzie and Helen, Capt. Dunham, with Messrs. E. Abbott Lawrence, H. B. Osgood, T. A. Morse, E. D. Child, of Boston, and Dr. James W. Bartlett of Roxbury, caught on the 27th of July twenty-four of the largest sharks caught in Nantucket waters this season, eleven of which they brought successfully to land. The sharks caused quite a sensation among those that were not used to the sight of such open-mouthed monsters.—*Boston Journal.*

—Two men, Henry Law and Charles Perry, were drowned while bathing at Sabin's Point, East Providence, R. I., on Sunday. They belonged in Central Falls.

— Of the 360,000 blacks in the State of North Carolina, only 3294 are receiving rations. One hundred and nineteen schools are now in operation, with 135 teachers, the daily attendance averaging 9034. The destitution among the whites and blacks in various parts of the State is being gradually relieved.

— There is no soap that will begin to compare with the J. Monroe Taylor Gold Medal Soap, and probably no other manufacturer begins to expend one-half as much money to make it worthy of the community, and the maker is richly deserving the patronage bestowed on him. It is a God-send to the world, and all who use it will agree with us that what we say is true. 12

Philadelphia Convention. — The wigwam for the Convention will be a monster in size, covering the whole block.—There are to be three main entrances.

Spanish Fleet in the Pacific.—The Spanish fleet have at last been heard from. After their "grand victory" at Callao they parted company, two of them having been seen off Cape Horn, on route for Montevideo. The rest are at Tabiti, repairing at the French Naval Station.

Guerrillas.—A dispatch from Indianapolis reports that on Wednesday night last some half dozen rebels from Webster county, Kentucky, crossed the Ohio river at Owensboro to the Indiana side, and forcibly took from his bed Lieut. Hampton, late of the Union army, carried him out to the river, shot him dead and threw his body into the river. It has not been found. Lieut. Hampton belonged to the 35th Kentucky, and was a loyal and respected citizen.—The attention of Gov. Morton has been called to the matter.

— Ex-Governor Randall, just appointed Post-Master General, is known out west as "Bread and Butter Randall."

— At St. Louis on the 28th ult., the messenger of the Accommodation Bank was robbed on Third street of a package containing $10,000. The robber ran through the crowd, scattering money to the right and left, in hopes of retarding pursuit, and tried to hide himself in a building adjoining the Post office. He was discovered, however, and arrested. All the money was recovered.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by immemorial living witnesses, has proved itself THE BLESSING OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

☞ We learn that the house and part of the out buildings of Mr. Samuel Rand at Rye Centre, were burnt on Wednesday night, or rather Thursday morning about 2 o'clock. The barn was saved. The premises had been unoccupied for some time, and are said to be well insured—and the fire it would seem must have been the work of an incendiary, though we are always slow to believe fires intentional.

☞ Notwithstanding the rain on Thursday morning, — as a couple of carloads of people came to the Concord Depot to go on the Lake Excursion, the conductor concluded to go ahead; and they did have a pretty good day, and a very nice time, so they all say, after all.

We learn that there will be other excursions of the same sort. Also, that the Portsmouth Cornet Band design making an Excursion to the Lake, by way of Dover and Alten Bay, shortly.

☞ It will be seen that Mr. Montgomery announces his intention to open a new Music and Variety Store here, similar to that recently removed by Mr. Cobb. Mr. D. is very favorably known to most of our citizens, as a prompt, capable and courteous trader.

Messrs. E. A. Joy and E. A. Tilton are also to open a new Music Store on Daniel Street. These gentlemen have also proved themselves well fitted for the business.

Reported for the Chronicle.

POLICE COURT, Aug. 2.—Michael Keenan, who commenced spending the night in quiet and pleasant reverie on Market St., with the curb stone for a pillow, was disturbed by a watchman who *happened to be* prowling around that neighborhood, and this morning appeared before His Honor, who administered the just and necessary $6.86, which Michael thought most too high and refused to pay. His sentence was accordingly changed to confinement at hard labor in the House of Correction.

Joseph Fabyan, for a similar offence, received a like sentence.

Our reporter would respectfully remind the corps of watchmen of their sad neglect in not furnishing him with any halibut or other vegetables on their return from the fishing excursion. Perhaps they are more fortunate as "fishers of men" than other fish. And it was remarably quiet during the night.—*Rep.*

[*Remarks.*—Quiet, was it? We shall discharge our Reporter if he does not do better. He says our city was very quiet, but we think he must have slept on his beat, for we have been asked a dozen times today, what was the cause of the "out-screech" on High Street last night? and also another on State Street? Can our reporter inform us where the watchmen were all "prowling to" at these times, "hey"?—*Funny Ed. Chronicle.*]

GOLD, Thursday, 148.

IMPERTINENT AND INDECENT.—Speaking of the Philadelphia Johnson Convention, the New York Times, Mr. Raymond's paper, says:—

Disloyal and discarded politicians are endeavoring to restore themselves to favor and place by rushing into the Union National Convention. But they are destined to disappointment. It is *hoped* and believed that *patriotic counsels* will prevail. It would be *unpertinent* and *indecent* for such men, for example, as Vallandigham of Ohio, Wm. B. Reed of Pennsylvania, or Fernando Wood of this State, to present themselves as delegates to a Union Convention. The men who endeavored to destroy both the government and the Union, have no right to sit in a Union Convention, and unless they are excluded, good and true men will exclude themselves. In any event, therefore, disloyal parties will not profit by the Philadelphia Convention. That Convention was called for patriotic purposes. If, by possibility, *bad men* get control of it, they will be left to do what they so effectually accomplished in all the Conventions they controlled during the war—use their party and themselves up.

This is wonderful! says Uncle Toby.—Vallandigham, and Reed, and the Woods, bad men! The very leaders of the party into which the Raymonds and Doolittles are tumbling, are denounced by their new converts.—If it would be indecent and impertinent for them to present themselves:—how decent must it be for Mr. Marcy and his nine colleagues to look in at the door.—What *vote* did any of them give during the war, that the Woods or Vallandigham would not have given? And not one word of condemnation was uttered against the rebellion or the rebels, by the press mainly established by and for Capt. Marcy and his friends? Not one. But that same press lauded Vallandigham, and stigmatized Starr King as a traitor!

No, no, Mr. Raymond! You must take the remnants of the Pierce and Buchanan party from New Hampshire, into your church or you get no converts here worth having. Outside of them, there are not a baker's dozen of supporters of "my policy," except a few who wish to get into office, and perhaps a very few who dislike to get out.

—The Shenandoah Herald says that most of the mills burned by "Little Phil" Sheridan are now ready to grind wheat and other grain.

PRES. JOHNSON, July 21, telegraphed as follows to Gov. Wells of Louisiana:—

I have been advised that you have issued a proclamation convening the Convention elected in 1864. Please inform me under and by what authority this has been done, and by what authority this Convention can assume to represent the whole people of the State of Louisiana.

Next day, July 22, Gov. Wells answerek thus:—

Your telegram is received. I have not issued any order concerning the Convention of 1864. The Convention was convened by the President of that body by virtue of a resolution authorizing him to do to, and in that event for him to call on the proper officers of the State to issue writs of election for delegates in unrepresented palishes. My proclamation was issued in respose to that call. As soon as vacancies can be ascertained they will be filled, and then the whole State will be represented in the Convention.

The President will find it hard to defend his course, even with the help of Sec. Seward, who claims the policy as his own.

NEW YORK, March 20, 1866.
DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & Co., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.
I am, respectfully yours,

Morning Chronicle.

GEN. LOGAN'S VIEWS.—Gen. John A. Logan made a spirited speech at the "Soldiers' Reunion," held at Salem, Illinois, on the 4th of July. Speaking of the seceded States, he said:

"I do not see why the people should be in any hurry to require them to be represented. They declined to be represented for four years, but the very moment they laid down their arms, they say, 'Why, we want members in Congress; we want part of the foreign missions; we want the officers of the law to be distributed among us; we want our rights.' They talk of rights! Well, so might a horse-thief at the very time he is being tried get up before the judge, after the proof had been given, showing that he had stolen the horse, and say, 'Judge, I want my rights!' The judge would say, 'My dear friend, you will get them in a few minutes. I think that the jury will send you to the Penitentiary for twenty years.'

Oh, they want their rights, rights that they forfeited, rights that they are not entitled to; rights that they denied to themselves by their own act of treason. They tried to destroy the Government, and denied its authority by their act, and thus lost all the rights that they had in this land. And now, instead of marching up with a pardon in one pocket and a certificate of election in the other, demanding what they *call their rights*, what ought they to do?—They ought to be on their knees, imploring this great and glorious Government to be magnanimous and offer them that clemency which our gallant, honest, and faithful President Abraham Lincoln offered to them so often, and which they so often refused.—

* * * I do not want to be their executioner, but I do want a few things as one of the American people, as one of the loyal citizens of this land, as a man who has as much right as anybody else and no more, to claim the exercise of certain rights and privileges in this country that loyal men are entitled to. I want to be recognized in this land as a soldier of the Republic of the United States and not as a disgraced man. I want to be recognized at the same time as a man who has done more for his country than a traitor. I want it to be so in this land that General Sherman may stand here to day before the American people in a prouder light, higher socially, morally, politically and every way than does Joe Johnston, the man who fought against him in the armies of treason.

This is what I want to see, I want to see treason made odious and loyalty made respectable."

His talk about Jeff. Davis was plain enough, as will be seen by the following specimen:

"Now that Davis, the head of the rebellion, is in prison at Fortress Monroe for his offences against this government, they begin to speak of his case. They grow sympathetic in reference to his punishment.—They must examine him every week to see whether his health is improving or declining. They must have a continual report, and, if he is a little declining, they give him the right to go where he pleases in and around the fortifications.

If they keep him pretty close for a day or two, a few gentlemen go there to see whether or not the country is ripe for bailing him out. When they put a finger on the pulse of the nation, the pulse begins to beat up to fever heat. *If they attempt to bail him out there will be such a howl through the land that these men will tremble in their boots.*"

It is Made Different.

It retains, by a peculiar mode of distillation, the very

that have made it so popular. If you want to use

MANLY UTTERANCES FROM TEXAS.—Under this heading the New York Tribune gives an account of a Convention recently held by the loyal voters of Texas, at which they nominated a full State ticket, and put forth a declaration of principles, among which were resolutions pronouncing the ordinance of secession to have been void from the beginning; repudiating the Confederate debt; acquiescing in the abolition of Slavery and all laws to ameliorate the condition of the freedmen; and counselling toleration, and free discussion on all the great questions now agitating the public mind.

Governor Hamilton, in response to a unanimous call, addressed the Convention and an assemblage of citizens. He made one of those energetic and manly speeches that often from his lips came gratefully to the ears of loyal people during the darkest days of the Rebellion. In this speech he briefly reviews the plots, usurpations, and coercions of the traitors in 1861, their subsequent tyranny and barbarism, and their final defeat and overthrow. Then, to the leaders who have taken the oath to support the United States and the proclamation of the President abolishing slavery, but who cannot repress their hate for that Government, waring continually against its authority and its friends, he says; "I want to tell them they are not only traitors to that Government, but traitors to truth and to freedom, and will live and die so."

— Gen. Schenck, the able and influential Congressman from the Third District of Ohio, (formerly represented by Vallandigham) is to have a "My Policy" and a regular Democratic competior, but will be chosen high and dry over both. [Perhaps.]

— The census-takers of St. Louis have completed their labor, and it appears that the total number of inhabitants is 204,337. This is an increase of nearly 80,000 in the past ten years.

"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

SATURDAY, AUGUST 4, 1866.

☞ Castles in the Air are easily and cheaply built;—*but they are not all durable.* Somebody writing from Concord, a few days ago, built a Johnson Castle for New Hampshire on the corner stone of a telegraphic blunder. The telegraph told us that Thos. L. Tullock was appointed Assistant Paymaster in the Navy; whereupon Mr. Somebody goes off into a statement setting forth that the gentleman so appointed was formerly Secretary of State in New Hampshire, and latterly Navy Agent; and caps the climax by suggesting him as leader of the Johnsonian Republican phalanx in New Hampshire, on the strength of this appointment being the supposed reward of his imagined adhesion to the new dynasty. But the appointee happens to be Thos. L. Tullock, *Junior*, and the dispatch happened to leave out that little word Jr., making quite a difference. The rest of the story is soon told. The corner stone being withdrawn, the castle comes to the ground; and Hon. Mr. Tullock will probably not go to the Philadelphia Convention, nor send a sub.

A Richmond correspondent of the New York Times says:—

"The delegates to the Philadelphia Convention, appointed to-day, represent every shade of political feeling in the State. The delegates from the State at large are all eminent men, and are fair exponents of the most advanced Union sentiment now possible to be made dominant in the State. The rest of the delegates comprise some few of the same character, but the list also unfortunately contains the names of some of the worst reconstructed men in the State."

Yes, truly; and they will all take seats too, notwithstanding Raymond and Doolittle's nonsense about excluding any such people. For the Washington Star of Thursday evening evidently speaking on authority, says no one will be excluded from the Philadelphia Convention, no matter what may be their antecedents, who in good faith endorse the call.

NEW YORK ITEMS.—*Twenty-four cases* and ten deaths by cholera are reported in the city for Thursday, and sixteen cases and three deaths in Brooklyn.

The cholera has broken out in the King's County Truant Home. There have been 11 confirmed cases of cholera in King's county since the 27th ult. The inmates of the Truant Home are forbid coming to New York.

Immigrants to the number of 29,322 arrived here from Europe in July.

NEW HAMPSHIRE APPOINTMENTS.—Governor Smith and Council have made the following executive appointments:

Bank Commissioners—Elijah Wadleigh of Wakefield, Henry O. Kent of Lancaster, and Charles W. Johnson of Manchester.

Insurance Commissioners—Elijah M. Topliff of Manchester, John Felch of Sanbornville, and Daniel H. Wendell of Dover.

Solicitor for Hillsboro' County—Joseph B. Clark of Manchester.

Janitor of the State House—J. W. Hatch of Concord.

The military office in Concord is permanently closed. The records and business have been turned over to Captain N. J. Hall of Boston. Captain A. Baker Thompson, United States Army, will remain in Concord on general recruiting service.

☞ In Wisconsin, at the meeting to elect delegates to the National Union Convention at Philadelphia, the following delegates for the State at Large were chosen: Doolittle, Randall and Robinson. The district delegates also chosen. Some excitement was raised by the secession of one of the district delegates, who declared himself opposed to sitting in Convention with such men as Pendleton and Vallandigham. After an exciting discussion the name of this district delegate was stricken from the list.

☞ The authorities in New York have already removed one-half of the cellar population from their miserable dens, and the remainder will be turned out in a few days. The change from their subterranean abodes to those in which they can enjoy the light of the day seems to afford the "cellarites" great satisfaction.

☞ The New York World says that the Randall-Doolittle call "does not exclude nor will the Philadelphia Convention exclude, those who at the South were engaged in the rebellion, because, were the Convention to do so absurd a thing, half its benches would be emptied *instanter*, and the Convention left a beggarly parody upon the Rump Congress, whose conduct it is called upon to condemn."

☞ It is said another Spanish fleet, of 184 guns, is about to sail for the Pacific Ocean, to fight the South American Republics:—and 4 transports to carry 10 or 12,000 infantry. (?) Rather tough, the latter part.

☞ Our thanks to Rev. J. Frank Winkly, Rector of the Church of the Ascension, Wakefield, R. I., for "Narragansett Tract No. 2, Mode of Baptism," of which Dr. W. is the author.

—Texas has more native trees and shrubs than any other State.

THE MURDER OF COLONEL RIPLEY.—The Savannah Republican of the 28th ult. gives the following particulars of the brutal murder of Colonel Ripley, formerly of the 14th New Hampshire regiment, at his residence in Emanuel county, Georgia:—

"On Monday night last, about 10 o'clock, after Col. Ripley and his family had retired to bed, a party of men came to the house, and knocking at the gate, asked to see Col. Ripley on business. The Colonel sent his servant to the gate to enquire their business, who was told that they had a note for Col. Ripley, and desired to see him personally. The Colonel put on his clothes and came out to the porch, hailing those at the gate, who requested him to step to the gate, as they wished to see him on important business. He immediately proceeded to the gate, when one of the party spoke, saying, "Colonel Ripley, you are my prisoner." The Colonel drew his revolver and fired at the intruder, who made off; the others immediately fired, and the Colonel was struck in four places, mortally wounded, notwithstanding which, he succeeded in emptying his revolver before he fell. The party, after committing this atrocious deed, remained about the house, fed their horses, and repeatedly fired into the house during the night, refusing to allow Mrs. Ripley the privilege of giving water to her dying husband. The deceased leaves a wife and three children."

Col. Ripley will be remembered as having been Provost Marshal for this District a short time. His age was about thirty.

THE FEELING IN NEW ORLEANS, against Union men, has been forcibly illustrated lately. On Saturday last the house of Judge Heistand, a prominent Union man, was set on fire several times and came very near being destroyed. The proprietor of the St. Charles Hotel has ordered Judge Warmoth and other Union men to leave, as "he would no longer board Black Republicans." Such outcroppings as these show the underlying rebel sentiment there is the city, and that it needs only courage to manifest itself and to make the city as intolerable for a truly loyal man as it was before its recapture from the rebels.

STATE BONDS DESTROYED.—By the advice of Gov. Smyth at last session of the Legislature, an act was passed authorizing the Governor and Council to destroy what New Hampshire State Sixes had not been issued. In accordance with this act the Governor and Council have burned three million one hundred and nine thousand and three hundred dollars of State Sixes.

MEXICO.—Advices from Tampico report that city well fortified and prepared for an attack from the Liberals. The French are fortifying Monterey. Matamoras is quiet and trade in the valley of the Rio Grande has been resumed.

☞ A writer in the Worcester Spy, who in his young days used to play base ball, thinks the game has sadly degenerated. "Then," he says "there was a penalty attached to the act of throwing the ball lower than the head of the striker;" and, he adds, "instead of the upright, noble, muscular developer, the game has degenerated into what may appropriately termed a squat game—the players looking (for all the world) like so many huge toads grabbing for their prey."

☞ At Harrisburg, Penn., Aug. 1, it is stated that Resolutions were passed at the Democratic Soldiers' Convention, which repudiate the action of the Soldiers' Convention held in Pittsburg in June last, denounce the action of Congress and applaud President Johnson's policy, oppose negro suffrage and equality; hold that negroes should be satisfied with being free and should ask no more of the people.

[How natural it is, for democratic soldiers of the McClellan and Pendleton pattern, to *repudiate* the dongs of the Grant and Sheridan and Sherman school.]

FROM MATAMORAS.—Matamoras correspondence of July 20th, says Carvajal's administration of affairs there is winning friends to the Liberal cause. Escobedo's troops have left for Monterey via Carmargo. A forced loan has been ordered by Carvajal in Matamoras. A letter from Maximilian's chief of Cabinet has been captured, in which he says Santa Anna's arrival in this country is the great political event of the day.

A nucleus for the establishment of an American division has been established and recruiting progresses rapidly.

— Dr. J. C. Calhoun Blackburn, the rebel surgeon, who attempted to introduce small-pox into the North in infected clothing during the war, has written a letter in which he declares himself a "rebel in every acceptation of the term," laments his compulsory exile, and closes by saying—"If President Johnson be sustained, I expect to live, die and be buried in the United States."

— Miss Clara Barton, whose devotion to sick and wounded soldiers in the late war is so well known, proposes, in compliance with numerous requests, to lecture the coming season on "Personal Reminiscences of Scenes on the Battlefields."

— Some of the oldest coal shippers avow the belief that coal will sell lower in August than it has sold in July, notwithstanding the advance in tolls, unless there shall be a material stopping at the mines by reason of strikes, turnouts, etc.

WASHINGTON ITEMS, Wednesday.—General Sherman was serenaded at the Ebbitt House by the band of the 5th Cavalry. The General made a very brief response, saying that the less speaking a man did in Washington the better for him, and as he was his own best friend he would consult his own interests by saying nothing.

A lame effort to turn the Fenians over to the Johnson party was made at Grover's Theatre. John Hogan, of Missouri, read a written speech and was followed by George Francis Train. No enthusiasm was manifested, and the meeting failed to fulfil the expectations of its managers.

The Internal revenue receipts are very large just now; they were over two millions to-day.

Gen. Sickles has given notice that he will strictly enforce Gen. Grant's order relative to arresting persons guilty of offences against citizens and officers of the United States.

The Commissioner of Freedmen's affairs in Louisiana writes that the Civil Rights Bill is being strictly enforced. State officers are being arrested for neglecting to carry out the civil law of the State, even in regard to freedmen. [This was before the riot.]

☞ The Boston Herald's Washington correspondent says "there were a great many unparliamentary scenes in and about the House during the last night of the session. Every committee-room, the office of the doorkeeper, the clerks' offices and the postmaster's room were well supplied with liquor. In some of them, by 2 o'clock A. M., the floor was thickly studded with empty bottles. Members were under the influence of liquor on the floor, in the committee-rooms, and in their seats.

☞ The Gloucester Telegraph says it is the intention of Gen. Butler to erect a handsome summer residence on his ground at Annisquam. He will build a dwelling house, of a quaint order of architecture, of granite, the house to be *two stories*, with six *towers each three stories* in height. He will also erect a stone stable. At present his party are accommodated in spacious tents.

THE NEW ORLEANS RIOTS.—President Johnson, on Wednesday, Aug. 1, sent the following dispatch:

To Albert Voorhees, Lieut. Governor, or Andrew J. Herron, Attorney General, New Orleans:—Were the civil authorities, State or Federal, conferred with by Gen. Baird before the declared martial law? Could not the civil authorities, State and Federal, enforce the law and preserve order with the aid of the military, and without the necessity of martial law? I hope that order has been restored, and the riot not as disastrous as has been represented. Please show this dispatch to Gen. Baird.

ANDREW JOHNSON.

On the same day Gen. Sheridan sent the following dispatch to Gen. Grant. Gen. S. was absent from New Orleans when the riot occurred:

Gen. U. S. Grant, Washington, D. C.: You are doubtless aware of the serious riot which occurred in this city on the 30th. A political body, styling itself the Convention of 1864, met on the 30th for, as it is alleged, the purpose of remodeling the present Constitution of the State. The leaders were political agitators and revolutionary men, and the action of the Convention was likely to produce breaches of the public peace. I had made up my mind to arrest the head men if the proceedings of the Convention were calculated to disturb the tranquility of the Department, but I had no cause for action until they committed the overt act.

About forty whites and blacks were killed, and about one hundred and sixty wounded. Everything is now quiet, but I deem it best to maintain a military supremacy in the city for *a few days*, until the affair is fully investigated.

I believe the sentiment of the general community is great regret at this *unnecessary cruelty*, and that the police could have made any arrest they saw fit without sacrificing lives. P. H. SHERIDAN,

Major General Commanding.

Notwithstanding the advice of General Sheridan, we perceive Martial Law was withdrawn next day, doubtless by the order of the President, through Gen. Grant or otherwise. A New Orleans dispatch of August 2 says:

Martial law has been withdrawn. Several members of the Convention have been indicted by the Grand Jury and arrested. Judge Abell has charged the Grand Jury to indict all persons engaged in the riot. Several arrests have already been made, and all prisoners released by the military will be rearrested. The Military Commission to investigate the riot have been in session to-day taking the testimony of policemen.

— The Portland friends of Walter Brown, the oarsman, have determined to back him against Hamill, for the championship.

MECHANICAL TINKERING cannot arrest the decomposition of the teeth. Nothing will do this but that pure disinfectant and preservative which, under the name of SOZODONT, has become a staple of the toilet throughout the world. 33

MYSTERY.—"Mother," said a little fellow of four years old, "if a man is a mister, ain't a woman a mystery?" The greatest mystery in the world to us, is that any one will buy any other Saleratus but Herrick Allen's Gold Medal. It cures dyspepsia, strengthens weak stomachs, saves your teeth from decaying, saves one-half the quantity of shortening, besides it takes so little of the Saleratus to do its work. Try it. Most Merchants sell it. Depot 112 Liberty street, New York.

☞ The Connecticut Convention of Johnsonians was "a happy family," over the left. We had an item on Thursday morning giving the number as 500. But the Boston Herald has a dispatch saying "nearly 200 persons, including members and spectators, were present." Certainly not a very big Mass. Nevertheless, the same dispatch says:—"Senator Dixon presided and read an address, condemning the policy of Congress and sustaining that of President Johnson. Resolutions in the same spirit were adopted. Thirty-nine delegates to the Philadelphia Convention were appointed."

There was also a string of a dozen resolutions,—but when the Delegates were named, Gen. James F. Pratt, (who called the Convention to order,) could not stay, but left, and with him J. Jaynes. The Convention bade them Good-By, and wound up with cheers for Johnson.

THE BOSTON CAULKERS, at a Meeting of their Association, on Wednesday, voted to accede to the terms proposed by the master workmen and merchants, and thus the strike which has continued three or four months is at an end. Of course it has been a source of great pecuniary loss to those engaged in it, and who were the mere dupes of designing men in New York. It will not be tried again this year.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. suldawim

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a speciality has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

☞ The alterations on "Hanover Street Chapel" will greatly improve it for a school house; but an elegant building is turned into "a fright," just as Jefferson Market was by similar changes, and just as the architecturally-beautiful Academy probably will be.

By the way, we congratulated the parents, children and others concerned, the other day, that the City had *not* bought the said Academy for a school house. We now congratulate the owners of said property, on getting at least twice as much for the old hulk as it is worth to the city for the purpose designed, at any rate. Why not educate their æsthetic and artistic tastes, among nature's attractive and improving blessings?

Dear Editors:—I am glad to see that our Police have taken hold of the dog question in earnest. I learn that several of the canine pets have departed this life within the last twenty-four hours, and that more must follow them if they come in contact with the "destroyer," without muzzles. It cannot be much trouble for those who have good dogs, (if there are any such things in the universe, which I for one very much doubt,) to keep them muzzled for the short term of dog days, and all that are not worth a twenty-five-cent muzzle should be—well, success to the dog-killers.

☞ The Boston Herald's Washington special of Aug. 2, says:

There has been such a tremendous pressure on the President during the last few days that in order to seek some relief he has decided not to make any removals just at present. The crowds who filled the executive mansion to-day exceeding anything heretofore known.

What very disinterested people his new friends are; and a pretty kettle of fish he is cooking for himself. It may be that he thinks it best now, to wait a little, and see how the Doolittle Convention behaves.

☞ At Worcester, a number of lads hung like squirrels to the sides and windows of the car, joining in the call of "Sherman," "Sherman," when the General was passing through that city. The civilian-dressed General, rising, pointed the boys to a military gentleman in the car, dressed in uniform, whereupon a bright-eyed urchin responded, "Can't come that, General. Can't fool us up here. We take the papers. We know you," and, convulsed with laughter, the General was coerced to the platform.

— The published report that negroes have been kidnapped on the coast of Florida and sold to Cuba is denied at the Navy Department. In consequence of the reports on this subject the Department directed Commodore Winslow, commanding the Gulf Squadron, to make a thorough investigation of the matter, and be reports that the statements are without the slightest foundation.

— Gen. Sheridan recommends the continuance of martial law in New Orleans until after the investigations of the late riots shall be concluded.

FLOUR AND BUTTER.—The St. Albans (Vermont) Messenger of Wednesday says that on the previous day butter at the market there sold at from 37 to 40 cents per pound. The supply brought in was not large. The amount shipped for Boston was 930 tubs, gross weight 53,080 pounds. Amount shipped to Fitchburg 95 tubs, gross weight 3950 pounds.

It is said that holders of large quantities of flour will suffer considerable loss through the early arrival of new wheat in the markets. Were it not for the immense railroad charges in the West, flour would be very cheap.

GOLD, Friday, 147 1-2.

— By order of the President the military prisoners under sentence of death in Castle Pinckney, Charleston harbor, have been sent to the Dry Tortugas for life.

— The Paymaster General says it will take three years at least to examine the claims of soldiers for bounties under the new law; and it being computed that the amount required for that liquidation will be seventy-five million dollars, only twenty-five millions will be required per annum for their payment until all the claims are settled.

☞ Beware of Summer Complaint amongst the children. Thousand of little ones annually die from disorders of the stomach and bowels, and many, ah! too many homes are rendered desolate by the hands of this prevalent disorder. Coe's Dyspepsia Cure is a reliable remedy in all such cases, as well as for dyspepsia, indigestion, sick headache, sour stomach, want of appetite and general debility. jl30—1w

Holloway's Pills.—Liver Complaint. The insidious and destructive effects of "blue pill" on the system as a specific for this disease are now entirely superseded by the use of these mild, antiseptic and vegetable remedies. They not only eradicate all traces of this complaint, but give vitality to the exhausted functions, vigor to the impaired constitution, and energy to the exacted invalid. For indigestion, biliousness, heartburn, &c., they are the only safe cure. Sold by all Druggists. 175

THE BIG GUN IS LOADED!

LET THE BUZZARD SCREAM!

A. Q. Leach & Co.,

Still survive, notwithstanding the Barking of Small Fry about "Transient Humbugs," &c., and are selling to everybody who wishes to buy

DRY GOODS,

— AT —

UNPRECEDENTEDLY LOW PRICES.

Grave and important information for all who are at liberty and desire to spend their money where they can get the most for it.

A. Q. LEACH & CO.'S SYSTEM,

(that is, buying and selling cheap,) which is so obnoxious to the large profit seller, is fairly begun,

At No. 29 Market Street,

And such a time for doing good and showing up the extortioners was never known before.

DOWN WITH EXTORTION AND HIGH PRICES!

Stick by the men who have advocated Low Prices!

The great advantage of trading with and within your means, at all times, is fully illustrated by the

LOW PRICE CASH SYSTEM,

NOW RAGING AT

A. Q. Leach & Co.'s, 29 Market Street,

While, on the other hand, the MAD, GAMBLING SYSTEM is thoroughly exposed at

29 MARKET STREET.

Several Big Things for prudent Housekeepers to consider before Spending their Money:

Big Stocks, carried over or bought early at High Prices; Big Rents; Big Notes at Big Rates of Interest, and no real takers; as against

A. Q. Leach & Co., 29 Market Street,

Light Expenses, and a Large Stock of Goods, at the

BREAK DOWN PRICES!!

And the good old mottoes of "Small Profits," "Good Value," and "Quick Returns," flying to the breeze.

Although we are burned out at home, we find this as good a place to do Business as any in New England, and

We are Going to Stay!

And will not be undersold, if it takes

THE LAST COW IN THE BARN!

To Dealers and Country Traders

We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.

☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods*, at high prices, about selling *Dry Goods at Less than Cost*, but the safest way for all buyers is to call and get

A. Q. LEACH & CO.'S PRICES,

to take around in their pockets and compare.

MAKE A NOTE OF THIS.

Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.

N. B.—We pass no Counterfeit Money.

Morning Chronicle.

THE MURDER OF THE REV. MR. RICHMOND.—In the matter of the assassination of the Rev. J. C. Richmond, new evidence is accumulating every day, all of which shows conclusively that the members of the Lewis family had done everything in their power to annoy and insult the deceased for over a year previous to his death, the reverend gentleman in every instance retreating and not offering to resent their onslaughts. The trial of the prisoners will probably take place at the September sessions.

☞ When Benjamin Franklin died, he left to his daughter the King of France's picture, set with four hundred and eight diamonds, requesting however, that she would not form any of those diamonds into ornaments, either for herself or daughters, and thereby introduce or countenance "the expensive, vain and useless fashion of wearing jewels in this country." Can any of our Philadelphia contemporaries informs us if the diamonds are still around the picture?

— The venerable Elias Thomas, Esq., of *this city now over ninety years of age*, and *quite blind*, is one of the very few now living who can remember the first burning of the town by Mowatt in 1775. He was then four years old, and well remembers his nurse taking him and his sister Happy by the hand and leading them out of the burning town, across the bridge to Westbrook. His residence was consumed in the recent fire and he was again driven, in his extreme old age, to abandon his home and seek refuge from the flames.—*Portland Star.*

— Theophraste Renaudot was the founder of newspapers, and, strange to say, the newspaper he established, the 30th May, 1631, is still printed in Paris; it is La Gazette de France.

WAR STATISTICS.—The aggregate number of men furnished by the New England States during the late war, under all calls, reduced to the three years standard, was as follows:

Massachusetts, 123,844; Maine, 56,595; New Hampshire, 30,827; Vermont, 29,052; Rhode Island, 17,878; Connecticut, 50,514.

Of the above there were killed in action, or died of wounds, from Maine, 2871; New Hampshire, 1661; Vermont, 1902; Massachusetts, 6029; Rhode Island, 476; Connecticut, 1902. Total, 14,741.

Of soldiers who died of disease, there were from Maine, 5544; New Hampshire, 2530; Vermont, 2998; Massachusetts, 7904; Rhode Island, 1073; Connecticut, 3309; Total, 23,358.

The grand total of deaths from all causes was 280,420. Grouping the States in the average proportion per thousand of deaths in action and from wounds is, in the New England States, 44.76; in the Middle States, 31.79; in the Western States, 36.81; and in the Border States, 25.32. It appears from the foregoing that, as a rule, the mortality from battle ranged highest in the Northernmost States, both Eastern and Western. The high ratio of New England, 44.76, corresponds to that of Iowa, 45.44; of Michigan, 44.82, and of Wisconsin, 42.01. The following is the proportions of the several New England States: Maine, 44.37; New Hampshire, 47.27; Vermont, 58.22; Massachusetts 47.76; Rhode Island, 22.34; Connecticut, 35.48.

The average proportion per thousand of deaths from disease, taking in all the loyal States, shows for the New England States, 70.45; Middle States, 31.79; Western States, 36.81, and Border States, 25.32.—The New England States severally exhibit the following proportions: Maine, 85.67; New Hampshire, 76.30; Vermont, 91.81; Massachusetts, 62.62; Rhode Island, 50.37; Connecticut, 61.64.

"The variations of mortality from disease resulted in part from the nature of the respective services required of troops drawn from different localities.

An undue proportion of New England troops was used in the unhealthy Atlantic and Gulf States of the South, and to this circumstance may be attributed in a measure the fact that 70.45 per thousand of the men from the Eastern States died of disease. The men from the West served in the fever-breeding valleys of the Mississippi and its Southern tributaries, and this aided no doubt in swelling their mortality list. The troops from the Border States served mainly in the same regions, and suffered from the same cause. All their ratios are higher than the general ratio of the loyal States, which is but 59.22.

Again, the Middle States, whose men fought to the larger extent in the army of the Potomac, lost only 37.88, which is 33.67 below the ratio of the Western States, and 21.34 below the general ratio. Virginia was a healthier field of service than the bottoms of the Tennessee, or the lowlands of Louisiana, Mississippi and South Carolina, and it cannot be denied, moreover, that the Army of the Potomac was always by far the best provided of all our large armies."

— Belgium has 51 insane asylums, Germany 157, England 84, France 110, etc.; there are in all 619 insane asylums in Europe.

— A man who is advertising lodgings "to let for early risers" at Banbury, adds: "Cochin China fowls of unusual vocal powers are kept on the adjoining premises."

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."
The above sent free by mail on receipt of price.

MONDAY, AUGUST 6, 1866.

THE NEW ORLEANS MAYOR.—Mayor Monroe is said to be the rebel who occupied the same position when Farragut and Butler drove out the Confederates.—On the Fourth of July last, this same Mayor, in introducing the reader of the Declaration of Independence, took occasion to say "he differed from the expression of opinion in that document to the effect that all men are created equal."

When Admiral Farragut demanded the surrender of the city and that all flags and other emblems of sovereignty other than that of the United States be removed from all the public buildings, this same Mayor Monroe sent an insolent reply, in which occurs such passages as these:

"The city is yours by the power of brutal force, not by my choice or the consent of its inhabitants. It is for you to determine what will be the fate that awaits her. As to hoisting any flag not of our own adoption and allegiance, let me say to you that the man lives not in our midst whose hand and heart would not be paralyzed at the mere thought of such an act. Nor could I find in my entire constituency so desperate and wretched a renagade as would dare to profane with his hand the sacred emblem of our aspirations"—meaning, of course, the Rebel flag.

Of Union men and the United States government he wrote as follows:—

"In conclusion, I beg you to understand that the people of New Orleans, while unable to resist your force, do not allow themselves to be insulted by the interference of such as have rendered themselves odious and contemptible by their dastardly desertion of our cause in the mighty struggle in which we are engaged, or such as might remind them too forcibly that they are the conquered and yours the conquerors."

This is the regular swagger of one raised among the self-styled "governing classes;"—and he, still holding the same views and feelings, is encouraged and upheld by President Johnson.

When Judge Abell made his charge to the jury on the 23d of July, he probably had had some intimations that his course would be sustained by the President, and after the riot took place, Col. Rozisi, one of the most prominent New Orleans politicians of the rebel stripe, telegraphed to the Attorney General of Louisiana from Washington to arrest every member of the Convention; that "we have seen the President, and *that he will do all that can be expected*; call upon the military for aid." Nor was he disappointed. President Johnson's dispatch placed the military power in the hands of Mayor Monroe, a man who had to get his pardon after he was elected Mayor of the city.

The effects of this riot, and the friendly position which the Executive has assumed toward those who were the armed enemies of the government during the rebellion, and his coldness toward those who stood up boldly for the government during the fiery ordeal of the confederacy, cannot fail to alarm the Union men at the South, as it places the Presidedtn in a very questionable position toward them, and at the same time it inspires the rebels with a degree of exultation and arrogance which reminds one of their conduct and language during the closing scenes of James Buchanan's administration.

☞ The Empress Carlotta has chosen a rather unfortunate time in which to visit Europe to "treat upon the interests of Mexico, and arrange several international affairs." Louis Napoleon refused some time ago to advance any more funds to keep Maxamilian on his tottering throne, and it is not probable the recent change in Europe will incline him to alter his opinion in that matter. As for Austria, beaten in the field and humiliated before the world, with her very existence as a great Power endangered if not already lost, she will not be in a mood to invest in the Mexican Empire. No doubt Max see this clearly, and the real meaning of Carlotta's movements is to get her out of the way in advance so that the Emperor may have as few incumbrances as possible to retard his progress in case it should be found necessary for him to leave in haste.

THE JAMAICA COMMITTEE. — At a meeting of the Jamaica Committee, held in London on the 9th inst., Mr. John Stuart Mill, M. P., was unanimously elected Chairman of the Committee, in the place the Hon. Mr. C. Breton, M. P. In accepting the post, Mr. Mill said: "Gentlemen, I thank you for this honor and mark of your confidence. I accept the post you have given me. [Cheers.] I do so in the full conviction that the objects of this committee are simply to ascertain whether there exist in this country any means for making a British functionary responsible for blood unlawfully shed, [applause] and whether that be murder or not. I believe it to be murder. [Hear, hear.] This committee ought not to rest until it obtains from the legislature the assurance that men like Mr. Eyre will be made responsible for their criminal actions." [Hear, hear.]

SEMMES.—Some time ago the people of Mobile agitated themselves with the question why the President refused to allow Semmes to assume the office of Judge of Probate, to which they had unanimously elected him. It comes out that it was determined during the winter, while the expirate was still in confinement, to run him for the office, intimations having been received from the White House that he would not be brought to trial, and would be released during the spring. The President was approached to know if it would be agreeable to him to have this course pursued, and he expressed a desire that Judge Semmes should not become a candidate, as it would give the radicals one more pretext to "vent their resentment against the Southern States and oppose their admission."

In face of this hint from the Executive, Semmes still determined to run for the office, and his friends caused it to be generally circulated that it was by the President's tacit consent. One of the prominent Mobilians, however, not believing this, wrote to a friend in Washington to see Mr. Johnson and learn his views. He did so, and was given to understand, as before, that the election of Semmes would be a bad stroke of policy, and that he would not be allowed to take the office even if elected. The letter containing this explicit information reached Mobile some days before the election took place, and was at once shown to Semmes.

The loyalty of all parties concerned is shown by the fact that, notwithstanding this renowed expression of the President's desire and reasons in the premises, Semmes still persisted in being a candidate, and the people elected him unanimously. He afterwards went to Washington, and had two or three interviews with the President, though but one was of a private character. It is understood that he was not received with such courtesy as, in the estimation of resident rebel sympathizers, was due his high rank under the *Jefferson Davis regime*. He would be a valuable member of the Philadelphia Convention, as he could tell that body some things which they don't know.

GEN. HERRON.—The view of the late outrages which is taken by enlightened citizens of New Orleans, of unquestioned patriotism, and free from "radicalism," may be inferred from the following dispatch from Maj. Gen. Herron, who served with honor through the rebellion, and who has since the peace sustained the general policy of President Johbson:

New Orleans, July 31.—To Col. H. D. Ogden, Chairman Democratic Central Committee.—Dear Sir: After the scenes of yesterday, which I witnessed, I must respectfully decline acting as a member of the delegation appointed by your committee to attend the Philadelphia Convention. I believe the fate of the State to be settled by yesterday's action, and any attempt to help matters just now would, in my opinion, be useless.

John Ray, John E. King, and other delegates, decline going.

A FORTUNE IN COURT.—The will of the late Edmund Mott Robinson, involving about $7,000,000, is now before the New York courts, on an application of the daughter and only child of the testator that the will be set aside as null and void. A part of the property is in New York city, and the remainder in California. By the will Miss Hettie Robinson is to have $910,000, and other property in San Francisco; Henry A. Burling is to have $10,000; Abner H. Davis, $10,000, and there are some minor bequests. The remainder of the property is to be held in trust by the executors for the benefit of Miss Hettie during her life; if she dies with issue, it is to be divided according to her appointment; if without issue, the sum of $400,000 is to be divided among three brothers and one sister of the testator, the remainder distributed by her. She now sets up that the instrument is not the last will and testament of her father; and that its execution was obtained by fraud and circumlocution, coercion and undue influence.

☞ W. R. Cooper, who passed himself off as Paymaster Allen, of the Navy, and by an ingenious and elaborate forgery of papers, succeeded in getting $50,000 from the Treasury, was taken to Washington Friday, and all but $2500 recovered. He was married in Washington Thursday morning and was arrested by detectives while on the cars on his bridal trip. The Boston Journal's Washington correspondent says, the bride is the daughter of the head of one of the Government departments. Her father is of the highest respectability, and her family is overwhelmed with grief and mortification at the unfortunate developments of the past two or three days. The friends of the family find some comfort in the fact that the marriage was not consummated.

—Justice Thomas Hopwood, of Prince Fredericktown, Culvert county, Maryland, has been arrested for refusing to take negro testimony in a murder case where a white man was involved. He was put under bonds by the U. S. Commisioner at Baltimore to await the action of the grand jury. The case comes under the Civil Rights bill

GEN. SHERIDAN, in a dispatch from New Orleans to Gen. Grant, which was received at Washington on Friday, states that the late riot in that city was not the effect of a hastily congregated mob, as has been reported, but was the result of preconcerted and prearranged plots of the rebels to slaughter the leading Union men of the State, and that there is evidence that the plan was concerted weeks ago. Gen. Sheridan also gives it as his opinion that it is but the commencement of a rebel plan to rid Louisiana of Union men. Officers from the south-west say there are only about 1200 troops serving in Louisiana.

Though Gen. Sheridan has returned to his headquarters in New Orleans, he is obliged to submit to the indignity of receiving orders from the Attorney General of Louisiana, a man who, less than two years ago, was serving in the rebel army, and who seems now to be the special ally and confidant of President Johnson. If the consequences of this alliance were not so murderous and horrible — the alliance itself would be most contemptible. As the case stands, it excites the indignation of every honest man; and deserves the stern condemdation which it will and must receive.

☞ In Boston, on Saturday night last Joseph Spears, a longshoreman, went to his home, about 6 o'clock, in an intoxicated condition, and went to bed. While asleep his wife took his wallet from his pants pocket. It then contained four or five dollars. Between 8 and 10 o'clock, Spears awoke and called for his wallet, when his wife handed it to him. He had forgotten in his drunkenness that he had left the bulk of his money at a neighboring store, and not finding it in his wallet accused his wife of having appropriated it. This she denied; but Spears would not believe her, and assaulted and beat her about the head, inflicting wounds of which she died Monday. A coroner's jury found a verdict of murder; Spears is in jail, and in a fair way for the gallows.

☞ The official returns show the composition of the next Oregon Legislature will be as follows: Union Senators 14, Democratic Senators 8; Union majority 6. Union Representatives 24, Democratic Representatives 23; Union majority 1. Union majority on joint ballot 7. The Union majority in the Legislature secures the election of a United States Senator in the place of J. W. Nesmith, who now sustains President Johnson's policy with quite as much ardor as he opposed Lincoln's in 1864.

ANDOVER INSTITUTION, had its anniversary exercises last week. In the Porter Rhetorical Society, one of the essays was on "Frederick W. Robertson." W. J. Tucker of Fisberville, N. H., was the essayist: and the report remarks that the essay on Robertson was noticeable for its liberality and candor, and was listened to with marked attention.

In the exercises of the Seminary proper, one performance was, The Minister a Man in his Work among Men. William J. Tucker (D. C.), Fisberville, N. H.

The Seminary will enter upon a new year with a full corps of efficient Professors, and the best Theological Library in the country.

When the books are transferred to Brechin Hall, it is probable that they will be set up with some regard to classification, which will more than double their value to the students.

The Trustees voted to request the Faculty to prepare an abridged course for such persons as may desire to enter the ministry from a somewhat advanced life, as recommended by the National Council of last year, at Boston.

☞ The Tribune's New Orleans dispatch of the 2d, says: "The Military Commission, appointed to investigate the massacre of Union men, took Dr. Dostie's deposition to-day. Hon. John Henderson and Rev. Mr. Horton were too weak to give evidence. Rev. Mr. Jackson, Hon. Oscar Paynot, Hon. E. Dubatig and Hon. Geo. Howe are among the dangerously wounded not heretofore reported. Gov. Hahn and Hon. S. S. Fish are badly wounded, but will recover. I saw them to-day in the hospital."

A TRIPLE DELEGATION.—The Washington correspondent of the Boston Herald says:—

The National Executive Committee have issued a call for a meeting to elect delegates to the Philadelphia Convention. This will make three sets of delegates from this district.

Isn't there something slightly ludicrous in this?

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is attested by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who have used them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

NAVAL.—Rear Admiral Theodorus Bailey, Commandant of this Navy Yard and Station, having received his commission as Rear Admiral, his flag was on Saturday hoisted on board the Receiving Ship Vandalia, and saluted with thirteen guns.

The U. S. Steamer Winooski, Commander G. H. Cooper, arrived in the lower harbor on Friday last, from a cruise in the Gulf of St. Lawrence.

☞ A correspondent who went on the Excursion to the Lake, the other day, writes us that the party had a splendid time. Two gentlemen lost the train and were left, at Manchester; the rest were well satisfied with the trip. They arrived at the Weirs about noon, and took steamer for Diamond Island; and after revelling in the attractions of the Lake, arrived home here about 9 o'clock. The second similar excursion is announced for the 14th inst.

☞ O. A. Frost's Atlantic House, at Wells Beach, has been greatly enlarged and improved, and is doing a good business. The attractions of sea, rocks, breakers, &c., are great here; and the house is well kept, in charge of Mr. Frost and his clerk Horace Lamos. The sea view from the cupola, is very open and grand—reaching clear from Cape Neddick to Cape Porpoise, and eastward uninteruptedly as far as vision extends. You will always find Portsmouth people at Wells Beach, and visitors from all other quarters. We wish we had a week to spare, to lounge on the piazza and look at the surf, till it lulled us to sleep. The beach here is excellent and quite extensive.

☞ Three counterfeiters named Norton were arrested Friday night at Palermo, Me., by U. S. Detective Kent and Deputy Marshal Atkinson. The money found on them was in ten dollar bills on the Highland National Bank, of Newburg, N. Y., and National currency. The prisoners were taken to Portland.

☞ Commissioner Rollins has issued instructions to Assessors that, after the first of August, taxes of ten per cent. on all bank notes in circulation are to be assessed. The return of such taxes is to be made for the preceding month on or before the tenth day, and the tax is to be regarded as due and payable on or before the last day of every month.

☞ Twenty-four cases and two deaths by cholera were reported in New York Friday. Since the 28th of July, according to the official report, 103 persons died in that city of the disease.

The report from Brooklyn gives fifteen cases and six deaths from cholera Friday. The disease is abating on Governor's Island, and on David's and Hart's Islands matters appear more favorable.

— It is reported in one of the foreign journals that between Pardubitz and Prague the Prussians took an imperial manufactory of tobacco and 27,000,000 pounds of cigars, which would give 15 pounds of tobacco and 108 cigars to every Prussian soldier, estimating the army at 250,000 men.

— Rev. Dr. A. L Stone, who gave the Fourth of July oration at San Francisco, came out strongly for equal citizenship and equal suffrage—kinky hair and pigtails, as well as Anglo Saxons. It was a bold, brave position to assume, for Californians are bitter in their prejudices against the negro and the Chinaman.

— The Charter Oak Fire Insurance Company of Hartford elected a Board of Directors on Wednesday and voted to close its business. The Company lost $77,000 by the Portland fire, but will be able to pay all its indebtedness and return $45.50 per share to the stockholders.

—Euphrates Lake of Oswego, N. Y., recently used up two whips in flogging his son, a lad twelve years old, because he would not work on the Sabbath, and was going for a third whip when the neighbors interfered and rescued the poor boy, who was very much hurt. The inhuman parent, who is a Seventh Day Baptist, lately turned his daughter out of doors for the same offence.

—The voluntary contributions made to the public revenue of England by penitent tax-payers, under the head of "conscience money," maintain a regular average of about £7000 a year.

— The President telegraphs to Judge Bell, Secretary of State, that the Legislature of Texas will meet without hindrance on the 6th. The Governor will be inaugurated on the 9th, and then the officers of the provisional government will turn over their respective badges to the officials elect.

— A riveted brass caldron, containing a large assortment of antique armor and armorer's tools, has been accidentally discovered in the Colinwark Loch in Scotland. They are thought to be as old as about the year 1300.

— Santa Anna has been arrested in New York and held to bail in $30,000, charged with having maliciously arrested and imprisoned a Mr. Montgomery.

—The new material for paper, a patent for which has been applied for by a gentlemen in New Jersey, is sedge grass, a grass which grows in great abundance upon all tide-water flats. The paper is very white and clear.

— It is said that a later and more correct estimate of the number of buildings burned in Portland places it at 1800 instead of 1500, as previously reported, and 3000 families rendered homeless.

— Gen. Steadman unqualifiedly declines the office of Superintendent of the Public Printing. A successor to the present incumbent will be appointed in a few days.

— There is pressing want of laborers in Illinois, to gather the splendid harvest.

— The J. Monroe Taylor Gold Medal Soap is just the thing to please the ladies. The maker studies their wants and wishes, and leaves nothing undone which will make a washing day a gala day; and from the sale of it, we should think it was appreciated by them. The lady who does not enjoy the advantage of its good qualities is deprived of a great luxury in the way of white, nice clothes. Go at once and get a supply.

MECHANICAL TINKERING cannot arrest the decomposition of the teeth. Nothing will do this but that pure disinfectant and preservative which, under the name of SOZODONT, has become a staple of the toilet throughout the world. 33

☞ "Procrastination is the thief of time." Too many allow themselves to go without proper nourishment, and before they know it have the dyspepsia in the worst way. Indigestion, unless speedily attended to, will certainly produce sickness and ill health. We know of no remedy equal to Coe's Dyspepsia Cure in such cases. It enables the patient to take hearty food, the parent of health, stops distress after eating as soon as you take it, and is a perfect regulator of the stomach and bowels. a6

The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The outer buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

From the Portsmouth Journal

SWALLOWS.—If the pigeons have a partiality for the church, the same feeling the swallows seem to have for the school house. Passing the Cabot street school house recently, we saw on both sides of the building, regular projections from the eaving under the eaves, which at first appeared like an architectural device of the builder. But a close examination showed that the swallows have built about ninety clay nests on each side of the house, nearly equi-distant from each other, and on a straight line—each nest is about the capacity of a quart bowl, and resembles it, with a hole for entrance. The sight is a rare one, and well worth seeing. In the early morning the air is full of the twittering of the birds which are coming and departing every moment, like the comers and goers to the hotels of the watering places,—but with lighter *bills*.

PICNIC.—The Union Rebecca Degree Lodge of Odd Fellows of Portsmouth, held their *picnic* at South Berwick Grove on Wednesday. They started in the 10 A. M. train, and arrived there about 11 o'clock. The grove was but a few steps from the depot, where they improved the time in swinging and dancing, till it was time for the hungry ones to adjourn to their separate tables, laid out in the grove. After dinner they commenced dancing again—the music being furnished by Turner's Quadrille Band; then the game of Copenhagen was started, in which the dancers and all joined, and enjoyed themselves in earnest. They started for home about 5 o'clock, all seeming well pleased with their day's enjoyment.

PIGEONS.—The covings of the front of the North Church, on Market square, appear to be a desirable resort for the pigeons. They may be seen there by scores at all hours of the day, and at night a hundred at least make this their resting place. They build their nests there, and here they find a place for their young—"even thine altars, O Lord," as of old. Although they are rarely disturbed, even by the bell so near them, yet, on public days, like the fourth of July, the noise of pistols and crackers on Market square, is to them no small occasion for disturbance. On that day a large flock might be seen high in the air, circling around the steeple, and like the dove of old, finding no place to rest upon.

FRANK GOODWIN, Esq., Counsellor at Law, son of Ex-Gov. Goodwin of this city, has taken an office at No. 4 Court-street, Boston. He is Commissioner for New Hampshire.

"GEN. LONGSTREET."—*It could have been no other* than a *loco motive* that could have suggested the above name for one of the iron horses which may be seen passing daily at the Depot at Manchester, N.H. Are there not enough Union Generals to select a name for a leader of a railroad train, without compelling loyal citizens and patriotic ladies to follow in the lead of a notorious rebel General? Only rub out the "General," and *Long-street* divested of its personality, will not be a bad name for a Railroad track.

THE FIRST MESSAGE BY THE CABLE.—It is a little singular that the first message of any importance, and, indeed, the only one of public interest, transmitted by the old cable, (Aug. 25, 1858,) was the news of the treaty of Peace between the European powers and China. From that time the lips of the electric monster were sealed, until now there comes up from the bottom of the Atlantic, before the London Times which prints it is dry, the news of the termination of the war between Prussia and Austria.

"Peace on earth, good will to men."

SOUTHERN SCHOOL BOOKS.—If not to teach the rising generation "Confederate" doctrines, why is, as announced, "the University of Virginia engaged in the labor of preparing a new series of School books for Southern children?" The pride of "the Old Dominion," the "mother of Presidents," and South Carolina, the soil on which John C. Calhoun was reared, will insure these States to be amongst the last to be reconstructed satisfactorily to the other sisters. But there is a mesmeric influence not to be long resisted. To have no voice in the government, so long wielded by their influence, will be a punishment not to be endured, when the mass of sensible men uncommitted, reflect upon the easy curative process.

Our Senator, Mr. Clark, now appointed District Judge, in place of Judge Harvey, deceased, has done an excellent closing service, (for the Governor will be obliged to appoint a Senator for the next session,) in bringing forward and carrying through a law for universal observance in the choice of Senators, fixing the day to be uniform—the vote in each branch to be open *viva voce*, and in case of disagreement, then to meet in joint ballot, a majority determining the choice. There have been great abuses in the absence of any general rule of proceeding, in several of the States.

The *rotation understanding* gives the Representation in the next Congress, for the 3d N. H. District to the Southern portion, Mr. Patterson having been promoted to the Senatorship. There will be no lack of candidates for the $5000 a year salary, 40 cents a mile for travelling, and the franking privilege. Already five have been named, in advance of any member of the bar, viz: Ex-Governor Haile, Hon. George G. Fogg, Gen. Griffin, who failed all the bullets in many a deadly conflict, Col. Ward, one of Gov. Smyth's aids, and the Hon. Allen Griffin, our last Electors of President, &c. It is somewhat singular that three are manufacturers. The last is a retired farmer.

THE CROPS.—The abstract of crop returns for July, just issued from the Department of Agriculture, shows the prospect of a year of average fruitfulness. The present indications, as marked by thousands of correspondents of the department, point to an average of about eight and one half tenths of an average crop in a quantity of wheat, that will make it equal in value to last year's crop. The testimony from all quarters renders it certain that the quality will be excellent. The showing is much more favorable than in the June report. Winter barley is in very nearly the same condition as the wheat. The oat crop has been nominally good—almost beyond precedent. The condition of pastures is generally above the average. With the exception of Maine and New Hampshire, every State reports a greater breadth of corn than usual. A somewhat diminished average of sorghum is indicated. There is nearly an average breadth of flax. In every State more potatoes than usual were planted, which promise better than usual. The prospect for apples is not good as usual, and no fruit upon the list makes so poor a show as peaches.

The Chronicle.

— Illinois contains over 500,000 foreigners. These, with their children born in this country, constitute nearly a million of the population. In the public schools of Chicago more than forty nationalities are represented. People from almost every civilized country on the globe are found there.

— A German named William Zeph, who murdered a man at Joliet, Ill., six years ago, and made his escape, was arrested on Monday in Chicago, where he was recognized by a son of the murdered man.

— The strike of the shoemakers of Newark, N. J., against the proposed reduction of their employers of fifteen per cent., has terminated in a success for the workmen. The proprietors say they will pay the old prices.

— A Michigan paper says "Don Juan," the celebrated thoroughbred of General Custar, the animal on exhibition at the recent horse fair in that city, which took the first premium, died in Tecumseh last week. He was valued at $6000.

— When a man and a woman are made one by a clergyman, the question is, which is *the one*. Sometimes there is a long struggle between them before the matter is finally settled.

— Ice is worth two pennies a pound in London and other large cities in England.

— The latest Parisian bonnets are described as a ribbon round the head with a veil attached to it.

— That was not an empty remark of the old woman from the country, who, while on a visit to her city daughter, saw a waterfall for the first time. "What do you call that great big stuffed bag, Mary?" "That's a waterfall, ma. "A waterfall! It looks like a land slide."

— Through the influence of the Lelands, the race-meetings at Saratoga are to be prohibited hereafter, as they are considered injurious to the place.

— The local of the Mobile Advertiser is doubtless something of an original. He mentions having seen a woman the other day so *plain* that he observed a shaving roll from a board against which she switched her dress.

— It is stated that after the completion of the mills now in course of erection in Fall River, that city will have more spindles than Lowell, and will be the first city in America in the amount of cotton goods manufactured.

— At the close of the war there was due the government from postmasters in the rebel States about $300,000 of ante-war balances. Of this about $150,000 have been collected at the Sixth Auditor's office, and suits have been instituted for the recovery of about $50,000 more. This money has been paid over once before, to the confederate authorities.

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale.
The above sent free by mail on receipt of price.

THE BIG GUN IS LOADED!

LET THE BUZZARD SCREAM!

A. Q. Leach & Co.,

Still survive, notwithstanding the Barking of Small Fry about "Transient Humbugs," &c., and are selling to everybody who wishes to buy

DRY GOODS,

— AT —

UNPRECEDENTEDLY LOW PRICES.

Grave and important information for all who are at liberty and desire to spend their money where they can get the most for it.

A. Q. LEACH & CO.'S SYSTEM,

(that is, buying and selling cheap,) which is so obnoxious to the large profit seller, is fairly begun,

At No. 29 Market Street,

And such a time for doing good and showing up the extortioners was never known before.

DOWN WITH EXTORTION AND HIGH PRICES!

Stick by the men who have advocated Low Prices!

The great advantage of trading with and within your means, at all times, is fully illustrated by the

LOW PRICE CASH SYSTEM,

NOW RAGING AT

A. Q. Leach & Co.'s, 29 Market Street,

While, on the other hand, the MAD, GAMBLING SYSTEM is thoroughly exposed at

29 MARKET STREET.

Several Big Things for prudent Housekeepers to consider before Spending their Money:

Big Stocks, carried over or bought early at High Prices; Big Rents; Big Notes at Big Rates of Interest, and no real takers; as against

A. Q. Leach & Co., 29 Market Street,

Light Expenses, and a Large Stock of Goods, at the

BREAK DOWN PRICES!!

And the good old mottoes of "Small Profits," "Good Value," and "Quick Returns," flying to the breeze.

Although we are burned out at home, we find this as good a place to do Business as any in New England, and

We are Going to Stay!

And will not be undersold, if it takes

THE LAST COW IN THE BARN!

To Dealers and Country Traders

We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.

☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods*, at high prices, about selling *Dry Goods at Less than Cost*, but the safest way for all buyers is to call and get

A. Q. LEACH & CO.'S PRICES,

to take around in their pockets and compare.

MAKE A NOTE OF THIS.

Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.

N. B.—We pass no Counterfeit Money.

TUESDAY, AUGUST 6, 1866.

A NEW LEAF TURNED.— A gentleman somewhat familiar with proceedings in the U. S. District Court, informs us that by reason of the extreme age and amiable character of the late Judge Harvey, some people "slipped through the meshes of the law" who should have been handled with a strong arm. Our informant believes that, under the new dispensation, people who commit frauds upon the internal revenue and other laws of the United States, will henceforth find themselves in a hot pickle.—*Statesman.*

We do not know from which side of the Bar the Statesman's informant got his familiarity with the Courts, but people here are led to believe that the offences referred to are generally punished by the Circuit Court, of which Judge Clifford is the responsible head, and wherein Judge Harvey only acted in the absence of the Circuit Judge, and seldom if ever was in the habit of trying cases or passing sentence.

Attorney-General Stanberry is preparing a decision showing that there is no law which prevents the President from making any removals or appointments during a recess of the Senate.

[So says a Washington correspondent; but we don't believe Mr. Stanberry is such a fool as to put pen to paper denying what no one has asserted. It is very well known there is no such law:—but on the other hand, the Constitution gives no power to make *removals.* And possibly Mr. S. may be about to make a *plea* for such a power.]

IN NEW ORLEANS, Martial Law continues in force, notwithstanding the reports to the contrary. On Saturday, Aug. 4, Gen. Sheridan issued the following order:—

In consequence of the unfounded rumors in circulation in reference to the military status in the city of New Orleans, it is deemed necessary to announce to the public that martial law will be continued and enforced so far as may be required for the preservation of the public peace and the protection of life and property.

There have been heavy shipments of gold from N. O. during the past week, part on government account.

Lieut. Batts of the Freedman's Bureau has been murdered by highwaymen in Jackson parish.

Union men are leaving New Orleans.

The Washington correspondent of the Boston Journal says, "Gen. Sheridan in his late dispatches, goes into a more extended review of the conduct of the police and of Mayor Monroe, whom he styles 'that bad [man?] Gen. Sheridan recommends the removal of Mayor Monroe, and he says he has directed the military government to be continued in New Orleans until the investigation of the occurrences during the past ten days shall have been completed. Gen. Sheridan has had full authority to do or order as his judgment dictates. He has the confidence of both Gen. Grant and the President, and Gen. Sheridan is well aware of this fact."

[This does not look as if the President had ordered martial law removed.]

The Boston Journal says:—

The New Orleans dailies, containing their reports of the recent riots, have come to hand, with voluminous justifications of the conduct of the rebel Mayor and Police. Both the Picayune and Times admit that the police "may have exceeded their duties," and "there is testimony of firing at prisoners that was both wanton, and, as it appeared, unnecessary." These two admissions are sufficient to convince any one that the firing on the members who did not commence any attack on the police, was a useless massacre. The Chief of the Police, Lucien Adams, a pardoned rebel, whose property had been confiscated and returned to him, had made arrangements with Hyde & Goodrich, a firm which had been largely engaged in the manufacture of arms for the rebels during the war, to supply the populace with pistols, which was done. On the day of the riot Lieutenant Governor Voorhees called on Gen. Baird, and told him that the Convention would not meet till six P. M., when he well knew that it would meet at twelve M., and as there were no troops on the ground at the time that the massacre commenced, this accounts for the delay for which Gen. Baird has been unjustly blamed.

☞ A Louisville, Ky., dispatch of Sunday, says:—The Hobson and Duvall parties respectively held large meetings last night. The former was addressed by Gov. Bramlette, Col. Distron and Gen. Whitaker, and the latter by Vallandigham, Pugh and Dennis. The mention of the names of Lee and Johnston at the Duvall meeting elicited great applause, while those of Gens. Grant and Sherman were received with hisses by prominent men.

☞ On Sunday morning, at Lawrence, Mass., the building lately put up for a hospital by the Pacific Mills Relief Society, was burnt, doubtless by an incendiary. It stood on Tower Hill; and there was a strong feeling against having this hospital or the City Hospital, located in that vicinity.

☞ A New Orleans dispatch of Sunday, to the Associated Press, says: Dr. Dostie and Rev. Mr. Horton, the officiatiating minister at the late convention, died this evening.

NEW HAMPSHIRE ITEMS.

—— Rev. C. E. Haskell, from this city, is pastor of the Freewill Baptist Church in Epsom.

—— The News Letter learns that the Boston & Maine Railroad have purchased land near Middle street, Exeter, intending to remove their Depot to that locality.

—— Some time ago, the town of Claremont voted to expend $15,000 to build a High School, to match the gift of $10,000 by Paran Stevens for the same object. Within a few days another meeting has been called, to rescind the vote, though a lot had been selected and purchased, lumber contracted for, &c.,—but the foolish proposal was indefinitely postponed, by ten or twenty to one.

—— A Durham, N. H., correspondent of the Boston Transcript, says that on the 29th of July, a thunder storm passed over that place, presenting some unusual phenomena. The electric fluid, striking the telegraph wires, passed down from nineteen different posts in a direct line to the earth, taking out a piece of wood from one to one and a half inches wide and one inch deep, as though a gouge or other cutting instrument had been used. The questions which arise are, did so much of the fluid come upon the wires all at one discharge? and if so, why did it continue along the wire and pass off at so many different points and not all at once from one? Was it a protection to the houses in the vicinity by drawing off the electricity, or had the wires been attached to them, would it not have been dangerous?

AUSTIN ACADEMY.—This Institution at Strafford, N. H., (formerly Strafford Seminary), has had its name changed in honor of Rev. Daniel Austin, of Portsmouth, who has given liberally towards its funds. The building has been thoroughly repaired inside and out. It is a very desirable resort for students, situated in a healthy, beautiful location, with an experienced Board of Teachers, and the prices are very moderate. See our advertising columns for particulars of Fall Term. Address Geo. C. Peavy, Esq., Chairman Board of Trustees, Centre Strafford, N. H.—*Rochester Cour.*

NASHUA MANUFACTURING COMPANY.—*This prosperous corporation* is employing about one thousand hands, eight hundred of whom are females. Average monthly pay roll $25,000.

A RIOT SCENE IN NEW ORLEANS.—A New Orleans dispatch to the Cincinnati Commercial, when the riot was at its hight on Monday, says:

Hell is still loose and near the capitol. The mob, backed by the police, are reeling in blood; negroes and Union men are hunted down together. Since my last dispatch I have traversed Common and Dryades streets, past the capitol. The crowd on Common street was raging in the wildest manner. A negro was seen running, and immediately followed with a howl and cry, *shouting,* "Kill him!—shoot him!" He disappeared in a yard behind the capitol. A drunken rioter swung his revolver and yelled, "Hurrah for hell!—hurrah for Louisiana!" A stout citizen cried, with tears in his eyes and clenched fists, "It's a shame —It's a shame!"

On Dryades street the mob had gathered about a trembling white man, saying, "Hold on there. We've got you now. Say, was you in the army or not?" A fire engine plunged into the street, driven by a drunken man, and shouts were heard, "Fire the Institute"—that is, the Capitol, where some of the Convention were still at bay, defending their lives.

Shots, like a skirmish fire, rang all about me. On Canal street I came upon blood on the pavement, and being beckoned in, found Captain Burke and also the Chief of Police, wounded.

A reign of terror broods. Respectable citizens are filled with chagrin and sorrow. The police have been, in every case to which I have been an eye-witness, the supporters and leaders of the mob. No marked Union men dare venture abroad.

☞ The Hartford Courant says that Gen. James T. Pratt's summary departure from the New Haven Convention was not, as has been stated, based upon personal feeling entirly. It appears that the Copperhead element was too strong for the General, who did not wish to affiliate with men whose boast for the past five years has been their opposition to the war for the Union. He will never aid, he says, directly or indirectly, in placing in power Northern men who sympathized with the assassination of President Lincoln.

— It is estimated that the amount of money realized from the sale of goods seized on the northern frontier by customs officials for violations of the revenue laws, during the fiscal year ending June 30, 1866, will exceed the necessary expenses of maintaining the system established by the Treasury Department by about $150,000.

— This is the way that candidates for State offices in Richmond, Va., advertise themselves. It is a beautiful example of reconstruction: "Judge Crum, it is said, gave $3000 to the Confederacy. Mr. Gilmer gave four years of his life and risked the whole. Who gave the most? Let the soldiers answer at the polls."

— The elephant which died in Belfast not long since was a victim to pulmonary consumption. The post-mortem examination disclosed a charked tubercular deposit in the lungs, with cavities showing that suppuration must have occurred.

EUROPEAN NEWS.—A special dispatch to the New York Herald from London, August 3, received in New York August 5, says: Martial law has been proclaimed in lower Austria, and also in Venice, Wurtemburg and Prussia.

A peace conference is to be held in Prague. The preliminaries agreed on are as follows: Austria is to withdraw from the German Confederation, and is to lose Venetia and her part of Schleswig-Holstein. Austria is also to pay ten millions to her adversaries as expenses of the war. The German States north of the Maine are to form a union under the guidance of Prussia. The German States south of the Maine are to form an independent union.

Last Friday night, in the British House of Commons, the bill for a renewal of the suspension of the writ of habeas corpus in Ireland was read a second time. Mr. Gladstone, in a speech, supported the treatment accorded to the Fenians by the American government. A resolution against the bill was negatived by a vote of 105 against 31.

☞ In Portland, thousands of men are now at work clearing away the rubbish, laying foundations, erecting new structures, and preparing materials for their completion. There are already upwards of two hundred buildings now in process of erection in the burnt district. Portland bids fair to rival the Phœnix.

There was stored in the sugar-house one thousand hogsheads of sugar, which were precipitated into the cellar, covering it to the depth of a number of feet. That sugar has been burning slowly ever since, and may now be seen blazing up all over the cellar. It was impossible to save any of it, mixed up as it was with the debris of the destroyed building.

The loss to one insurance office in Salem by the Portland fire, was greater in amount than the loss to citizens of Salem from any fire that had ever occurred in that city.—The Holyoke, $129,000.

A HARD DAY'S WORK.—On Thursday July 26th, with the thermometre at 97 in the shade, a remarkable feat was accomplished by Caleb Hotchkiss, a tavernkeeper at Mantua Corner, Ohio, who is a little over thirty years old, and was a member of a New York regiment during the war.—Between nine o'clock in the morning and sundown, he walked eleven miles, drawing a wagon weighing 520 lbs., on the highway, on a bet of $40 that he would reach Ravenna before sunset. He got there at 6:15, with an hour to spare; and pronounced himself in good condition and not excessively fatigued, but very much heated. Except from blistered feet, he declared he suffered no material inconvenience; and for a $100 wager offered to turn about and draw the wagon back again before six o'clk next morning. But no one took him up.—He rested an hour at dinner.

☞ The person who succeeded in swindling the government out of $60,000 recently by means of forged requisitions on the Navy Department, and who was arrested in Baltimore on Friday morning, is Acting Ensign William Ringgold Cooper, lately on duty in the Office of Detail, Bureau of Navigation. He was married Friday morning to Miss Julia Defrees, neice of the public printer, an heiress, and a highly accomplished young lady. All of the $60,000, with the exception of about $2,500, was recovered when Cooper was arrested.

NATURE GIVES US TEETH, but she does not preserve and purify them. That must be done with Fragrant SOZODONT. The dental bone and its enamel casing are made invulnerable to all destructive influences by the daily use of this beneficent preparation. 34

— The ladies, individually and collectively, without a single exception, pronounce Herrick Allen's Gold Medal Saleratus to be the best and most wholesome article in the market. They say it makes nicer, whiter and lighter Biscuit and Cake, and requiring less shortening, than any other saleratus, and is much better to use with cream tartar than soda.—Try it. Most of the grocers and many of the druggists sell it, and at wholesale by wholesale grocers. 39

☞ "Procrastination is the thief of time." Too many allow themselves to go without proper nourishment, and before they know it have the dyspepsia in the worst way. Indigestion, unless speedily attended to, will certainly produce sickness and ill health. We know of no remedy equal to Coe's Dyspepsia Cure in such cases. It enables the patient to take hearty food, the parent of health, stops distress after eating as soon as you take it, and is a perfect regulator of the stomach and bowels. a6

For indigestion, biliousness, heartburn, &c., they are the only safe cure. Sold by all Druggists. 175

Ayer's Pills.

ARE you sick, feeble and complaining? Are your blood, your stomach, your liver, deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some ill or sickness is impending upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors of your blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify your system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural motion of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial case, follows complaints also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. Those who know the value of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the Speedy and Certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself the MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine introduced. It is an internal and external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

DR. B. C. PERRY, who has made diseases of the skin a specialty has discovered a remedy for these disoloratious, which is at once prompt, infallible and harmless.

THE LATE MR. BARKER.—The following obituary, from the pen of Rev. Mr. Pike, we cut from Zion's Herald:

Jonathan Barker was a native of Pelham, N. H., but for more than fifty years a citizen of Portsmouth. He made a public profession of religion, and united with the M. E. Church in 1816, and has held official relations to the church since 1818. He was a modest, quiet, devout Christian, who not only always lived in peace with his neighbors, but was also invaluable as a peacemaker. He early espoused the cause of the oppressed; and the movements for the suppression of intemperance found in him a consistent and earnest friend.

Bro. Barker, in all his business transactions and relations, was above reproach. He was by occupation a mason, and superintended the erection of many of the churches, factories and other edifices in this city and vicinity. He was also for several years master mason at the Portsmouth Naval Station. Afterward in trade as a lumber dealer, and interested in shipping. He has been President of the Mechanics' Association of this city, and held many other offices in benevolent, municipal and masonic organizations.

Untiring industry and rigid economy, by the blessing of God, secured to him considerable property, which he endeavored to use conscientiously as a steward of the Lord Jesus Christ. Accordingly, most of his property was given for the benefit of the M. E. Church. Among his bequests to be made available on the decease of his widow, is $1000 for the benefit of the church in Portsmouth, of which he was a member; $1000 for N. H. Conf. Seminary and Female College; $1000 for Biblical Institute; $1000 for Preachers' Aid Soc. of the N. H. Conf.; $1000 for Indigent Young Men preparing for the Ministry of the M. E. Church.

The Trustees of the N. H. Conf. are constituted the residuary legatees, to whose custody it is believed at least $10,000 of the estate will be ultimately committed, the income from which is to be used as the Conference may determine. Nor did he in his benefactions overlook the Missionary Society, Sunday School Union, and Tract Society of the M. E. Church. Blessed man! He "preferred Jerusalem above his chief joy;" and his memory shall be as ointment poured forth. He died in peace.

We understand that in addition to the above bequests, his will gives $500 to the Howard Benevolent Society, and $500 to St. John's Masonic Lodge. Also $1000 toward establishing a Reform School in Portsmouth, provided $10,000 be otherwise raised for the same purpose—if not, to go to N. H. Conf. for aid to superannuated preachers.

Reported for the Chronicle.

POLICE COURT, August 6.—George Alton, for assault, was fined $10, and costs—$7.62.

John Sheehan, John Stringer, Wm. Skeels and John Norton, were each and severally fined the inevitable "$6.86," for being drunk.

Our reporter ground the following from a hand organ:

"A man on State street sat enjoying a talk,
When he heard some one snoring upon the sidewalk;
He stepped to the door and beheld Isaac Reese,
Then he sent to the station to call the police.
Now, when it were done, 'twere well 'twere done quick,—
So (I think very wisely) he called upon Pick.
Poor Isaac was quickly put in a bad fix,
And this morning the Judge fined him "6.86."

☞ We understand the only Ropewalk in this city, now standing near South Mill Pond, has been sold (without the machinery) to a gentleman in Portland, who will take down the building, and put it up in P. in the form of dwellings. The ropewalk has not been used for some years, but there is no better place than this for the manufacture of cordage, and its removal does not speak very strongly for the "enterprise" of the city.

SUBSCRIPTIONS FOR GOSPORT, STAR ISLAND, at Foster's Bookstore:

I. Goodwin $25, Jas. DeNormandie $20, Chas. Burroughs $20, J. M. Trefick $20, Mary A. Foster $—, T. B. Bartow $10, Geo. M. Adams $10, Crew U. S. Ship "Vandalia" $53. Total $158.

☞ The first train from Portland on Monday morning, which should have arrived here at 11:15, was detained near North Berwick by some breakage of the engine, so that it did not arrive here till 1 o'clock.

☞ To Mr. C. T. Lane, of Candia, we are indebted for a nice bunch of Green Corn, or rather yellow corn, well filled out. It is a variety new to us, the seed a couple of years since having come from Iceland. It is a very rapid grower.

☞ Rev. L. L. Harmon has become pastor of the Freewill Baptist Church in this city.

☞ Two barns, owned by Mr. Robert Norton of Greenland, containing 40 tons of hay, were burned on Monday morning at 4 o'clock. One of the barns was new. Loss $2500. No insurance. Mr. Norton had applied for an insurance, but his policy had not been completed. The fire is supposed to be the work of an incendiary.

☞ We learn that Messrs. T. S. Nowell & Co., shoe manufacturers of this city, have established an office in Boston, at No. 57 Hanover Street, opposite the American House, for the convenience of their New York and Western customers.

PIC NIC.—We learn that the Pearl Street S. S. and Society are to have an Excursion by cars out to Brackett's Crossing, Stratham, and a Pic Nic in the fine Grove near Great Bay, on Friday, 10th inst., leaving here at 8 1-2 o'clock A. M. Tickets only 30 cents for the round trip. Friends from other Societies are invited to join. A band of S. S. children are prepared to interest the company with juvenile singing, on the cars and in the grove. 3t

Excursion parties from Fall River, Taunton, Dighton, Providence, &c., find ample accommodations. EXECUTION OF AN ELEPHANT.—An American circus has been travelling about Switzerland with great success this summer, but at Friburg, last month, the male elephant, over fatigued by the constant marching, and irritated by the rough treatment of his keeper, suddenly seized his keeper and tossing him to a great hight, on his fall crushed his chest with his foot before any assistance could be afforded. As it is generally understood that after once killing a man these animals are dangerous, the director of the circus decided upon having it killed, and for that purpose applied to the authorities of Friburg for a piece of cannon. This was granted, and the animal having been enticed into a favorable position, the gun was fired, and the brute fell dead.

A QUIET OLD LADY.—A correspondent writing from East Sandwich, says: "There is living in this place an old lady by the name of Hall, who for more than fifty years has not been one hundred feet from her door. The last time she went was when the English were expected to land near here in the war 1812, when she went to one of her neighbors" about half a mile off. She has always enjoyed good health. She has a nephew and also a cousin living within fifty yards of her, who have repeatedly offered to lay a board walk to their houses for her, but she refuses even to go as far as that.—*Nantucket Inquirer.*

THE SOLDIERS OF PENNSYLVANIA.—Notwithstanding the bribes offered to the soldiers by the "new party," we see that in Pennsylvania they almost unanimously reject the overtures, unwilling to train in the ranks with the men who during their absence in field read intelligence of disaster to the Union cause with expressions of delight. The "boys in blue" will not desert their colors.

— A ragged old vagrant was recently arrested in St. Joseph. Half a bushel of filthy old rags were taken from about his waist, and wrapped in the rags was concealed $1224.50 in coin, and $3.29 in currency. He declared that some of the coin had been in his possession for forty years.

— About twenty years ago, Mr. Charles Baeder, an enterprising manufacturer of Philadelphia city, was compelled by mercantile misfortune to compromise with his creditors. Recently, finding himself possessed of the means, he paid them the balance of his indebtedness, with interest.

— In the new chapel now in the course of erection at Bedford, Eng., a notice is put up warning the workmen that swearing or the use of bad language will cause their immediate dismissal. The notice is a copy of that put up by Sir Christopher Wren in St. Paul's when it was in process of construction.

☞ The following letter from William Cullen Bryant will be read with pleasure by all who wish success to the introduction of GOOD DOMESTIC WINES:

NEW YORK, March 20, 1866.

DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.

I am, respectfully yours,
(Signed) W. C. BRYANT.

A SPUNKY EDITOR.—The editor of the Kansas City Journal of Commerce breaks forth into this vigorous editorial pargraph:

"We have been holding on with hope to the President during the past six months. He won't change—we must. We have been reconstructed, and from this time forward the Journal of Commerce will act in concert with the Congress of the United States, a body representing the sentiments of the country. Whenever the President shows a disposition to go with the great Union party of the Republic, we will give him an earnest support. We cannot now, however, follow him longer and assist him in dragging others into another rebellion. The writer of this is Postmaster of Kansas City, an office which Mr. Johnson, whose present position we want it distinctly understood we don't indorse, can have any day between the hours of 7 o'clock A. M. and 7 o'clock P. M., earlier or later."

PUFFING THE CABLE.—The great Atlantic cable had been working "perfectly" and "splendidly" since Saturday last, at least so we are told by the numerous laudatory telegrams from Heart's Content. It seems to have been in admirable condition to answer the purpose of gratifying Mr. Field and gratuitously advertising the company. The public are now tired of this telegraph puffery. They desire proof of its being in "admirable working condition," which can only be furnished by sending to the American press late and reliable European news—war, political and financial.—*N. Y. Herald.*

— John Smith, Peter Smith and John Done, natives of Scotland, but residents at Andover, who gave $30,000 some time since to erect the new library building at Andover Seminary, have now given $30,000 more, which fully completes the building and leaves about $20,000 as a fund for the support of the library. These donors, who had the privelege of naming the building, have called it Brechin Hall, in honor of their native town in Scotland.

—A singular accident lately happened on the Hudson river. About midnight one of the large smoke pipes of the steamer St. John fell over on the upper deck with an immense crash. The noise created some considerable alarm for a few moments, until the cause was discovered. The pipe was twisted from its position by a tornado which passed across the river.

— Mrs. John Templeton lost her life in Worcester, Friday afternoon. She was riding with her husband on the terrace on Main street, when the horse became frightened and backed against the railing, throwing Mrs. Templeton over the face of the terrace, a height of eighteen or twenty feet.

—"Daughter," said a fond mother, whom the oil speculation had made aristocratic, "has Mr. Brown proposed yet?" "Yes, ma," exclaimed the daughter, "he proposed that we go down this evening and get some raw oysters."

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style inexhaustibly chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish it, even to the living smile of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, AUGUST 8, 1866.

KENTUCKY.—A *Louisville* dispatch of Tuesday noon, says:—

Duvall beats Hobson 1000 in this city and about 800 in the county. Reports from the country indicate Duvall's majority in the State to be from 10,000 to 20,000.

Johnson, ex-secretary of Jeff. Davis, a candidate for County Clerk, was beaten in this city by 700 majority.

Duvall is the pro-rebel candidate:—At a convention of his partisans, the day before the election, cheers were given for Lee and Johnston, and the names of Grant and Sherman were hissed.

RECKLESS CONDUCT.—Learning that thirty-eight cases of cholera had occurred in one day in the penitentiary at Brooklyn, N. Y., the District attorney, without consulting the health authorities, ordered the release of about one hundred prisoners, who distributed themselves throughout the city, and caused a great panic among the people. The affair has also created much popular indignation, and the officer will probably be called to account for his worse than precipitancy.

LABOR AND LABORERS.—The Portland Argus complains that soldiers, residents of Portland, cannot get work, but that colored strangers from abroad are readily employed although the former offered to work at a less price. But the Star don't see it, and says:—"This seems to be a strange case and should be looked up. The labor question is getting to be a serious one. We were able to get a double-medium Head Centre to work three hours yesterday, and he only charged four dollars for it! Anybody having a Freedman's Bureau about them, will confer a favor by opening it near Market Square."

THE LITTLE BRIG VISION.—It is now said that the little brig Vision, which ostensibly started to cross the Atlantic a couple of years ago, and supposed to be lost, was really a blockade runner, and took a small but valuable cargo of quinine to the people of Charleston, and *that the vessel is now* used for fishing voyages and pleasure trips in Charleston harbor.

— "George the Third of England aimed to create a new party, faithful to himself, regarding his personal wishes, carrying out his policy, and dependent on his will."—Such is the record of the historian. It is probable that Andrew the Second will not be a whit more successful than George the Third. It is a singular fact that the leaders of the new party include the politicians who two years ago were in favor of recognizing the Southern Confederacy.

☞ A few days since a Miss Jacobs purchased first-class tickets for herself and mother from Savannah to New York. After the tickets were bought, the agent supposing her a white person, it was discovered by some of the passengers that there was colored blood in her veins. Complaint was made and they were both put off the boat in a very rough manner, and compelled to remain in that city. Mrs. Jacobs and daughter are almost white, quiet, unassuming and well educated. She was sent by the society of "Friends," to establish schools and asylums for the colored people, and has been a frequent visitor at the houses of such people as N. P. Willis. She has hosts of friends and plenty of money to back her, and the action of the steamship company will be apt to cost them dearly before the matter is ended.

OPINION IN LOUISIANA.—A letter received by the President from a very influential and wealthy citizen of Louisiana, after a general review of the late riots and the causes thereof, contains the following paragraph: "The present Constitution of this State has some features in it which we would be glad to be rid of, but we have formally and legally adopted this instrument as our organic law, and we will stand by it until another Constitution shall be adopted by our citizens in a legal and constitutional manner. Such is the universal sentiment of the substantial and respectable men of the State."

— The New Orleans Times calls Mr. Christian Roselius, whose name appears very prominent in the secession convention of 1861, "an original Union man," and the New York Times gives Col. Rozier, who was a member of the same body, the same appellation. Publishers of dictionaries will please make note.

— At a political barbecue at Hunteville, Mo., on Saturday week, the United States flag was ordered to be pulled down, and it was accordingly lowered and borne off in disgrace amidst yells of derision from the crowd. The flag belonged to the Ninth Missouri Militia.

— While a man and his wife were bathing at Long Branch, N. J., Wednesday of last week, their room at the hotel was robbed of $24,000 in U. S. bonds and diamond jewelry.

NEW HAMPSHIRE ITEMS.

—— Charles C. Smith, who escaped from the Concord, N. H., jail on the 11th of June, was recaptured on Saturday at Montague, Mass., and taken back to Concord. He made a desperate resistance.

—— As a wagon load of Shakers, including seven children, was coming down East Mountain from Lebanon, N. H., one day last week, the wagon broke and threw the whole party to the ground, instantly killing one of the children, and injuring another so that his life is despaired of.

—— On Saturday night, some robbers got into the house of Mr. Geo. Hutchins, in Concord, and escaped with a very small booty. They had ransacked considerably, and finally repaired to the bedroom occupied by Mr. and Mrs. Hutchins, where they set a rocking-chair in motion by taking a pair of pants from it and thus awoke the occupants. Mr. Hutchins quickly called out to an imaginary man "David" to bring him his revolver, and the robbers instantly fled.

—— A Massachusetts man writing from New Hampshire, says:—

From Lawrence we passed through Methuen to Salem. N. H. We were forcibly reminded of the fact that we had passed from the control of State Constabulary laws when an old farmer, whom we asked to show us where the State line ran, pointed to the boundary stone, and added "You can get something to drink at that house just beyond." We thanked him for the intelligence, but decided not to avail ourselves of what he doubtless deemed most useful information.

Though Salem is a village of but few inhabitants and fewer houses, we nevertheless saw an establishment combining within the same walls, a bowling alley, a billiard hall, and a drinking saloon, and concluded that it was somewhat "faster" than its staid and respectable namesake.

LIGHTNING is one of God's ministers for good, and yet it often transfers mortals in a moment from the seen to the unseen world. And often too, when life seems in the most imminent peril, it is spared, and the living witness gives good account of the event. We copy the following from the Morning Star:

Friday P. M., 27*th July, the lightning struck the dwelling of Rev.* J. Fullonton in *Raymond*. The ball or bolt of the electric fluid, it seems, first struck a tall majestic elm in front of the house; a part of it, one tall limb, plowing its way down through its tough bark to an upright scythe leaning against the tree, and through that into the ground; while another sheet of the lightning struck another limb over-banging the house, and scorching the leaves passed on the roof, and tearing off trimmings and clapboards, bestrewing them liberally over the front yard, in the road and on the wall beyond, passed into the front entry scattering its plastering around, thence into the parlor breaking up the facings of the first window, and smashing half a dozen panes of glass from the second story window. Near this window stood the sofa, and at this sat Mrs. Fullonton, sewing on some silk cloth—this the lightning scorched several holes in, then passed into her clothes, down upon the left leg, ript open the stocking and boot from top to toe, leaving the upper part of the foot badly scorched and blistered; ridling portions of the sofa, it passed into the cellar, cleft in two an upright post, scattering the cement over the celler, thence lost itself in the ground. The daughter, sitting near a window opposite her mother, was unharmed. Mrs. F., with the daughter, repaired to another room to bathe her foot, and when they returned, the before named sofa was all aflame, and the fire extinguished with difficulty. Mr. Fullonton saw the vivid sheet of lightning from his bayfield, and two or three times looked up to his barn to see if all was safe, but as it rained but little, kept on his work, until he heard the cry "Fire," at the point when the sofa was all in flames. To Mrs. Fullonton it was a wonderful and providential escape. If, escaping the lightning stroke, they had been rendered senseless as it sometimes occurs, the house would likely have been burned down. We have seen several instances of lightning stroke, the traces of this invisable agent, but never any where the ruin was so various, and the escape from death so wonderful.

— An Irishman and his family were riding lately in a street car in Pittsburg, Pa., and insisted on leaving the car without paying for the distance they had ridden because some negroes were allowed inside.—The conductor hustled them all off, landing the matron of the party in a mud puddle. A law suit for damages ensues.

— We presume there is no one who objects to the selection of those who have served their country in the field to fill offices for which they are qualified, but "my policy," which embraces this feature, is likely to encounter a serious difficulty, as several who fought the enemies of their country during the war and now hold office, do not propose to give their adhesion to the Philadelphia Convention. Will they be removed?

— Spencer W. Coe receives a salary of $30,000 in a New York dry goods house, which is believed to be the largest salary paid any individual in the country.

SUCCESSFUL SURGICAL OPERATION.—The Concord Monitor gives the following particulars of an interesting case of surgery in that city: At the battle of Gettysburg, in July, 1863, Sergt. Edmund Aiken of Co. A 5th N. H. regiment, raised by Maj. Sturtevant, while in the act of aiming his gun, was wounded in the left shoulder. The wound was examined by the surgeons and some cloth was removed, but the ball could not be found, and the arm eventually healed, but was drawn up at the elbow and perfectly stiff. Receiving an honorable discharge, he came home to Concord, and has since worked all he was able as a silver-plater, although his arm has given him much trouble. About a fortnight since the shoulder began to be painful and swollen as far as the elbow, and in a day or two pain became intense. He sought medical advice, and was directed to wait until the old scar had opened again, and that possibly the bullet might be removed. Last Friday the operation was performed by Dr. Crosby of Concord, who laid the arm open from the old wound to the elbow joint, where deep under the covering of cords and tendons, he found the *iron sight of Aiken's own gun*, which had been rusting and corroding in his arm for three years. It seemed almost certain that this slight circumstance saved his life, for the rebel bullet, doubtless aimed at his head, hit the sight, driving *that* into the shoulder, but glancing otherwise harmless. The iron, whith is deeply rusted, is about an inch in length and three-eighths wide, and was found about four inches below its point of entrance into the arm. Dr. Crosby expresses the belief that Aiken will now recover the use of his arm in a great measure.

☞ General Antonio Lopez do Santa Anna was arrested in New York on Friday, at the instance of Mr. L. M. Montgomery, who brought suit against him to recover $25,000 alleged damages for false imprisonment, slander, etc. The complaint grows out of recent proceedings of the Mexican General against the plaintiff, whom he charged with an *attempt* to swindle him, *by representing* to certain steamship agents that he (M.) was his (Santa Anna's) agent. Defendant furnished bail in $30,000. The General was just dressing for a dinner party when the summons was served upon him.

KENTUCKY. — Gen. John Ely, Chief Superintendent of the Freedmen's Bureau in Kentucky, is in Washington on an official visit. He reports that 95 per cent. of the Freedmen in Kentucky are self-supporting, and are employed at fair wages.—There is more land put in with crops this season than ever before. Wheat and hay are a fair average crop. For corn, hemp and tobacco, the prospects are for a very large yield. The active producers and wealthy land owners acknowledge that free labor is a success beyond their most sanguine expectations. A bitter prejudice exists against the freedmen and white loyalists, among many of the returned rebel soldiers, who style themselves "Regulators," and live by depredation and upon these people. The military authorities are prompt in arresting these marauders.

☞ The Boston Herald says a letter from the very highest authority, states that large numbers of the freedmen will on closing up their labors for this year, remove with their families to the homestead lands provided for them by the Government in the new bill. The more enterprising and trustworthy portion of the freedmen, the class most valuable to the planters, are among the most determined to go.

ONE WAY TO GET DELEGATES.—At the Johnson meeting in Lowell, Mass., last Saturday evening, about fifty persons assembled. Henry Emery, Chairman of the Democratic City Committee, called to order and was chosen Chairman. All who took part in the proceedings were Democrats. Seven or eight of the forty delegates have been Republicans, but it is known some of them will decline the honor. Several held offices under the U. S. government, and some of the managers of the meeting said they had not given consent to use their names, but they did not dare decline serving.

— The Lowell Courier is authorized by Messrs. Hapgood Wright, Abner W. Butler and Hon. S. A. Brown, severally chosen delegates from Lowell to the Johnson Convention at Faneuil Hall, to state that they decline acting, as they have no sympathy with the movement that meeting is designed to promote.

— The house of Henry Jewett, in Bolton, Mass., was struck by lightning on Friday last, and slightly shattered. Mr. Jewett's mother, about eighty years of age, had one shoe torn off, and was considerably burned by the current, but was not seriously injured.

— A company has been formed at Buffalo to light that city with natural gas obtained at the Getzville Wells, twelve miles distant. Prof. Hadly reports that 40,000 cubic feet of gas escape and are lost every twenty-four hours.

☞ "Procrastination is the thief of time." Too many allow themselves to go without proper nourishment, and before they know it have the dyspepsia in the worst way. Indigestion, unless speedily attended to, will certainly produce sickness and ill health. We know of no remedy equal to Coe's Dyspepsia Cure in such cases. PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other cases of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some bit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if left unrelieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers for which the same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

The Guide to Health and Beauty,
JUST PUBLISHED.
It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address, inclosing the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

☞ Another triumph for Portsmouth mechanics has been achieved by the yacht Alice, recently built in this city by Mr. John E. Townsend. Leaving Boston July 10, in command of Capt. A. H. Clark, she arrived at Isle of Wight, England, on the 29th, all well, as reported by the Atlantic Telegraph.

The Boston Commercial says:

This passage—nineteen days—is not often equalled by anything under canvas, and is highly complimentary, not only to the yacht (which attracted much attention here on the Fourth), but to the skillful seamanship of Capt. Clark, who has usually sailed in larger vessels and on longer voyages. When we saw the captain's friends shaking hands with him on his departure, we thought we detected in their eyes some misgivings as to the safety of the cruise, and we join in their happiness at finding them so speedily dispersed.

☞ Within a few days past, the plan of the School House in Hanover street has been essentially changed, and greatly for the better. It was proposed to build up the lower story four or five feet with brick; but suitable bricks were not to be had when wanted. And by the sound advice of a judicious builder, an entire new lower story of wood is built and covered, and the whole building is enlarged by adding about 15 feet to the north end of it. Good separate entrances are provided; and when the building shall be finished, it will contain two fine school rooms, and the exterior appearance will be very much improved.

☞ Mr. Charles Davis, of the firm of Davis Brothers, of this city, has been engaged for some time in taking stereoscopic views at Smith's Isles (Isles of Shoals), and in a few days will be prepared to furnish those who desire them with photographs of all the most interesting points of the different islands. He is the pioneer photographer of those isles, and has succeeded in securing some very fine views. The frowning, rugged rocks are really grand in some of the pictures we have inspected.

Reported for the Chronicle.

POLICE COURT, Aug. 7.—Benjamin Jeffers and Michael O'Connor were found in a state of inebriety, and respectively fined $6.86.

The chap who assumed the role of reporter for yesterday's paper and brought forth the wretched doggerel at the close of the report, is not at all responsible for his acts, having been lately married. We learn that his few friends have presented him with a wreath of immortelles, and crowned the wretch poet laureate of Ward 3.

☞ So great is the demand for the goods manufactured by the Kearsarge Mills, of this city, that it is the intention of the directors, we are informed, to make an extensive addition to the large buildings.

☞ People complain of trade being dull almost everywhere, but a driving business is being done on almost all the trotting parks in the country.

☞ We have no fear for the cotton supply in the future, since we have been credibly informed that a young lady has succeeded in raising cotton in a garden in this city.

☞ The Great American Paint Co., who advertised in our columns some weeks since, turns out to be a swindle. A gentleman of this city has proved it to be a humbug, and the Agriculturist pronounces it to be such.

☞ The Freewill Baptist National Anniversaries are to be held the first week in October, at Lawrence, Mass.

☞ We learn from the Rochester Courier that the Fall Term of Austin Academy will commence August 28th, under an excellent board of teachers. Tuition from $3.50 to $5; board $2.50. Any communication directed to George C. Peavey, Chairman of the Board of Trustees, Centre Strafford, N. H., will be promptly attended to.

ADMIRAL FARRAGUT.—When Admiral Farragut was ten years of age, his father, then an officer of rank in the U. S. Navy, and high in the confidence of the government, said in his son's hearing, that when he (the boy) was old enough to make a compact and keep it, he had a bargain to offer him. The son rose up and asked his father to state the terms of the compact. The Admiral said: "The proposal that I intend to make is this: If you will not smoke nor chew tobacco, drink intoxicating drinks nor strong wines, till you are 21 years of age, I will then give you $1000." "I am old enough to make that bargain now," said young Farragut, "I will accept the offer." The bargain was closed. And on the attainment of young Farragut's majority, the cash was handed over.

— We hear less about the product of gold in California than formerly, but the fact that in June last nearly seven millions of dollars of treasure was reported on mercantile account indicates that the supply has not given out. The amount of coin per head in California is known to be larger than in any other part of the world.

RETICENCE.—Comprehensive talkers are apt to be tiresome when we are not athirst for information; but, to be quite fair, we must admit that superior reticence is a good deal due to lack of matter. Speech is often barren; but silence also does not necessarily brood over a full nest. Your stiff fowl, blinking at you without any remark, may all the while be setting on one addled egg; and when it takes to cackling, will have nothing to announce but that addled delusion.—*Felix Holt, the Radical.*

—The Michigan Central Railroad company have established at their freight depot at Detroit a bathing room for the benefit of emigrants arriving in that city.

—Warner, a wholesale country dealer in counterfeit currency, has been arrested at his residence in Lansingburg, N. Y. Several bales of the bogus were found in the house.

— It is said that Senator Cole, of California, refuses to be a delegate to the Doublitle Convention. Gen. Devens of Massachusetts also declares off from the whole thing. So does Wm. F. Tyler of Boston.

— It is reported that only one Democratic paper in West Virginia is edited by a man that can vote. The rest are edited by returned rebels, who are disfranchised, and men who have recently come into the State.

—A Berkshire, N. Y., gunsmith has been using a chopping block which he sawed from a bass-wood tree last December. Some weeks ago a sprout grew from it which has since enlarged to the proportions of a two foot twig with many leaves upon it.

— All efforts to rival the J. Monroe Taylor Gold Medal Soap have signally failed; we do not hesitate to pronounce it the cheapest and best Soap in existance, it will take out grease spots, or paint, it will make nice soft soap, and make clothes of all grades look better after washing than any other article of the kind in the market; it will not injure the finest fabric. Try it, their Depot is at 112 Liberty Street, New York. Most of the grocers sell it 14.

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The Hot-e is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old Trees and a thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

☞ The Salem Gazette says "last week an unusual sight was witnessed on Essex street. It was two women, *neatly dressed*, seated on two separate carts filled with coal, each holding an umbrella in one hand to shield from the sun's rays, while with the other she held the reins, both driving on as unconcernedly as any one could possibly be under the circumstances, although the rare sight occasioned considerable gazing from the passers by. Whether it was a practical demonstration of "women's rights" or not, we have not been informed; but if, as we suspect, it was a well-meant endeavor of two ladies to help themselves, in these days when help from others costs so much, we certainly think it was worthy of the most respectful notice."

DOG CHEAP.—The following occurrence is described by the Boston Journal as being one of the most amusing scenes ever noticed: A gentleman in New Haven recently erected on Chapel street, near the colleges, a large and beautiful residence, and adorned the grounds with more than ordinary taste and expense. Among other ornaments, not far from the street, he placed a large cast iron statue of a dog, whose belligerent appearance and defiant attitude made him "look large as life and twice as ugly." For weeks afterward the "little dogs and all," on passing by the house, never failed to give the statue a complimentary bark and growl, which, however, never disturbed its equanimity. But one day a big old Towser from the country was following his master's market wagon into town, and happened to spy the hostile form of the cast-iron foe. A preliminary growl and bow-wow produced no effect. Surly and defiant his enemy continued to gaze at him. Canine nature could stand it no longer. One leap over the fence brought him into the yard and two or three more carried him to his mute antagonist. Quicker than thought he attempted to fasten his teeth on the cast-iron chops of the statue, but the next moment gave up the contest. The last that was seen of that dog he was sneaking out of the yard with his tail between his legs, the most completely sold specimen of canine society ever witnessed.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret habit, which shortly ruins the body and mind, unfitting the unfortunate individual for business or society. LOCUSTS.—The Holy Land is again visited this year with a plague of locusts. A letter writer says: "The valley of Urtas was first attacked, and has now become a desolate wilderness. The olive-yards of Bethlehem, Beitjalah and Jerusalem were next covered until the trees became a dull red color. They are now barked white. But yesterday (June 1) will be a day long remembered. From early morning till near sunset the locusts passed over the city in countless hosts, as though all the swarms in the world were let loose, and the whirl of their wings was as the sound of chariots. At times they appeared in the air like some great snowdrift, obscuring the sun and casting a shadow upon the earth. Men stood in the streets and looked up, and their faces 'gathered blackness.' At intervals those which were tired or hungry descended on the little gardens in the city, and in an incredibly short time all that was green disappeared. They ran up the walls, they sought out every blade of grass or weed growing between the stones and after eating to satiety, they gathered in their ranks along the ground or on the tops of the houses. It is no marvel that as Pharaoh looked at them he called them 'this death.' To-day (June 2) the locusts still continue their work of destruction. One locust has been found near Bethlehem measuring more than five inches in length. It is covered with a hard shell, and has a tail like a scorpion."

JUST FOUND IT OUT.—As we were travelling a few days ago, says the Greenville (Alabama) Advocate, between Texas and Pollard, we came across something in the shape of a man. He had a cap of coonskin, shoes of raw hide, his coat and pants may have been of Confederate grey, but the rags were so slimy that it was impossible to identify them. He had an old canteen and haversack. On inquiry we found out that he was a deserter from the Confederate army, and had been laying in the Titi Swamps of Florida, and had just heard that the war was over, and was hunting up a Federal officer to get paroled.

GARIBALDI'S BOYS.—The lady abbess of a convent at Acquaviva, where a body of Garibaldians was lately quartered, has addressed a letter to Col. Nicotera, thanking him and the men under his orders for their exemplary conduct during their stay in the convent. "The nuns," she adds, "were all greatly edified at their conduct; the night passed in the greatest quiet, and not a fly was to be heard. It looked not like a soldiers' quarters, but like the lodgings of men who sleep in the peace of the Lord."

— In the late campaign in Louisiana, a party of Confederates marching through a swamp were ordered to form two deep. A corporal immediately exclaimed, "I'm too deep already; I am up to the middle."

— A Texas paper says: "Of all tomfoolery for sensible men and women to engage in, commend us to a tournament, in which sorry knights, upon more sorrowful but well-gingered plow-horses, punch at teething rings with elongated broomsticks.—'Suitable armor' made of paper muslin must be worn lest the saddle should gall and cause the rider to limp when the 'knight with a patch on his trowsers' dismounts to lay the crown before the feet of his peerless Dulcinea. Oh, it is rich."

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHIBBROOKE,"
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. Aunt Madge and her proverbs would never be forgotten by the reader. "Hope," the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for "Shirbrooke" an immense sale."
The above sent free by mail on receipt of price.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, AUGUST 9, 1866.

☞ The Boston Herald's Washington correspondent, Aug. 6, says:

It was telegraphed far and wide that Vallandigham had been here and obtained an interview with the President and discussed the Philadelphia Convention. Notwithstanding that that this has been denied again and again, the bogus story is still kept afloat. There is not a word of truth in the statement that the President gave Mr. V. an interview.

[We do not see why. If Tom Florence may come in, surely Mr. V. need not stay out.]

Again: the other day Mrs. Jacob Thompson came on here to see the President to get permission for her husband to return to the United States, but she failed in her mission. Correspondents, however, made haste to telegraph that Mrs. T. had obtained an interview, and on informing the President that her husband endorsed his policy, an order was issued for Jacob Thompson to return to the United States. This story is just as false as the other. Another of these falsehoods is to make it appear that the financial men of the country are endeavoring to secure the removal of Secretary McCulloch.

☞ In Boston, it is reported that a colored man named John T. Hazely, a licensed preacher, has been about the city during the past few days and obtained $500 by representing that he wanted the money to rebuild the Abyssinian Congregational Church in Portland, which he falsely stated was destroyed by the conflagration in that city on the 4th ult. An officer of the church pronounces Hazely a swindler. He is not to be found.

☞ Concord is a hard spot for news in dog days. The fact that a large amount of unissued bonds were destroyed at the State House, as worthless paper, has been specially telegraphed to the Boston press, as has been the number of passenger cars that travel over a certain railroad, which takes this method of advertising.

☞ Among the resolutions of a late Union Convention in Illinois we find the following:

Resolved, That "treason must be made odious," but that it cannot be made odious by giving rebels seats in Congress, nor by feeding Jefferson Davis on poached eggs and fried oysters.

☞ A man named Alderman shot his brother-in-law named Bartlett at Hendesburg, Orleans county, N. Y., Monday night, during a quarrel. Bartlett will probably die. The prisoner, while in custody of the police, on a train, Tuesday morning, jumped from a car window, and was killed.

☞ The Portland Argus appears in new type, is enlarged to eight columns on a page, is printed in Portland as formerly, and much improved in appearance.

☞ Hon. Daniel Clark, has accepted the office of U. S. District Judge, and been qualified by taking the oath of office.

TERRIBLE CASE OF SUFFERING.—The Portland Relief Committee tells of a man who two or three days ago applied for aid: he was requested to answer several questions like the following: "Did you lose your house and furniture by the fire?" "No." "What grounds, then, do you ask aid upon?" "Well, a man owed me a note. That man has lost his property, and I had to settle with him at a discount and I thought you might make it up to me!"

CAN ANY ONE TELL?—Can any one tell how men who absolutely cannot pay small bills, can always find money enough to buy liquor and treat when happening among friends?

Can any one tell how young men who dodge washerwomen, and who are always behind with their landlord, can play billiards night and day, and are always ready for a game of "poker" or "seven up?"

Can any one tell how men live and support their families who have no income and don't work, while others who are industrious and constantly employed almost starve?

Can any one tell how it is that a man who is too poor to pay for a weekly newspaper can pay ten cents a piece for cigars, to say nothing about drinks and tobacco?

No snow falls lighter than the snow of age; none heavier, for it never melts.

— The Ninth District Union Association of New York City disapprove of the course of their Representative in Congress, Hon. Henry J. Raymond, and recommend due diligence to secure the election of a more satisfactory successor.

— Gen. Grant telegraphs to the Governor of Kansas that he has ordered a regiment of colored troops from Fort Smith for the protection of the Western border of that State. Troops from other quarters are en route to the West. A company of cavalry scouts has been ordered to the Salomon.

— In New York, on Saturday evening, a policeman started to arrest two boys who were fighting, when one of them ran away and the other rolled himself off the pier into the river. Boy No. 2 was rescued from drowning by the officer, and said he was so drunk that he did not know what he was about when he took that singular mode to escape. Both boys had been drinking whiskey.

NEW HAMPSHIRE ITEMS.

—— A fire at Goffstown Centre, Tuesday noon, destroyed Cunningham's Stocking Mill. Loss $16,000, insured $10,000. To be rebuilt promptly. Also burnt a carriage shop and blacksmith's shop: loss $1200.

—— The yearly meeting in this State of Freewill Baptists, *Resolved*, that it is the duty of ministers and people to give the same attention to singing as to prayer; and the duty of choirs to give close attention to all the instructions of the sanctuary.

—— A gentleman from Salem, Mass., travelling in New Hampshire, gives to the Salem Gazette a very good account of the Canterbury Shakers, from which we extract an item or two about a Shaker school house. Shaker children, &c.

Their school house though small is in a state of the most perfect neatness and repair. It is fitted with the most modern and convenient apparatus, and it was the unanimous opinion of all who saw it that its general appointments were the finest we had ever seen. The most curious sight we ever saw in the settlement, was a little boy with his hair cut short in front and falling in long locks behind, and surmounted by a hat whose dimensions exceeded even those of our own, he bore no inconsiderable resemblance to a mushroom. His "yeas" and "nays" sounded strangely from such young lips.

There are a large number of children in the settlement, all adopted by the Society from the world without. When they become of age the choice between remaining and withdrawing is offered them. Should they choose the former, whatever property they then possess is made over to the Society, of which they become bonafide members.

The religious services of the sect consist of a peculiar dancing kind of shuffle, accompanied with strange and inharmonious singing. How men and women so kind and courteous, and so well stocked, as it would appear, with worldly wisdom, could fall into so strange a religious delusion was to us an inexplicable problem.

☞ At Manchester, Tuesday forenoon, a meeting of the Johnson men was held under the auspices of the Johnson Union Club, at the Manchester House. About thirty gentlemen were present from different parts of the State, including seven of the delegates chosen. Micajah C. Burleigh of Somersworth was Chairman, and E. S. Cutler of Manchester Secretary. For Philadelphia delegates at large from New Hampshire, there were chosen M. C. Burleigh of Somersworth, Caleb B. Bowers of of Claremont, Mr. Cutter of Manchester and Ephraim Hutchins of Concord. Those chosen for the First Congressional District were James M. Lovering of Exeter and William N. Blair of Laconia; for the Second District, Henry P. Rolfe of Concord and Hon. John Hosley, Mayor of Manchester; for the Third District, Charles J. Amidon of Hinsdale and General Hiram Berdan of Lebanon. It was voted to accept the call of the Philadelphia Convention as a basis of action. The delegates were also empowered to call a mass meeting of Johnson supporters in New Hampshire immediately after the Philadelphia Convention.

☞ At the late fire in Harris' Woolen Mill at Woonsocket. R. I, about thirty operatives were injured more or less, three or four very seriously. All might have got out safely but for the dense smoke, which created a panic, and by reason of the fright and pressure many leaped from the windows; others let themselves down on pieces of cloth, falling perhaps a part of the distance. One man had a leg broken. One girl had her back and leg broken, reported to have died. Another girl had her back broken. A woman jumped from the fourth story and her chin came in contact with a picket fence. Her injuries, however, are reported comparatively slight. One man jumped from the fifth story, but immediately got up and walked off as if nothing had happened. A girl was found in the mill after the fire has been extinguished, in a nearly suffocated condition, but it is thought she will recover.

WOMEN OF THE WAR: Their Heroism and Self-Sacrifice.—We have received advanced sheets of the above publication, which will soon be issued in elegant style, and sold by subscription only. The author of the present volume, Mr. Frank Moore, having had much previous experience as a war writer, (his "Rebellion Record" being a standard work of reference) is amply capable of treating this almost unknown portion of the history of the late conflict. The "Women of the War," illustrated in the highest style of art, and making a volume of 600 octavo pages, will be issued the latter part of this month by S. S. Scranton & Co., 126 Asylum street, Hartford. Agents wanted in every county, city and township in the United States.

☞ On Tuesday night, at Saratoga, N. Y., a fire broke out at 11 o'clock in a wooden building next the Columbian Hotel, destroying it. The fire then caught in the Columbian Hotel, which was also destroyed.

☞ The Kerosene Oil Manufactory of W. J. Parsons & Co., East Boston, was burnt Tuesday night, supposed by an incendiary. Loss $25,000.

☞ The N. H. Patriot reads the second Andrew a severe lecture for appointing Senator Clark District Judge.

☞ On Tuesday morning, at Plymouth, Mass. the large brick factory building connected with the Plymouth Cordage Company's Works took fire about 7 o'clock, and was, with the machinery and stock, totally destroyed. The fire was confined to the building where it originated, and the splendid engine of 150 horse power escaped uninjured.

When the fire broke out the engine was started, throwing two streams on the flames, and continued running until the gauge indicated but two pounds of steam. The concern is one of the largest of the kind in the country, and it is fortunate that a general conflagration of the main works, warehouses and other factories was prevented. The motive power having been saved, the company will not be obliged to suspend operations entirely, although seriously crippled for the present. The loss is estimated at $50,000; two-thirds covered by insurance. Friction is supposed to have been the cause of the fire.

MAINE DEMOCRATIC STATE CONVENTION was held in Portland, Aug. 7. It was quite numerous, but not quite so large as was predicted by some enthusiasts. 567 votes were given for Governor, of which Eben F. Pillsbury had 401, and is nominated. Mr. Bion Bradbury made a speech, and Virgil Delphini Paris made a motion. In the Resolutions Congress was denounced, thanks were given to Pres. Johnson, and the Philadelphia Convention approved.—Delegates were elected to that body,—ex-President Woods, late of Bowdoin College being one of them.

FROM LONDON, August 5, by the cable. Before the armistice had been extended to Bavaria, the Prussian army had moved rapidly and secured a good footing. They are forcing a paper currency upon the people. By the agreement the Prussians are to occupy Wurzburg, but the Bavarians are to retain the Fortress of Mentz. The Baden troops left it August 4, and the Wurtemburg troops will leave it on the 8th inst.

The river Rhine is re-opened.

During the last three days the Austrians have been pouring into the Tyrol via Bavaria to the number of about forty thousand.

The Italian Navy is to be reorganized.

A new Italian loan of three hundred and fifty million lira has been ordered since the signing of the truce.

Part of the Swiss troops which were guarding the Italian border have been disbanded.

The cholera is increasing in England.

☞ The returns from the northern part of the interior of Kentucky may possibly reduce Judge Duvall's present apparent majority, nevertheless he has carried the State by a heavy vote. It was difficult to expect anything else. The Union men of Kentucky, with a few sterling exceptions like Mr. McKee of the House, have been too anxious about being committed to "Thad. Stevens and Charles Sumner," and have thus tried to steer between a substantial, practical Unionism and the pro-rebel Democracy. Gen. Hobson, their candidate for Clerk of the Court of Appeals, endeavored to stand on this uncertain ground, while he figured as a warm indorser of President Johnson's policy. The effect was, very naturally, defeat. "Between two stools we come to the ground."

AN OVERHAULING.—The New York papers give amusing accounts of a raid made by Custom House officers on Monday, on the baggage of passengers by the European steamer Baltic, in search of smuggled goods. One statement says that the number of ladies who didn't know they must not wrap themselves up in webs of silk in this hot climate was astonishing. The ladies attached to the Custom House committee of inquiry unraveled a tremendous amount of ignorance and silk. Moire antiques, watered silks, Irish poplins, mousseline-de-laines, delicate bareges, and many other beautiful things in that way, with new names, were taken from the passengers, as unwholesome things to use. The ladies, however, were not the only smugglers; there were gentlemen whose passion for jewelry had had a sudden burst just before they came away; others who must have got married to watchmakers' daughters, and taken their downes in trade. Others with meerschaums in quantity sufficient for the necessities of a Dutch colony out of pipes for a century, and others again with nicely assorted portmanteaus, whose contents became much less confusing in variety by the time the officers got through with them.—Many thousands of dollars had been invested in the articles so relentlessly carried away by the customs officers, whose lack of all sympathy with the losers was a source of much mortification to those deprived of their valuables.

— Gold Medal Saleratus is making a great sensation among consumers, as they find their health depends upon its use. It will strengthen weak stomachs, cure dyspepsia, save one-half in the quantity of shortening, make one-eighth more bread, Cakes or Biscuit from the barrel of flour, and withal is perfectly healthy. Try it. The Grocers and Druggists sell it. Depot 112 Liberty street, New York. 40

☞ "Procrastination is the thief of time." Too many allow themselves to go without proper nourishment, and before they know it have the dyspepsia in the worst way. Indigestion, unless speedily attended to, will certainly produce sickness and ill health. We know of no remedy equal to Coe's Dyspepsia Cure in such cases. It enables the patient to take hearty food, the patient of health, stops distress after eating as soon as you take it, and is a perfect regulator of the stomach and bowels. a6

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many med cinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and the wonderful cures among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

Reported for the Chronicle.

POLICE COURT, August 8.—The agreeable change in the weather has caused the Judge's matinees to be more fully attended. The turn-out this morning was quite a brilliant affair. First came three guests, who since the burning of the Saratoga hotels have abjured Congress water and taken to fire water and Congress Bourbon. When taken by the ushers, Messrs. Johnson, Pickering & Co., they were clothed in an intemperate habit, not to say drunk. But when the party broke up they were lighter of pocket, if not of heart, each and severally being required to contribute $6.86 to the public funds as a penalty for their breach of the statute. As a faithful reporter we chronicle the names of these distinguished guests in the most approved manner: A—o C——y, H——y H—m, and J—h H——n.

Charles Roberts, arraigned on three counts, was discharged on one; found guilty of fast driving and injuring a child thereby, for which he was fined $7, and costs $3 86; and on the third charge was bound over to the 24th prox., in the sum of $50 on his own recognizance.

☞ Almost an alarm of fire was caused by the ringing of the Temple bell on Wednesday forenoon. The bell on Christian Shore re-echoed the tintinnabulation from the Temple, "some fire cried," and one or two engines were dragged from their houses with the customary promptitude of the department. T'was all a monkey-shine for dog-days, and proved a good advertisement for the troupe of dogs and monkeys performing at the Temple.

☞ Secretary McCulloch with his family arrived here on Wednesday morning, in U. S. steam revenue cutter Northerner, Capt. McGowan, from Washington. He was received by Admiral Bailey, W. H. Y. Hackett, and others. The Secretary will make a visit of a few days at Kennebunk, and then return to his duties at the head of the national finances, by the Northerner, from this port.

☞ We regret to learn that Mr. John H. Wells, of this city, is lying seriously ill at Wells Beach.

☞ The Portland Star gives the following income returns in some of our neighboring towns:

Kittery.—Francis Bacon $765, Theodorus Bailey 21446, Sarah H Bailey 1268, Joseph Cox 630, N. B. Harrison 700, Albert A. Hayes 830, John Neal 1491, Ephraim Otis 814, A. J. Penhallow 1165

Eliot.—Sylvester Bartlett 1604.

Appledore Island.—Cedric Laighton 800, Oscar Laighton 800, Thos. B. Laighton 1000.

York.—Jas. Bragdon, jr., 779, John McIntire 1406, Edward S Marshal 1056, Nath'l G. Marshall 1164, Samuel Sedgley 954.

☞ Tony Pastor's Troupe give their first concert this evening, offering new attractions to the lovers of "cork opera," and lots of fun generally. Go, and hear.

☞ An excursion train of eleven cars from Manchester to Portland, passed through this city on Wednesday.

☞ The buildings of Mr. Samuel Rand, recently burned in Rye, which we were informed to have been well insured, had but $950 insured thereon.

☞ The Massachusetts Johnson Convention met in Faneuil Hall, Boston, Wednesday noon, Mr. Saltonstall in the chair. Mr. Chas. L. Woodbury was Chairman of the Committee on Resolutions. Messrs. John L. Swift and Chas. Wright were the chief attendants from the Republican side; most of the delegates have belonged to the Democratic party. Mr. Saltonstall made a speech, in which he eulogized Pres. Johnson.

AT CHICAGO, Friday night, Aug. 3, there was a severe hail-storm, which left a track a mile wide from that city to the Mississippi river, cutting down oats, corn, &c.

FORESIGHT.—A young lady in San Antonio thinks of going to California to get married, for the reason that she has been told that in that country the men folks "rock the cradle." Her head's right.

☞ The Atlantic Cable—the longest yet laid, was laid in 1866, and it is 1866 miles in length; that from Malta to Alexandria, a distance of 1535 miles, was laid in 1861; and the line in the Persian Gulf, laid in 1863, is 1450 miles long.

GOLD, Wednesday, 148 1-2.

— Don't always turn back because there's danger ahead; there may be danger in the rear.

— Gen. M. L. Smith, who was Chief Engineer of the rebel army of Northern Virginia during the war, died in Georgia last week.

— Deacon David Smead, for many years a prominent citizen of Greenfield, was recently killed at Madison, O., by an infuriated bull. He was 75 years of age.

— The Raleigh (N. C.) Standard says that the portrait of Washington, which hung in the main room of the College at Trinity, in that State, was removed a few days ago, and a picture of Jeff. Davis put in its place.

SUCCESSFUL PLANTATION MANAGEMENT.—A planter in Florida thus writes to his friends in the North: "I am glad to say that the weeds and grass are fast disappearing. Our Southern neighbors have been saying that the Yankees were caught in grass, and would lose half, if not the whole, of the crop, but we have shown them a trick worth two of that. We scoured the country for fifty miles, and picked up all the men we found running around loose, hired and set them to work. For the past few weeks we have had from 60 to 100 extra day hands, pay them one dollar a day and rations; it's expensive, but we are bound not to be beat. You know that I expressed fears that the negroes would not work after they had earned a little money. They continue to work faithfully and earnestly, can perceive no difference from to day and when they commenced in January. On the Fourth we gave all hands a holiday and a grand dinner; told them to invite all their friends and the colored folks in the highways and byways. More than 900 sat down to dinner—band of music from town, ice, figs, candy, &c., thirteen loaves of wedding cake, roasted two whole oxen, twelve pigs, besides chickens, &c. Thirty-five couples were married, colored folks who had been living together as man and wife. One couple were eighty years old. Had the Star Spangled Banner floating in front of the house. Everything passed off pleasantly; each one had enough to eat and to drink, and then they danced to their heart's content. In fact it was a complete success in every respect. It cost us over $1000. We think it has done more than that amount of good. Our school progresses finely; the ages of the pupils vary from four to fifty; the able hands attending night school; all are very eager to learn."

RATTLESNAKE CHARMING TURKEYS.—A very strange and novel occurrence took place on the Sinnemahoning, near Wista, Pa., a short time since, yet its truthfulness can be vouched for by Mr. R. W. McClelland and others in that vicinity, who were eye-witnesses.

The attention of a resident of that place (Mr. McClelland) was attracted to a yard in the rear of his house, where a large flock of turkeys were congregating, uttering wild and discordant cries, and fluttering in the greatest consternation. On approaching he observed a huge rattlesnake, coiled up, in the act of charming a lordly gobbler of the flock, who was gliding swiftly in a circuit with eyes riveted on the glassy orbits of his captor, and gradually approaching its venomous jaws. Mr. McClelland quickly dispatched the bold intruder, and the turkey was set at liberty; but, strange to record, with its eyes so singularly transfixed that it was unable to move ahead in a direct line, and as it retired from its vanquished foe, moved off obliquely with a shambling gait. At dusk of the same day a snake, qually as large as the one destroyed came into the same man's door yard, and began calling for his absent mate by rattling loudly. It was summarily disposed of, and when measured was ascertained to be four feet in length, with a tail studded with thirteen rattles.—*Bradford (Pa.) Reporter.*

— In the State of Ohio there are ninety-seven Episcopal parishes and one hundred Episcopal clergymen. Twenty of the former are without services. The total number of communicants is seven thousand two hundred and seventy-two.

— A tornado near Kankakee, Ill., two weeks since, destroyed several barns and other outbuildings, some large fields of grain, several miles of fencing, groves of trees, &c. One house was taken up bodily and borne a distance of eight rods, and then set down again "in good order," not a person hurt, nor a single piece of crockery nor anything else displaced.

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the spacious cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced lawn, fine old trees and thriftly shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

GERMAN INDUSTRY.—Soon after the close of the war between the United States and Mexico, a colony of German immigrants settled in Middle Texas. The originators of the enterprise believed white labor was both possible and practicable in the latitude of the Gulf States, and upon that theory conducted the experiment.—Each settler owned and worked the soil, in small lots, as is the custom in Europe and the Northern States. The pioneers succeeded so well that other colonies were induced to follow and settle in the same neighborhood. The experiment established that cotton could be successfully cultivated on small farms, owned and worked by white men, and that the climate is not inimical to the growth and development of an industrious, hardy laboring population. In the midst of this settlement there has been built, on the Guadalcupe River, a thriving, wealthy, inland city of over 2,000 inhabitants.

A QUESTIONER QUESTIONED.—A few days since one of the newly fledged friends of the President approached an office holder in a Massachusetts city with the inquiry: "Do you support the President?" "Certainly," replied the office-holder, "I not only support him, but voted for him, did you?" The new convert had no more questions to ask.—*Boston Journal.*

— "Bob," said a young fellow at a fancy fair, "you are missing all the sights on this side." "Never mind, Bill," retorted Bob, "I'm sighting all the misses on the other."

—Muffington asked the other day what variety of rose might be found on a battlefield. We suggested rows of slain? That wasn't it. Arose and fought again? No. We gave it up. "*Heroes*" said Muffington.

— The Paris correspondent of the Globe says: *A silver leg*, on a new model, is being made here for the Prince of Hohenzollern, who was wounded at Sadowa, and suffered amputation. The prince will still be not so well appointed as Miss Kilmansegg.

ALL GONE BUT HONOR.—An amusing incident occurred in one of the clothing stores upon Pennsylvania Avenue, Washington. A lean, lank, long legged, long haired countryman, with tight and ragged butternut pants, and a greasy gray coat, which was very small in the waist and short in the tail, all partially shaded by a wide rimmed, round topped white hat, through which a faded lock of white hair protruded, entered the store and delivered himself as follows: "Mr. Tailor, can you spare me a pair of old pants? I am a Virginian gentleman, sir. We fought bravely for our rights for five years, and lost everything but our honor." This he said with a majestic bow and a wave of the hand. The tailor could find no pants, but discovered an old coat which he gave to the man. As soon as the Virginian had left, a German journeyman who had watched him and heard history with great gravity, burst into a hearty laugh, and remarked: "Vell, it ish vell he didn't lose his honor too, so dat he has something left to commence de vold mit."

CAUGHT IN HIS OWN TRAP.—One of those wooden-legged hyenas known as tenement-house landlords, was overhauled by Nemesis, the other day, while on a visit to one of his human hives in Jackson street, bent on distraining a poor creature for a month's rent, past due. The property in question is in a most loathsome condition, and has been all summer a standing invitation to cholera. While engaged in investigating the probabilities of success in collecting rents, this grinder of the faces of the poor was suddenly overcome by the noisome stench of his own house, and, without being able to get from the premises, was compelled to succumb to an attack of the cholera in its worst form. What a practical commentary on the avarice which had been content to force others to live in a house which it was death for the owner to pass an hour in visiting. And yet we have such houses by the thousand and such owners by the hundred.—*New York Letter.*

PRINTING AMONG THE ROMANS.—Disraeli believes, and brings up a mass of evidence to support him, that the art of printing was known to the Romans, but that they rejected it as unsuited to their civilization, and that the Emperors were bitterly opposed to it, as in it they recognized a powerful enemy to their tyranny. They did, however, make use of it on a small scale. The Emperor Justinian had a stamp, on which were engraved or carved the letters of his name, and he made constant use of this for signing documents. Theodoric did the same. The memorable letters with which the Roman potters stamped their wares were similar to those used by the bookbinders of the present day for lettering, &c. The Romans were also perfectly familiar with printing ink, and their refusal to make use of the printing press must be attributed either to the opposition of the Emperors or the popular belief that it was not suited to such high civilization.

MEAN PEOPLE—The man who kicks people when they are down, the subscribers who neglect to pay for their papers, and those who won't subscribe.

— The trust in God which leads to neglect action is not trust in God; it is foolish and criminal indolence.—*President Hill.*

— The once famous Delia Webster lives in Kentucky, just opposite the city of Madison, Ind. Her troubles seem to have recommenced. On Saturday night, 28th, an assault was made upon her house—shots fired and stones thrown. Nichols, overseer of Miss Webster's estate, was dangerously wounded. A gold watch and other valuables were stolen. Miss W. has been ordered by the outlaws to leave the State.

Portsmouth N. H.

FRIDAY, AUGUST 10, 1866.

MR. SALTONSTALL, who presided over the Democratic Johnson Convention at Faneuil Hall, Boston, made a speech in which he praised President Johnson very highly, and then uttered the following remarkable sentence, as reported in the Boston Journal, one of the richest things of the season:—

But gentlemen, to go on and bring these few remarks to a close, Congress, birds of ill omen, gathered together. (Laughter and applause.) These harpies, these vultures, waited for the lion and the tiger to pull down the game, and then flew up to seize the prey. (Applause.) They waited for you, brave sons of Massachusetts, to fight our battles, to pour out *your blood*, and then slip in and deprive you of the fruit of *your victories*, and prevent you from boasting that you have restored your country forever. (Applause.)

Well might that audience be electrified, and made to applaud, when informed that they have fought battles to put down the rebellion, shed their blood, and won victories like "lions and tigers"—and then the radical "vultures and harpies" flew to eat up—the rebels? or the rebellion? or what?

WASHINGTON ITEMS.—A Washington dispatch says, "the Southern delegates to the Philadelphia Convention who are congregated, protest against Vallandigham's threatened participation in the proceedings to take place on the 14th inst. The Southerners say Vallandigham has his own personal notoriety and aggrandizement in view and cares nothing for the harmony of the Convention."

How can they know his motives? He has certainly been one of the most active-consistent copperheads in the country—and has suffered greatly on this account. No man can have a better claim to be there than he.

General Grant has requested the Secretary of War to furnish for publication all the dispatches of Gen. Sheridan concerning the New Orleans riot, so as to place Gen. Sheridan right before the country.

Generals Steadman and Fullerton laid their final report on the investigation of the Freedmen's Bureau before the President to-day. It is an elaborate document, and shows up many of the evils of the system.

Our Consul at Havana states that a royal decree has been recently issued, allowing vessels of foreign build under 100 tons to be placed under the Spanish flag, provided they are used exclusively in the coasting trade and are owned wholly by Spanish subjects.

A number of foreign bankers and other Wall street firms understood to be "short" of gold have addressed a memorial to the Secretary of the Treasury, calling upon him to sell some of the coin in the Treasury vaults, in order that the market may be rendered more pliant to their speculations for a fall.

☞ Frankness is commendable, but it sometimes causes men to blurt out unpleasant truths. Thus a newspaper published at Jackson, in Mississippi, and which has always been on the rebel side, rejoices over the evidence which it has, or think it has, that the President's "policy" will triumph, and will lead to the downfall "of the unprincipled and despotic power which has ruled this country for the last five years,"—that is, the downfall of the party which brought about the downfall of the rebels! What strange company the President has got into,—he being now hand-in-glove with the very men who but two years ago longed to be his bangmen!

THE QUEEN'S OPINION OF VERY LOW DRESSES.—An English paper says, A lady's dress must be very low nowadays, to call for any particular observation. As court dresses are increasing in length of skirt, they also decrease in depth of body, till fair busts are as fully displayed in the flesh at evening parties, as they are in marble at exhibitions of sculpture. Society is just now discussing a little incident which took place at the last "Court" held by the Queen before she departed for Balmoral.—A lady—and one of considerable rank, too—appeared there in a costume in which this reprehensible fault was carried to such an extent as to draw all eyes upon her in amazement, even in the ante-rooms. When she approached the "presence," it is related that the Queen, for a moment, looked perfectly astounded, but in the next instant, drew herself up in the most marked displeasure, and barely returned the salutation addressed to her. The moment the lady in question had passed, the Queen further announced to the Lord Chamberlain her desire that she should never be permitted to appear at "Court" again.

— An humble-bee has been known to distance a locomotive going at the rate of twenty miles an hour, and a dragon-fly to escape from a swallow after an hour's chase. A few burying-beetles will place a mole under the earth in an hour, which is a feat equal to as many men burying a large whale in the same space of time.

— Let no man be too proud to work. Let no man be ashamed of a hard fist or sun-burnt countenance. Let him be ashamed only of ignorance and sloth. Let no man be ashamed of poverty. Let him only be ashamed of dishonesty and idleness.

— A cow-belle—a beautiful milkmaid.

NEW HAMPSHIRE ITEMS.

—— Hon. John I. Baker of Boston, State Liquor Agent for Massachusetts, has been appointed by Gov. Smyth, Liquor Agent for New Hampshire.

—— The two thieves who broke into the house of Geo. Hutchins, in Concord, are in jail there, and have confessed that robbery, also another robbery in Andover.

—— The two men arrested for robbing Mr. Hutchins' house at Concord, and other places, have given their names as Cleaves J. Hirsch of Keene, and Henry A. Dutton (colored) of Manchester.

—— Rev. W. H. Eaton, pastor of the 1st Baptist Church in Nashua, has requested and will doubtless obtain, a dismissal from his labors for one year, that he may canvass for a fund of $100,000 in aid of the New London Institute. Mr. Eaton was similarly connected with this institution previous to his settlement in Nashua some ten or twelve years ago.

—— A lady recently had some pictures taken at the saloon of a travelling photographer in Plymouth, N. H., but as they were not satisfactory, refused to accept them, whereupon the artist added whiskers to the pictures, attached the lady's name and sold them to rowdies in the village. The lady's husband gave him a public horse-whipping. The artist sued for damages and recovered six cents.

—— A correspondent of the Boston Journal, writing from Tamworth Iron Works, mentions among other attractions for tourists and sportsmen, that a fine bear was killed upon Concord Mountain on Saturday. He also says:

"The Portsmouth, Great Falls & Conway R. R., one of the enterprises which will open new avenues of business with Boston, is now being pushed rapidly forward into this region. It is the intention to construct it to this place within one year, thus furnishing a near railroad route to the mountains, and a ready means of transport for the immense tracts of wood and timber, besides the ores and farm products. Messrs. Nathaniel Hooper and Geo. M. Browne, of your city, are directors in this important enterprise."

STATE FAIR.—Ample arrangements are being made at Nashua, for the Fair of the New Hampshire State Agricultural Society, which will be held in that city the 18th, 19th and 20th of September. The grounds used will be those belonging to the Merrimac River Agricultural Association, comprising twenty-five acres of cleared, level land, enclosed by a high, close board fence, and situated less than a mile southwest of the City Hall. Here is the well known Granite State Trotting Park, one of the very best courses in New England. Also a large number of buildings for stock, which are increased by the generous loan by the Pepperell (Mass.) Agricultural Society of thirty portable cattle pens. These will be conveniently arranged, near which a barn 30 by 40 feet will be erected for hay.

THE BUREAU INVESTIGATIONS.—The Newbern (N. C.) Times states that the investigations of the charges which were made by the Steadman-Fullerton delegation against Major Seeley have thus far failed to bring out any facts which make him amenable to military law, and pronounces the case a great farce.

☞ William Gadsby, whose father erected the National hotel, formerly known as "Gadsby's" where the Presidents elect make their stopping preparatory to taking the oath of office, died in Washington on Friday. He was latterly a clerk in the Treasury Department, and although once one of the wealthiest citizens of Washington, leaves his family in straitened circumstances.

— Andrew T. Dole, recently Postmaster of Portland, died on Tuesday morning. He had been in poor health for some time, but his decease was quite unexpected.

— It is stated that the colored laborers who were at work on the city buildings in Portland, struck for higher wages on Monday and were paid off and discharged.—They were not wise.

— Beaufort, S. C., which was formerly an aristocratic winter resort of the Southerners, has become completely Yankeeized with New Englanders. The Mayor of the city is a New Englander, and every office-holder, land-owner and store-keeper hails from the same section.

— Governor Humphrey of Mississippi reports to Gen. Howard that the insane asylum of that State is so crowded that he is daily compelled to refuse admission to white citizens, and is therefore unable to provide for the imbecile blacks. The reverses of the war, and the subsequent bankruptcy of the people, and present suffering for food and clothing are thought to be the reasons for this increase.

— A man who gave his name as August Weyer, arrested in Baltimore for passing a worthless check, turns out to be Charles De Villiers, a fast and fascinating young man, who about seven years ago, was well known in the best circles in Chicago. He was a great gymnast, and was employed by Colonel Ellsworth to teach him the Zouave drill.

☞ A letter from Lieut. Gov. Voorhiet, Major Gen. Herron and Mayor Monroe of New Orleans, to the President, places the blame of the riots in that city on the radicals. The letter says, among other things, that the press of New Orleans, excepting those of radical proclivities, exhorted the people previous to the riots to maintain good order and refrain from any interference with the convention whatever.

The N. O. Picayune speaks of the Military Guard since the riot as having nothing to do, because the city is orderly. [Perhaps, however, the knowledge and presence of the guard may have some effect in preserving order.]

Rev. J. W. Horton, who was mortally wounded by the police mob, and died Aug. 5, was a Baptist minister, born in Nantucket: the son of Jotham Horton, a methodist minister of Massachusetts, where both father and son were highly esteemed.—The Traveller intimates that the body of the deceased will be brought North, and funeral services will be held next week in Newton Corner. We append a brief extract from a letter to his sister, dated July 12, eighteen days before his death:

"We have regretted not leaving three months ago. Hope the Lord will open the way soon. The Johnsonian policy has ruined the South, the Union men, and especially the Union ministers. We hope to counteract his (the President's) policy in this State, by calling together the Free State Convention of '64, adopting suffrage for the colored people, disfranchising rebels, and effecting a peaceful revolution. Were it not for the Civil Rights Bill we should now be in the hands and at the mercy of rebels. We shall know in a few days whether there is to be any chance for Union men in Louisiana."

Rev. Mr. Jackson was dangerously wounded in the New Orleans riot. This clergyman is pastor of a Methodist church in that city, in connection with the Methodist church North.

He is a gentleman of great worth, and was earnestly devoted to the work of the ministry. He was not a member of the Convention, nor was he connected with any political organization, but he was known to be a Northern man, a decided Unionist, a friend and teacher of colored people, in fine, an earnest Christian man, engaged in his Master's work.

VERMONT MATTERS. — Two hundred feet of the railroad bridge from Hog Island to Alburg Springs, on the Vermont and Canada Road, was destroyed by fire on Friday night.

Henry Huntington of Stratford, Representative in the last Legislature, was killed a few days ago by a kick from a horse.

C. Simpson's barn at Sheffield was struck by lightning and burned, with 30 tons of hay, on Saturday of last week. Loss $1200.

☞ Saturday, the 4th instant, a young man with a good horse and buggy drove into Porter Village, Me. His conduct excited suspicion, and he was charged with stealing the horse. The man made his escape, but the team is in possession of Capt. Randall Libby. It is believed to have been taken from Massachusetts or New Hampshire. The horse is large and dark brown, about seventeen hands high, and is supposed to have formerly been a Government horse. The buggy is open, elliptic spring, made in Exeter, N. H., with harness silver mounted, breast plate, &c.

☞ In New York city the Superintendent of the Metropolitan Police has received information leading him to believe in complicity between detectives and counterfeiters. John S. Young, for a long time chief of detectives, has been relieved, and Inspector Carpenter put in his place. Full developments are not yet made public.

At a fire in Hudson avenue, Brooklyn, Tuesday night, Herman Alpers lost his life while attempting to save his horses. Two horses were burnt to death and the stable and contents destroyed.

☞ A farming corporation is something new under the sun, but one is getting under way in Cincinnati for the raising of vegetables to supply that city, which they promise to do at less than half the exorbitant charges of the market men at present. They have a capital stock of $100,000, and a farm of one thousand acres of land. The produce is to be sent to the city in the company's wagons.

☞ At Louisville Ky., on election day, Monday, some rebels attacked a Federal soldier, who fought the crowd until he was shot three times and beaten with rocks and clubs. He will survive. About fifty shots were fired on both sides. Colonel John Mickels, late of the rebel army and candidate for Clerk of County Court, was shot, and likely to die.

— The price for a message, to or from Great Britain, by the Atlantic Telegraph, is $5 a word, in gold, or $7.50 in currency.

— We were never aware that there was so great a difference in the qualities of bar soap until after using the J. Monroe Taylor Gold Medal Soap; our advice to our readers is, go without delay to your grocer and get a supply, for it is a truly wonderful article, and will not injure the finest fabric; our experience is that it is the best and greatest dirt-extractor known among the many different brands of soap in the market. ☞ "Procrastination is the thief of time." Too many allow themselves to go without proper nourishment, and before they know it have the dyspepsia in the worst way. Indigestion, unless speedily attended to, will certainly produce sickness and ill health. We know of no remedy equal to Coe's Dyspepsia Cure in such cases. It enables the patient to take hearty food, the parent of health, stops distress after eating as soon as you take it, and is a perfect regulator of the stomach and bowels. a8

☞ The following letter from William Cullen Bryant will be read with pleasure by all who wish success to the introduction of GOOD DOMESTIC WINES:

NEW YORK, March 20, 1866.

DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by FERRIER, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.

I am, respectfully yours,
(Signed) W. C. BRYANT.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many med cinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. au1dawlm

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

NEW COUNTERFEIT.—We are informed by a gentleman of this city that a new counterfeit of the fractional currency, of the denomination of twenty-five cents, has made its appearance in New Hampshire. It has the head of Fessenden very well engraved; a slight difference will however be noticed in the shading under the eye—in the genuing the shading appearing natural, and in the counterfeit it having the appearance of a black spot under the entire eye. The counterfeit is a little shorter and not so wide as the genuine.

☞ The Excursion of the Pearl Street Society to Brackett's Crossing, takes place this day, cars leaving the Concord railroad depot at half-past 8 o'clock.

Another of those pleasant trips on the Pioneer is planned for next Wednesday, to visit the Shoals by daylight and return in the evening.

☞ Tony Pastor's Combination, which gave so good satisfaction to their audience last evening, give their second and last performance this evening, with extensive change of programme. Their mission is to enliven the passing hour, and they do so most effectually.

☞ That second Excursion to the Lake via Concord, which was announced for the 14th inst., will be postponed till the weather gets settled, and stands adjourned until further notice.

☞ About a dozen car-loads of excursionists went to Portland on Wednesday, per railroad. They were chiefly the Universalist Society of Manchester, and we understand there is some talk of an excursion to the Lake, by the Universalist Society of this city.

☞ Picnics and parties per steamer Pioneer are getting to be very popular—as they ought to be. That down to Fort McClary, Wednesday, was one of the best of the season.

☞ About one hundred passengers went to the Sh—Smith's Isles in steamer Pioneer Wednesday.

☞ Rev. Dr. Lamson is to preach at the Middle Street Church on Sunday next.

☞ Early on Wednesday evening, a small dog, said to have been run over during the afternoon, created quite a stir in Mr. Thacher's store at the corner of Congress and Vaughan streets, by running at several persons, one of them the young man who tends in the store, (the froth dripping from the dog's mouth all the while,) upon which the clerk jumped upon the counter and in so doing broke one of the large glasses of the show case. The supposed-to-be rabid canine was finally ejected from the store, and a bystander discharged two shots from a revolver at him, but at last accounts he still lived. A muzzle would have saved all this trouble.

☞ Gen. Wm. Cogswell has been appointed, by the President, Post Master of Salem, Mass., and the usual bond was forwarded, for him to fill up and sign—but he don't believe in the wisdom or honesty of the new policy,—tho' it had been claimed that he did,—and therefore he declines, in the following courteous letter, dated Salem, Aug. 6:

While appreciating the kind consideration of the President, thus shown me, I herewith return the papers and respectfully decline the appointment, as the acceptance of it, in the present aspect of affairs, would seem to identify me with a political party with which I am not in sympathy; and I am unwilling to do anything that would even seemingly put me in a false position upon any of the great questions at issue now before the country, or in even so small a degree tend to weaken the earnest and undivided support which I desire to give the cause which I adopt.

☞ The Albany Argus says of the New Orleans "martyr" Dostie, "as a barber we believe the 'Doctor' did a passable business in Saratoga county; as a statesman in Louisiana he utterly failed."—*Ergo*, he was put to death: but query, if all statesmen who fail, must be murdered, who would be left to make up Conventions?

☞ Mr. A. J. Whipps, of Covington, Ky., was arrested last week for whipping a negro girl, and fined $50. He claimed that as the child was in his employment he had a right to whip her as much as he pleased, and refused to pay the fine, whereupon he was consigned to the care of Jeff. C. Davis, at Louisville. The affidavits in the case state that the girl was stripped and whipped with a rawhide for fifteen minutes, leaving her back badly lacerated.—*Boston Herald.*

Elegant Residence for Sale.
[On account of removal of owner.]

The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.

The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.

The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

If desirable, more land, adjoining, could doubtless be purchased.

The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

Morning Chronicle.

A YOUNG HERO.—We had the pleasure of a call, one day this week, from the youthful soldier, Sergeant John L. Clem. He was, undoubtedly, the smallest soldier in the army. At ten years of age he enlisted as drummer-boy, in 1861, in an Ohio regiment, has been in the service throughout the war, participating in most of the principal battles fought by the Western army. He distinguished himself at Chicamauga by shooting a rebel Colonel, and for his bravery was promoted Sergeant. Although several times captured, he managed to escape or fortunately was retaken by our troops. Le petite Sergeant Clem is now fifteen years of age, four feet three inches in hight, and and his avoirdupois is sixty-five pounds. He is of pleasing address and soldiery bearing. He has had a large experience for so young a man. He is now preparing for West Point, where he expects to enter the ensuing year. The Sergeant has a rose-colored future before him and and will have every opportunity to "make his mark." "Le petite Corporal" had not so good a start, nor so many friends, nor so much experience at the age of fifteen as our young friend.—*Mishawaukee (Ind.) Enterprise.*

A SOFT ANSWER TURNETH AWAY WRATH.—It is related that recently, in a sleeping car coming from the West, a man in one of the berths became greatly annoyed by the crying of an infant and the efforts of its father to pacify it. The irate individual at last shouted out: "What the devil is the matter with that young one?" And soon again: "Where is the mother of that child, that she is not here to pacify it?" At this the poor gentleman in charge of the child stepped up to berth and said: "Sir, the mother of that child is in her coffin in the baggage car!" The grumbler immediately arose and compelled the afflicted father to retire to his berth, and from that time until morning took the little orphan under his own care.

ACCIDENT BY LIGHTNING.—On Tuesday last as two young ladies, Misses Carey and Scolley, were riding out with a buggy team in the town of Gardiner, and when about a mile from home, they were overtaken by a thunder shower. Coming up to a large barn they drove into the same for shelter. They had been there but a short time when a bolt of lightning struck the barn and killed their horse. They were both standing at the time at the side of the animal, patting him with their hands, when he fell dead upon the floor of the barn.—The young ladies were stunned by the lightning and remained in an insensible condition for some time.

— Marrying for love may be a little risky, but it is an honest way of doing business.

☞ A Boston correspondent of the Amherst (N. H.) Farmers' Cabinet says there is a gentleman residing in Massachusetts, and he is a gentleman of education and refinement, and by birth and position the equal of Jeff. Davis or any other traitor, who was a prisoner at Belle Isle, confined there by orders from Davis, almost within sight of the executive mansion at Richmond. His bill of fare for one week was as follows:

"Monday—Breakfast, 0 0 0. Dinner, 0 0 0. Supper, 9 o'clock, corn-dodger, 3 inches square.

Tuesday—Breakfast, 2 1-4 inches corn-dodger Dinner, 0 0 0. Supper half a pint of pea soup (three worms in it.)

— Mr. King, of the New Orleans Times, who, before the riots, telegraphed that the Convention was only "a debating club," and afterwards spoke of its members as revolutionists, wrote recently at the President's dictation, as follows:

"The officers and people of New Orleans must, in every respect, deport themselves in such a way that the stain of the recent occurrences may, as much as possible, be wiped out. The President demands this." *Tribune.*

NAPOLEON'S SON.—Great preparations are being made at the Invalides, Paris, which suggest that a fresh occupant of that splendid mausoleum was expected. Some say the remains of the Duke de Riechstadt, the son of Napoleon I., which are buried in Austria, are to be restored to France, in accordance with the express wish of Napoleon III.

— The following definition of the rights of woman is given in a Vermont paper:—"To love her lord with all her heart, and her baby as herself—and to make good bread."

— "There he goes again," said Mrs. Parington in the legislature, as a member stood up for the fifth time to speak on the same question. "There he goes like a soda-fountain, and just as fluid as water. Now, Isaac, mind him, and see if you can't become a speaker of the house of reprehensibles some time. I declare!" continued she, as a new burst of eloquence reached her ear, "it does seem as if the mantlepiece of Daniel Webster had fell onto him, he is so bright."

PUBLISH THIS DAY,a
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example We predict for 'Sherbrooke' an immense sale."

SATURDAY, AUGUST 11, 1866.

WASHINGTON ITEMS.—The Washington correspondent of the Boston Herald says, under date of August 9:—

"The President to-day removed Gen. Baird from command at New Orleans, and appointed Gen. Stoneman in his place.—The investigation shows that Gen. Baird could have easily prevented the recent terrible riot in New Orleans."

When Gen. Baird comes before a court martial, we may get his views of the matter. The same correspondent says:

"The Philadelphia authorities assure the Executive Committee that there will be no riotous demonstrations against the meeting of the Convention, and that, if necessary, every protection will be afforded."

No northern man ever supposed there would be any attempt to molest that convention, or any offer of riotous demonstrations *against* it. It is not in the slightest danger from without, though such a fear has been expressed.

NEW HAMPSHIRE ITEMS.

—— The Laconia Democrat says that the hay crop that vicinity is much better than was expected—full two-thirds of the usual amount.

—— Mr. A. C. Stockin, for five years Preceptor of Berwick Academy, has been called to take charge as Principal of the large and flourishing Institution at New Hampton, N. H. This old Seminary was never in a more prosperous condition, having an aggregate the past year of over seven hundred pupils, and having sent a large class to college. The Board of Instruction consists of four Professors and four female teachers, Mr. Stockin being appointed to the department of Greek and Latin.

☞ The Address of Gov. Wellles, of La., to the loyal people of Louisiana, on the late riot. After stating that more than 300 people were killed and wounded and deploring the event, proceeds to state the causes which *led to it. He recites the history of the* Convention of 1864, which had not adjourned *sine die*, but was left to be called together again by its President. He details his own course and the conciliatory disposition he brought to the administration of the office to which he had been chosen, and declares that he found a conciliatory policy was not adapted to that part of the people who had returned from the ranks of the rebel army; that he had favored the re-assembling of the Convention of 1864, as the only means of securing the adoption of the Constitutional Amendment passed by Congress and thereby insure the admission of Louisiana Representatives in Congress; that the riot was a premeditated affair and that the police after driving the negroes in to the Mechanics Institute, should have awaited the appearance of the military, when the deliberate and horrible bloodshed which occurred, would have been prevented.

☞ A New Orleans dispatch of Friday, Aug. 10, states that the Military Authorities that day ordered Mayor Munroe not to make any more appointments or perform any other official acts without their approval.

☞ A dispatch from London, Aug. 8: via the cable, says the relations between the governments of Austria and Italy are assuming a threatening aspect.

☞ Baring Brothers & Co., of London, have given $2000 to aid Portland suffering.

GOLD, Friday, 148 1-2.

— At Detroit, on Saturday, nine sections of the roof of the new depot of the Michigan Central Railroad fell, with a tremendous crash, burying nine workmen. All were badly hurt, but none killed.

— At Cincinnati, on Sunday, one James Maley got frightened at the cholera and drank brandy as a preventive till he was drunk, when he fell out of a fourth story window and was killed.

— It is expected that there will be a famine in Bohemia, as that province has had to maintain two enormous armies for several weeks, and in very many of its district the crops have been destroyed by the cavalry horses.

— The accounts as to the state of the crops received from all parts of Ireland are of the most favorable character. Cereals are well spoken of; potatoes promise to afford an abundant yield.

— As Messrs. Bowen and Debow, opposing candidates for jailer, were standing talking together one evening last week, in in Mercer county, Ky., both were struck by lightning, and both instantly killed.

— The Philadelphia Bulletin thinks that after the Doolittle convention adjourns it will probably be known as the Didlittle convention.

— At Cincinnati, Aug. 9, there were 81 deaths, 49 being from cholera. Steamer Bostonia was burnt, loss $60,000, by the upsetting of a lamp.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Hon. Geo. Jaffrey, 1802.—Baptist M. H., now the Temple,—Fire & Marine Ins. Co.—Portsmouth Bank.—Mechanic Association.—Salt Works.

The honorable George Jaffrey died towards the close of 1802, aged eighty-six years. He received a public education at Harvard College, and took his degree of Bachelor of Arts, in 1736. After leaving College he entered into trade and navigation. In 1744, the Superior Court of Judicature appointed him their Clerk, which office he held twenty-two years. He was admitted one of his Majesty's Council in 1766, and was soon after appointed Treasurer of the province; and discharged the duties of that office until the commencement of the revolution. When the provincial convention ordered all the public offices to be removed from Portsmouth to Exeter, they appointed Nicholas Gilman, Esq., Treasurer, and Mr. Jaffrey paid over to him the sum of fifteen hundred sixteen pounds four shillings and eight pence, being the amount of public monies in his hands.

Mr. Jaffrey possessed a large real estate, and being one of the original purchasers of Mason's patent, the proprietors elected him their Clerk, in which office he continued until his death. He differed in sentiment from the leaders of the revolution, and was several times molested on account of his political opinion. He was a gentleman of the strictest integrity and uprightness of conduct, punctual in all his dealings, and correct in his deportment.

Thursday night, May 5th, 1803, about ten o'clock, the barn of Isaac Shepard, situated near the pound, was accidentally, but carelessly set on fire, by a traveller who went into the barn with a lanthorn to feed his cattle. The barn was filled with hay, and was soon enveloped in flames. The fire caught the roof of the dwelling house, which stood near, but by the spirited exertions of the citizens, the house was saved without having received much damage.

The Baptist society purchased a lot of land on Prison lane, on which they erected a meeting house. At the sale of the pews, it was declared: "That the house shall be open at all suitable times and seasons for the improvement of every ministerial gift, of every denomination, if the preacher shall be of reputable character; which times and seasons, and other discretionary concerns of said society, shall be decided by the deacons of the Church, or by the standing committee of said society." [Now changed into the Temple.]

The Legislature incorporated a society by the name of the New Hampshire Fire and Marine Insurance Company. Their officers consisted of a President, Secretary, and twelve directors; their capital stock was fifty thousand dollars. [Long ago discontinued. Their office building is now used as the Athenæum.

At the same session the Legislature granted a charter to the Portsmouth Bank, which was to continue in operation twenty years, with a capital of one hundred thousand dollars. The principal reason assigned for requesting this charter, was that the New Hampshire Fire and Marine Insurance Company might have a safe and suitable place to deposite their stock and monies belonging to their office.

The associated Mechanics and Manufacturers of New Hampshire, were likewise incorporated at the same session. The design of this institution, is to promote and encourage industry, good habits, an increase of knowledge in the arts they profess and practice, and their common interest; to promote good order; to assist each other in times of difficulty, and to add to the dignity, respectability, and prosperity of this useful body of citizens. The society to consist entirely of Mechanics and Manufacturers; and to gain admission, the candidate must produce a certificate from his master, or some other acceptable person, that he has faithfully fulfilled his engagements as an apprentice; is of a good moral character, and must obtain the votes of two thirds the members present at any regular meeting. Fees for admission were four dollars. The officers of the institution are a President, Vice President, Treasurer, six Trustees, Secretary, Deputy Secretary, Marshal, Deputy Marshal, and standard bearer; all of whom are chosen separately by ballot.

The Rev. Timothy Alden formed a plan for making salt of sea-water by evaporation, upon a very extensive scale; and a number of gentlemen associated for the purpose of carrying the same into effect. On the 17th of December 1803, they obtained an act of incorporation from the Legislature, making them a body corporate and politic by the name of the Proprietors of the Portsmouth Salt Works.

The management of the concerns of this society, was committed to seven directors; and they erected works for manufacturing salt, at a great expense in Kittery, on the eastern bank of the Piscataqua. After expending large sums of money, the plan proved abortive, and the corporation was dissolved.

PIANOS.—According to returns at the Internal Revenue office, in 1865, there were only 2776 of these instruments in the United States, which indicates that either the destruction of pianos in the United States must be enormous, or else our export trade in that article must have become a principal branch of American commerce. Massachusetts has just twenty-one. Indeed, in all New England there are but forty-eight pianos, just about enough to give one to each of her members of Congress. The returns of the Revenue Bureau are marvellous indeed, but in nothing more so than in proving how few are pianos and how many are shams.—*Exchange.*

The above paragraph is one of those stupid items which blockheads make out of statistical returns. The reader has probably not forgotten a similar paragraph about gold watches, which went the rounds a few months ago, but then was shown up as a false and foolish statement. The piano item was probably made by the same hand.

☞ The St. Louis Republican has a special from St. Joseph saying that dates from Fort Laramie to the 1st, state that the Indian war has commenced again. Several white men have been killed near Fort Reus by the Indians, who are stealing and driving off large numbers of cattle. Dates from Julesburg to the 2d, say a Government herd at Fort Laramie and a lot of cattle belonging to ranchmen one mile from the Fort, were driven off by Indians, who had also burned three Forts on Powder river and killed 35 men. Fort Connor and several trains in that vicinity had been destroyed, and a number of people killed.

The latter part of the above despatch is not fully credited. [And the whole of it sounds like a big story; tho' part of it may be true.]

☞ Speaking of the New Hampshire delegates to the Philadelphia Convention, the wag of the Dover Inquirer calls them "specimen bricks," and says, "it is a capital delegation—all copper of the hardest kind—as they should be. There is not one of them who would not kick Andy Johnson out of the White House any day, if he could have the privilege of choosing his best entertainment, and hold up both hands to vote Jeff. Davis into his place."

MEXICO.—The New York Herald's Mexico correspondence says an Austrian man-of-war at Vera Cruz was taking on board a large quantity of provisions. It was said that Maximillian with a large body guard would embark in her for Europe, while, on the other hand, it is said that Marshal Bazaine will order his detention, by force if necessary.

Letters from Santa Anna to parties in Mexico have been intercepted and numerous arrests made by the Imperial authorities. Santa Anna's estates near Yalapa have been confiscated and thus several millions added to the Imperial treasury.

☞ A Memphis, Tenn., dispatch of Aug. 9, says:

The officers of the steamer Mollie Hambleton report that as they passed Helena, Ark., on Tuesday evening, the 56th regiment of United States Colored Infantry, which were there awaiting transportation to St. Louis and thence to the Plains, had taken possession of the town, and were firing indiscriminately upon the whites, and swore they would burn the place and kill every white. One citizen named Goldbraith was fatally wounded. The excitement was intense, and the citizens were flying to places of safety.

A most alarming story,—a regiment firing and mortally wounding one man; but we wait further dispatches.

☞ The Boston Christian Watchman of this week, contains a letter from Rev. J. W. Horton, at New Orleans, written just before he was killed. In it he says:—

If I mistake not we are approaching a crisis. The municipal and State governments are more and more boldly becoming intensely sectional, so much so that previous connection with the confederate army is an indispensable prerequisite for holding office. The dailies are filled with adulation of the leaders of the rebellion, and broadly uttered abuse of Congress and all who sustain it.

☞ At New Orleans, Aug. 9, R. King Cutler and other Conventionists made affidavits before United States Commissioner Husted, charging principals or accessories in the homicides of the 30th ult.

— A delegate to the Philadelphia Convention from Denver, Coloradio, Hiram Lighbuer, a prominent citizen and politician, has been arrested for robbing the express company there of a bar of gold worth $3,000, which was found in his possession. He was committed for trial in default of $5,000 bail, and was to have started eastward on the day subsequent to the robbery.

— It seems as if nature herself goes against leaving New England "out in the cold," as the heat in the South the past month has been several degrees lower than we have had it here.

— The late rains have proved of great advantage to the cranberry vines on Cape Cod, both in stopping the ravages of the worms, and in giving vigor to the vines just at the putting out of the fruit.

— At Saco, Me. August 9, L. D. M. Sweat of Portland, was nominated for Congress by the Democratic Convention for the first district.

BEAUTIFUL ANSWERS.—A pupil of the Abbe Sicord gave the following extraordinary answers:—

"What is gratitude?"—"Gratitude is the memory of the heart."

"What is hope?"—"Hope is the blossom of happiness."

"What is the difference between hope and desire?"—"Desire is a tree in leaf, hope is a tree in flower, and enjoyment is a tree with fruit."

"What is eternity?"—"A day without yesterday or tomorrow, a line that has no end."

"What is time?"—"A line that has two ends—a path which begins in the cradle and ends in the tomb."

"What is God?"—"The necessary being, the sum of eternity, the mechanist of nature, the eye of justice, the watchmaker of the universe, the soul of the world."

— The New York World says that its reporter has ascertained that in New York city alone there are 150 whisky stills kept in constant operation, which supply, on an average, 7500 barrels daily, and duty is not paid on more than 500 barrels, if upon so much.

"THE TARTAR'S IN THE GAP," says Byron, and the Tartar of a different kind is very apt to get into every gap between the teeth. Guard against its progress by using the Preservative and Disinfectant, SOZODONT, or you may soon have as many gaps as teeth in the dental ranks. 35

FACT.—As a culinary preparation, Herrick Allen's Gold Medal Saleratus is *infallible*. It has great advantages over yeast fermentation, and will make twenty-five pounds more Bread or Biscuit from the same barrel of flour, and much better. It retains *all* the glutinous starch and sugar that is in the flour, and from two-and-a-half pounds of flour will make three and a-half pounds of Bread or Biscuit, while the same quantity by yeast fermentation will make only a *trifle* over three pounds, and require more than twice the quantity of shortening, besides being much more unhealthy. Try it and be convinced. 31

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy, and a positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawim

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. ☞ In the new counterfeit of the twenty-five cent government scrip, which we noticed in our issue of Friday, there is an error which will render its detection easy.—In the words "furnished by the Assistant Treasurer," assistant is spelled assistatn. In most respects the spurious issue is very likely to deceive.

☞ The excursion to Brackett's Crossing was postponed from Friday until to-day, on account of unfavorable weather. The cars will leave the Concord depot at half-past 8 o'clock this (Saturday) morning.

☞ A change has been made in the arrangements of the Middle Street Baptist Church, in consequence of which no service will be held there to-morrow, but Rev. Dr. Lamson is expected to preach on the two following Sabbaths.

☞ Rev. Mr. Waterbouse will preach at the Christian Church tomorrow forenoon—and in the evening at 7 1 2 o'clock.

☞ By the cable, we have a Liverpool dispatch of the 8th, which says that the ship Danube, from Bristol for the United States, has been burned at sea. Her passengers and crew were saved and brought to Liverpool by the ship Compear, from Mobile. The Danube was built at this port in 1848 by Messrs. Fernald & Pettigrow, for E. F. Sise and others, and rated at 743 tons.

☞ At the Convention of the Union men of York county, held on Tuesday last, Dr M. F. Wentworth of Kittery was Chairman of the Committee on Credentials,—and Francis Bacon of Kittery was Chairman of Committee on permanent organization. John E. Butler, Esq., of the Biddeford Union, reported resolutions sustaining the Republicans in Congress. Messrs. Nathaniel Hobbs of North Berwick, Charles E. Weld of Buxton and Jeremiah M. Mason of Limerick, were renominated as candidates for Senators. Richard H. Goding of Acton was nominated as candidate for Sheriff, and Sylvester Littlefield of Alfred, for Treasurer.

York County will be closely contested by both parties at the September election, but the Republicans intend to carry it.

John H. Burleigh of South Berwick, one of the delegates at large to the Philadelphia Convention, has until recently acted with the Republican party in Maine. He desired to be nominated as Candidate for Governor, the Republicans "didn't see it," and he has left. He formerly sailed as a ship master from this port. He will learn yet, that "it is better to be right than be President."

THE EFFECT OF COLOR UPON HEALTH. From several years' observations in rooms of various sizes, used as manufacturing rooms, and occupied by females for twelve hours per day, I found that the workers who occupied those rooms which had large windows with large panes of glass in the four sides of the room, so that the sun's rays penetrated through the room during the whole day, were much more healthy than the workers who occupied rooms lighted from one side only, or rooms lighted through very small panes of glass. I observed another very singular fact, viz: that the workers who occupied one room were very cheerful and healthy, while the occupants of another similar room, who were employed on the same kind of work, were all inclined to melancholy, and complained of pain in the forehead and eyes, and were often ill and unable to work.

Upon examination the rooms in question, I found they were both equally well ventilated and lighted. I could not discover anything about the drainage of the premises that could affect the one room more than the other; but I observed that the room occupied by the cheerful workers was wholly whitewashed, and the room occupied by the melancholy workers was colored with *yellow ochre*. I had the yellow ochre washed off, and the walls and ceilings whitewashed. The workers ever after felt more cheerful and healthy. After making the discovery, I extended my observations to a number of smaller rooms and garrets, and found, without exception, that the occupants of the white rooms were much more healthy than the occupants of the yellow or buff colored rooms; and wherever I succeeded in inducing the occupants of the yellow rooms to change the color for whitewash, I always found a corresponding improvement in the health and spirits of the occupants.—*London Builder.*

—"Come." I verily believe there's not a sweeter word in the Bible than the word "Come." I am sure that when it fell from the lips of Jesus, when the Spirit and the bride uttered it, when it was echoed by the tongues of apostles and in all these cases was addressed to the weary and heavy-laden—to those who were athirst with spiritual needs—it was so full of grace and truth that it could not be exceeded in preciousness by any word in human speech: and this word "Come" is the key-note of the Gospel. "Come!" with what-ever thirst you faint, "come and drink; Come and take the water of life freely."

—A cabin boy of a ship, the captain of which was a religious man, was called up to be whipped for some misdemeanor. Little Jack went crying and trembling to the captain; "Please, sir, will you wait till I say my prayers?" "Yes," was the stern reply. "Well, then," replied Jack, looking up and smiling triumphantly, "I'll say them when I get ashore."

—Never rely upon the good name of your ancestors for success, but entirely upon your own exertions, and learn early that better than the best friend that you can have, in this world, is unquestionable determination, united with decision of character.

—Neither the Moors nor Arabs ever give salt to their horses, cattle or sheep. And yet there are no horses in the world equal in healthful vigor, in powers of endurance, or elasticity of movement and robust constitution to these same Arab horses."

—Upon the reading of the declaration of Independence at Ypsilanti, Mich., by a citizen of that place, a gentleman from the rural district made this comment—"Oh, he read it well enough, but darned if I believe he wrote it."

—On the road to ruin every traveler pays his own fare.

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CURTIS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in walnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery—and so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with gravel.

CURIOSITIES OF THE MARRIAGE SERVICE IN ENGLAND. — A clergyman in Hampshire, England, writes: "If you had married as many couples as I have, you would be aware that it is not only when German princes appear at the hymeneal altar in England that novelties in pronunciation occur and foreign matter is introduced in the marriage service. In my parish it is quite the fashion for the men in giving the ring to say to the woman, 'with my body I thee wash up, and with all my hurdle goods I thee, and thog;' to which strange trio he pertinaciously adheres in spite of all my endeavors to correct the text. One man who could not read, but had taken praiseworthy pains to learn his part beforehand, had perfectly mastered what he was taught, only unluckily his 'coach' had blundered upon the baptismal instead of the matrimonial service, so when interrogated as to taking the woman to be his wedded wife, the bridegroom stoutly affirmed, 'All this I steadfastly believe.' The women are usually better up in this part of the prayer book than the men, but one day the bride startled me by making the extraordinary vow to take her husband 'to 'ave and to 'old from this day forth'l for better borse for richerer power in siggerness else to love cherries and to bay.' What meaning this marvellous farrago conveyed to her mind it is beyond the power of mine to imagine."

I should like to look up to Mont Blanc, from the valley of the Chamouni, or stand under the shadow of the Pyramids, or see the panorama that stretches beneath the summit of the Andes; but should prefer of the two, to pass an hour with Plato, to study the beauty of Milton's countenance, to have seen the expression of Shakespeare just as Hamlet was completed, or to have stood among the circle that heard the Apostle Paul at Lystra, or that listened to his defence before Agrippa in the city of Cesarea.—*Thos. Starr King.*

— At a celebration of marriage, a large number of young ladies present, the minister said:—"Those wishing to be joined in the holy bonds will please stand up," and nearly all the young ladies rose.

— "I say, Jim," says one friend to another on meeting, "I hear our friend A. has been in the oil speculation heavily; has he made anything?" "Yes," says Jim, "he has made an assignment."

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers and drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign Patents, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

His business practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that I never received the unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

VOL. XXIX. PORTSMOUTH, N. H. MONDAY, AUGUST 13, 1866. No. 36.

The Chronicle.

A ROYAL VISITOR.—Emma, Queen Dowager of the Sandwich Islands, widow of the late Kamehameha IV., arrived at New York from England in the steamer Java, and took rooms which had been prepared for her by the Hawaiian Consul-General. She was subsequently waited on by a messenger from the Government at Washington inviting her to visit the Capital, and also by Gen. Marshall of Governor Bullock's staff, who bore an invitation from the Governor for her to visit Massachusetts. The Queen took time to consider the matter.

Queen Emma is the granddaughter of the English sailor, John Young, by whose aid the islands were first brought under the rule of the Chief Kamehameha, afterwards King of the entire group. She is the daughter of a Hawaiian chief. She is, therefore, not as dark as the natives of Hawaii of unmixed blood. Her features are said to be remarkably regular, her eyes large and lustrous, and her expression exceedingly amiable. She speaks English with ease and free from accent. Her manner is dignified and graceful. She is about twenty eight years old, and was married to Kamehameha IV. about seven years ago. Of this marriage the issue was a son who died when about five years old, a loss which, it is said, his father, who was deeply attached to him, took much to heart and always grieved over. The Queen dresses in deep mourning and is accompanied by Miss Torbett of the Sandwich Islands and Miss Spurgeon of England. Her mission to England was to obtain pecuniary aid to establish High Church worship in Hawaii, and is reported to have been a failure.—*Boston Journal.*

ANECDOTE OF THE CZAR NICHOLAS.—What little chance of help from Russia Austria has to expect in any contingency may be judged from an anecdote told of the late Czar Nicholas. He was crossing the Summer Garden with an aide-de-camp when he suddenly stopped before one of the statues, which was that of Sobieski, who saved Vienna from a Moslem invasion. "Do you know," he asked, "who was the greatest idiot in the world next to Sobieski?" Receiving no answer, "I am the man," he said; "because I was fool enough to save Austria the second time." He did not think that Austria's partial co operation in the Crimean war was the return he deserved for preserving Hungary to her.—*London Review.*

THE BIG GUN IS LOADED!
LET THE BUZZARD SCREAM!
A. Q. Leach & Co.,
Still survive, notwithstanding the Barking of Small Fry about "Transient Humbugs," &c., and are selling to everybody who wishes to buy
DRY GOODS,
—AT—
UNPRECEDENTEDLY LOW PRICES.
Grave and important information for all who are at liberty and desire to spend their money where they can get the most for it.
A. Q. LEACH & CO.'S SYSTEM,
(that is, buying and selling cheap,) which is so obnoxious to the large profit seller, is fairly begun,
At No. 29 Market Street,
And such a time for doing good and showing up the extortioners was never known before.
DOWN WITH EXTORTION AND HIGH PRICES!
Stick by the men who have advocated Low Prices!
The great advantage of trading with and within your means, at all times, is fully illustrated by the
LOW PRICE CASH SYSTEM,
NOW RAGING AT
A. Q. Leach & Co.'s, 29 Market Street,
While, on the other hand, the MAD, GAMBLING SYSTEM is thoroughly exposed at
29 MARKET STREET.
Several Big Things for prudent Housekeepers to consider before Spending their Money:
Big Stocks, carried over or bought early at High Prices; Big Rents; Big Notes at Big Rates of Interest, and no real takers; as against
A. Q. Leach & Co., 29 Market Street,
Light Expenses, and a Large Stock of Goods, at the
BREAK DOWN PRICES!!
And the good old mottoes of "Small Profits," "Good Value," and "Quick Returns," flying to the breeze.
Although we are burned out at home, we find this as good a place to do Business as any in New England, and
We are Going to Stay!
And will not be undersold, if it takes
THE LAST COW IN THE BARN!
To Dealers and Country Traders
We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.
☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods,* at high prices, about selling *Dry Goods at Less than Cost,* but the safest way for all buyers is to call and get
A. Q. LEACH & CO.'S PRICES,
to take around in their pockets and compare.
MAKE A NOTE OF THIS.
Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.
N. B.—We pass no Counterfeit Money.

UNCLE SAM LOOKING AFTER HIS REAL ESTATE.—G. M. Herring, U. S. Assessor for the first collection District of New Hampshire, has received orders from the Treasury Department at Washington, to make a detailed statement of all the Real Estate belonging to the United States in his district, appraise its present value, with the buildings and improvements, and state the purposes for which the property is now used. Probably all the property belonging to the United States in this district, is in Portsmouth and vicinity, and comprises the Custom House, Forts, Light Houses, and some other property in the service.

HOW CYRUS LAID THE CABLE.

BY J. G. SAXE.

Come, listen all unto my song;
It is no silly fable;
'Tis all about the mighty cord
They call the Atlantic Cable.

Bold Cyrus Field he said, says he,
I have a pretty notion
That I can run a telegraph
Across the Atlantic Ocean.

Then all the people laughed, and said,
They'd like to see him do it:
He might get half-across over, but
He never could go through it;

To carry out his foolish plan
He never would be able;
He might as well go hang himself
With his Atlantic Cable!

But Cyrus was a valiant man
A fellow of decision;
And heeded not their mocking words,
Their laughter and derision.

Twice did his bravest efforts fail,
And yet his mind was made not to stake,
He won't the man to break his heart
Because he broke his cable.

"Once more my gallant boys!" he cried;
"Three times!—you know the fable,—
(I'll make it *four*, if *one* more,") so said he,
"But I will lay the cable."

THE PARIS EXPOSITION.

The space enclosed by the grand building in which the Exposition of 1867 will be held is 1,577,856 feet, or about 325 acres. In the arrangement of the interior of the building, the idea of grouping together similar products from different countries in such away as to preserve the unity of each nation's exhibition will be carried out by a series of elliptical galleries, each parallel to the outer wall of the building. There will be seven of these "circumvallations," subdivided by a number of main passages which radiate from the central garden to the outer circumference. It was expected that the outer walls of the building will be decorated by the 5th of July, and the work is now going forward with great rapidity. An idea of the extent and gorgeousness of the exhibitions may be gained from the facts, that the government of Egypt intends to expend $200,000 in decorating the space allotted to that country; Turkey proposes to construct in the Park the minaret of a mosque, and a Moorish divan and bath rooms; Persia contemplates the erection of a series of kioska, silk worm houses, opium distilleries and even an exact copy of the Shah's throne room, with its gorgeous paintings, brilliant carpets, fountains, &c.; the Siamese and Japanese departments will be decorated in splendid style; and the Emperor of Morocco also promises to adorn the place set apart for the productions of his people. France, of course, will not be behindhand in the display of all that Parisian art and elegance can produce. It has been usual to award the prizes to the exhibitors at the termination, and as a closing ceremony to the exhibition. A happy innovation in the interests of exhibitors will be made at the Exposition. The award of prizes was to be made in July and the exhibitors who obtain them will thus have the advantage of having their goods ticketed for four months before its close as prize articles.

The tunnel under the Chicago river, at the foot of Washington street, Chicago, will consist of three divisions, the two outside ones for vehicles, to be 11 feet wide and 15 feet high; the middle one, for pedestrians, to be 10 feet wide, the latter terminating in a stairway at each end, beyond which the two tunnels will converge into one. The covered portion of the tunnel will be about one thousand feet in length.

A FALLING STAR.—Jenny Lind, who was formerly the idol of the public; Jenny Lind, who for years gathered flowers and bank notes on her way, may be said to have assisted at her own funeral, as an artist, in having unfortunately again come before the public, and the people's was no more. She was blessed by a great part of the audience. This is a lesson to all those who will not retire in time.

A MONSTER TURTLE.—The Portland Press says that last week some men fishing for porgies off Seguin with nets, captured a huge turtle of the African species whose flippers had become entangled in the net. He was taken on board the vessel and brought to Portland. It is judged that he weighs more than twelve hundred pounds. Some twelve or fifteen years since a vessel was wrecked in that vicinity, with an African turtle on board that weighed about 500 pounds. There is no doubt but the captured one is the same fellow, as he has been seen occasionally, ever since he was wrecked.

A SHOEMAKER STRIKES OIL IN PHILADELPHIA.—A shoemaker in Philadelphia has struck oil on the lower floor of his dwelling, on Front street, near Spruce. He had occasion to pump water out of his cellar recently, and suddenly discovered that oil was floating on the water. He filled a pump with it, and it ignited freely. He filled his neighbors' lamps, and they are all burning it. At first he thought his fortune was made, but upon inquiry it was found that petroleum had been stored in a building near his dwelling, had leaked from the barrels, some of which were broken, and saturating the ground had found its way into the well.

SNAKES.—Rev. F. D. Huntington, D. D., Bishop elect of Maine, may be considered as belonging to the church militant. On Friday morning he despatched, on Mount Holyoke, a rattlesnake over four feet in length and eight inches in circumference, the snake being coiled under the feet of his horse, ready to spring when discovered. A portion of the rattles were lost in the conflict, making it impossible to state the age. The Bishop says, however, that he has been engaged in a warfare with "the old serpent" all his life, and thinks he has fairly got him this time.—*Northampton Free Press.*

PROPOSED ELEVATED STREET RAILWAY.—The New York City Council have, by a two-thirds vote, given to a company, permission to erect an experimental section of railway over Greenwich street, for the purpose of determining whether its success will warrant the extension of roads of this kind, to relieve the overcrowded streets at the west part of the city. Should the project receive the sanction of the Mayor, the corporation intend to have the trial section erected and ready for inspection by the first of January next.

DARTMOOR PRISON.—A correspondent of the Philadelphia Inquirer, not long since, paid a visit to this place, which has become famous as the scene of imprisonment and suffering by American prisoners during the war of 1812. The correspondent thus describes the place where the prisoners who died there were buried:—

"On inquiring if it was known exactly where those who died in confinement were buried, we were taken just outside one of the gates, when a scene met my eyes for which I was wholly unprepared. Within a small enclosure, what seemed to be a flower garden—a great transition from the grim and repulsive stone walls within—men were engaged in laying out the walks, trimming the shrubberry, and tending the flowers, and reducing the whole spot, which a few months ago was in the most neglected condition, to one of perfect neatness and beauty. In the centre of the ground rose a neat, plain, granite obelisk, upon which has since been cut the following inscription: "In memory of the American prisoners of war who died between the years 1809 and 1814, and lie buried here: *Dulce et decorum est pro patria mori.*"

To Captain Stopford, the present Governor of the prison, is due the sole credit of this delicate and generous act, both as to the conception and its execution. On assuming the command, not long since, he found this burial place in a sad condition, and could not rest until he had redeemed it from its long neglect. But not content with simply putting it in order, he has converted it into a spot of perfect beauty."

— At a fancy dress ball in Paris recently a lady was seen in a very low bodied dress, while floating and waving in abundance of green gauze. She was politely asked by a gentleman what she personated. "The sea, Monsieur." "At low tide, then, madame." The lady blushed, and the gentlemen smiled.

What is the correct mode of "*larding* the lean earth?"

Can a cutlet be cooked from a "false calf?"

— Mr. Young of Charlton, Iowa, had a firebug taken from his ear a few days since, after it had remained there thirty six years, much to the detriment of his hearing.

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE,"
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. "Aunt Lydia" and her proverbs would never be forgotten by the reader. "Hope," the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.
☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods*, at high prices, about selling *Dry Goods at Less than Cost*, but the safest way for all buyers is to call and get

MAKE A NOTE OF THIS.
Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.

TUESDAY, AUGUST 14, 1866.

THE PHILADELPHIA CONVENTION is to meet by appointment to-day, to endorse President Johnson and his policy. We might fill our columns with the preliminary talk of newspapers correspondents, but can only afford room for a few items.

The correspondent of the Boston Herald, writing on Sunday, says:—

A visit to the wigwam, two miles up town, to-day, exhibits it in a state of magnificent imperfection. Unless the force of carpenters is increased it cannot possibly be completed before Wednesday. Thousands of curious people have visited it to-day.

The Boston Journal's correspondent, Perley, says of it on Sunday:—

It resembles a large oblong barn, 100 feet by 160. At four o'clock in the afternoon the roof timbers are only partially raised, and it does not seem possible that the edifice can be completed in season for the opening of the Convention on Tuesday.—At any rate I have not seen any preparations commenced for the accommodation of "traitors," who we were told by Andrew Johnson of Tennessee, should take "back seats" during the work of reconstruction.

The Herald's correspondent of Sunday, midnight, says:—

A considerable portion of the Massachusetts delegation reached here late to night, and the delegation from New Hampshire has arrived nearly entire.

So far as the Committee has arrived at anything like a definite conclusion in the matter of admission of delegates, the result is something like the following:—

On the part of the South those who were active in favor of secession before any States actually seceded, are to be held ineligible as delegates, and those from the North who opposed sending supplies to carry on the war for the preservation of the Union are to be held likewise ineligible.

There is a great deal of feeling against the admission of Vallandigham. He has been approached by different gentlemen for the purpose of securing his assurance that he would not act as a delegate. He has thus far refused. If he adheres to his purpose it is thought a resolution will be introduced into the Convention looking to a prevention of his acting in a delegate capacity.

Perley says hints have been given in some of the democratic papers that there may be serious disturbances here during the session of the Convention, and that attempts may be made to break up its deliberations. But it must be remembered that the men of the party which breaks up conventions and kill or maim delegates will be participants and not spectators. Naturally, it will make "the boys in blue" rather uneasy to see men who fought against the Union thus assemble in council, but I do not apprehend any disturbance.

High Constable Clarke, who is at the head of the city police, informs me that he has made every preparation for preserving the peace outside the wigwam, but he added: "If they choose to fight among themselves inside, I shan't interfere."

☞ Major J. E. Cornelius, in charge of the Freedmen's Bureau at Rockville, Wodmolaw Island, S. C., under date of July 14, reports to the Bureau that the condition of the freedmen is daily improving, and the prospects are that all who are able to work will make enough during the present year to comfortably clothe them and support them until they have time to make contracts for the ensuing year. Many of them will make from $400 to $800 if no accident happens their crop, and about one-half will, in addition to their cotton crop, raise provisions enough to support their families during the next year. During the past spring the freedmen evinced a great deal of hostile feeling towards the rebels, as they invariably termed their former owners, and refused to converse or have anything to do with them. This state of feeling has improved of late. There are about three hundred old, superannuated, crippled negroes on Edisto Island, who are unable to provide for themselves.

☞ Attention is called to the advertisement of Hygienic Wine, in special notice column.

☞ Newton Champion is in jail at Philadelphia, charged with the murder of Mary Kearney.

— False calves (ladies' definition)—deceitful lovers.

— The colored people of Boston have contributed $122 for the benefit of the colored people of Portland who were sufferers by the recent conflagration in that city, and the same has been forwared to Portland by the hand of Mrs. Bannister.

— Old Romeo, one of Dan Rice's elephants, broke loose at Buffalo lately, and getting into a well-stocked kitchen garden, began to gobble up vegetables. When he was retaken, it was found that he had left very little garden.

— The Assistant Commissioner of the Freedmen's Bureau for the States of Missouri and Arkansas forwards to General Howard an estimate of the number of rations required to be issued to whites and freedmen, respectively, during the month of September, 1866, as follows:—Whites 35,000; freedmen 5000.

NEW HAMPSHIRE ITEMS.

—— Geo. Smith, of Lisbon, committed suicide, Aug. 1; he was no doubt insane, and had threatened to kill himself and wife.

—— On Friday evening, at Manchester, Mr. Catherine O'Brien, making a misstep, fell down stairs and died almost instantly.

—— J. A. Chamberlain, of Dunbarton, on the 11th of June, sheared 21 merino lambs, whose fleeces averaged 8 lbs. each, of washed wool.

☞ The Rockingham County Cattle Show and Fair will be held at Exeter on Wednesday, Thursday and Friday, Sept. 12th, 13th and 14th. During the Fair Gen. Whittem and publish a "Daily Reporter" newspaper, "in which will be given, from day to day, full details of the Order of Exercise, entries, performances, awards of premiums, and all matters pertaining to the grand display of the products of Old Rockingham, as may be of interest, not only to those in attendance, but to all friends of the Society who are unable to be present. The Reporter will be published four days—including the three days of the Fair and the one succeeding—thereby giving a full and complete record of the Exhibition such as will not probably be obtainable in any other form."

Every live man and woman in the County ought to have a copy; and every business man whose trade is not exclusively local, would do well to advertise in it. Prompt attention will be given to all orders and letters of inquiry addressed to Thomas J. Whittem, Exeter, N. H., who we hope will be successful in this public spirited experiment.

NEW ORLEANS.—Maj. Gen. Baird, Assistant Commissioner of Freedmen's Affairs for Louisiana, telegraphs to the Commissioner to have to have two additional surgeons detailed for duty in New Orleans with as little delay as possible. It is thought the requisition is made for the purpose of meeting any necessity which may arise out of the prevalence of cholera in that city.

There were 25 deaths from cholera in New Orleans for the twenty-four hours ending at 6 A. M. to-day. Physicians pronounce it the Asiatic Cholera in its worst form. The disease is principally confined to the negroes who live in the in the uncleanly parts of the city.

☞ Pierce Butler, Esq., of Philadelphia, is personally testing the difference between slave and freed labor on his rice plantations in Georgia. Of more than three hundred colored persons, once his slaves, but a few have returned and accepted the wages he has offered them. The contract between the freed people and Mr. Butler, made with their consent and the approval of the Freedmen's Bureau, has been formally consummated to the satisfaction of all concerned.

☞ The Concord Statesman says, "The Boston and Main Railroad has the meanest station houses of any corporation of its kind and ability in the United States. They are a disgrace to the road."

— A lady was killed in Norfolk, Va., last week, by slipping on a piece of melon rind.

— The Prussians have a cartridge which explodes after entering the body of a man, and tears him to pieces. The fortunate inventor is kept under guard to prevent him from imparting the secret of its preparation, which is only known to him. He'll be glad when this cruel war is over.

— Harrisburg dispatch reports an attack on the train containing Gov. Curtin, Gen. Geary and ladies, and a party of soldiers.—Firearms were discharged, and stones and other missiles thrown at the train. Several soldiers were wounded. The train was stopped, and the soldiers went after the attacking party, who fled.

— H. N. Frisbee, formerly colonel of a negro regiment, and now an extensive planter at Bayou La Bœuf, La., was arrested last week, at the instance of one of his neighbors, upon a charge of enticing negroes from their employers before the term for which they had contracted had expired

— Mr. James Currier of Berlin, Vermont aged eighty-five years, has the present season mowed, raked and pitched both ways, doing all the work himself without the aid of labor-saving machinery, all the hay on his farm. Mr. Currier's farm is not large, but he keeps a horse, two cows and some small stock, and has hay enough and to spare. Few men of Mr. Currier's age can perform such labor.

— The second Plenary Council of the Catholic Church in the United States will convene at Baltimore on the first Sunday in October. The Archbishop of Baltimore will preside. The Bishop of Newark, in announcing the council to his clergy, says there are a large number of important practical questions affecting the discipline of the Church, and its greater efficiency, some of them growing out of the present condition of things, which are to be determined and enforced.

THE ALDEN MACHINE IN CONGRESS.—We hear it rumored that a compromise is about being made in the Brooklyn Congressional District, where Chittenden, Lincoln and Pierson are candidates for the seat made vacant by Mr. Humphrey's death.—Lincoln and Pierson offer to withdraw and concentrate their votes in favor of *Charles C. Yeaton*, whose fame in connection with the Alden machine for setting and distributing type cannot fail to secure large accessions of strength outside the Republican ranks. Yeaton is young, good looking, self-possessed, full of undaunted energies, a fluent and forcible talker, successful in all his undertakings, pretty rich at present, and will soon be a millionaire. He has every advantage to make him a popular candidate, and no entangling alliances either with the radicals or the Philadelphia Convention people. These things being so, we believe Mr. Chittenden will best consult his own interest and any hope he may have in the future, by at once withdrawing his name in Yeaton's favor. This be is the more likely to do as Yeaton and he have been dear, confiding and intimate friends for so many years, and the measure proposed seems to be the only one by which the district can be saved. If Yeaton make as good time on the political track as with his $5,000 trotting stallion, the Democratic nominee will have to look to his guthings. It is rumored that Theodore Tilton and Henry Ward Beecher have been mainly active and instrumental in bringing to pass this desirable compromise. Mr. Yeason's election may be regarded as one of the dead sure things in Brooklyn politics—*N. Y. Citizen.*

A late number of the Citizen says:—

"The name of Charles C. Yeaton as compromise candidate for Congress in the district of Brooklyn, made vacant by the death of Mr. Humphreys, meets with universal favor and seems to reconcile all the lately discordant factions. * * * We regard Yeaton's election as certain, if he chooses to run; but whether he will do so or not, has not yet been definitely indicated. His large interests in the Alden Machine Company, now just about going into operation, will make his absence at Washington a heavy sacrifice."

LONDON ITEMS, per cable, to Aug. 11. The session of Parliament has been closed. The Queen's speech on the occasion of the dissolution returns thanks to the Government of the United States for the action taken by it in the matter of the late Fenian raid in Canada. The speech also expresses the Queen's gratification at the success of the Atlantic cable. The remainder of the address from the throne relates to home questions.

Napoleon has asked from Prussia an extension of the frontier of France.

An armistice has been agreed upon between Austria and Italy, upon the basis of the cession of Venetia to Italy.

The Empress of Mexico has arrived at Paris. She seeks aid from the French Government for the cause of Maximilian.

No decision has yet been given by Prussia to the French demand for an extension of frontier to the Rhine.

☞ Gen. Howard, Commissioner of the Freedmen's Bureau, has written a letter in reply to some questions made by Hon. Roswell Hart, Member of Congress from New York, concerning the operations of the Bureau. The General gave a history of the organization and work of the Bureau, with statistics from June 1865 to June 1866. From these it appears that the number of persons receiving rations are decreasing, and that the poor whites dependent upon the Government bounty are equal to the blacks. The letter closes with the opinion that in the present condition of affairs the Bureau is indispensable.

☞ The Herald's special Washington dispatch says it is probable that Gen. Howard will resign or be removed as Chief of the Freedmen's Bureau, owing to the developments in the report of Gens. Steedman and Fullerton, and Gen. Tillson put in his place. The same dispatch also says Gov. Curtin of Pennsylvania has called for 2000 militia for service during the Philadelphia Convention, and it is thought trouble will ensue. [All sensation reports, and wholly unreliable.]

☞ The Exeter people flatter themselves that they are to have a new railroad station in their town, the Boston & Maine Railroad having bought two little cottage lots for the purpose of enlarging its depot grounds. This road is given rather to paying large dividends them making permanent improvements in its line, and its depots are a wretched condition.

☞ In New York city, cholera is decreasing. Nathaniel C. Bishop, insurance broker, formerly of Maine, has been sued for a divorce by his wife. Bishop is 62 years of age, and has an income of $100,000 per annum. He and a paramour have been arrested and committed for want of bail.

ADVERTISED BY SMILES is Sokodont, and if you use it daily, the white gleam of the pearls between the parted rubies will prove its excellence as a Dentrifice, and the sweetness of the breath will attest its purifying properties. 38

— Perfection has been obtained, through art, science and experience, in the manufacture of Herrick Allen's Gold Medal Saleratus, as every lady who has tested it universally exclaims, "There's nothing like it." Don't fail to test a paper, and you will never use any other. Call on your grocer for it, and do not be put off with any other. All the Grocers sell it. Depot 112 Liberty Street, New York. —42

— More people have been drowned and killed by lighting this year in New England than for many years before.

☞ "Cholera, Dysentery, Coughs, Colds and Rheumatism are quickly cured by AMERICAN LIFE DROPS.

Holloway's Pills.—Cholera or griping of the bowels.—Laudanum may lull the pain, but not destroy it. Morphine stupifies the senses in artificial sleep, without refreshing the invalid. Hygienic Wine,
Approved by the Imperial School of Medicine, Paris.
Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from
PURE SHERRY;
Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in
Aromatic and Balsamic Principles,
and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing, for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE
is moreover
MOST DELICIOUS TO THE TASTE,
Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an
Appetizer,
IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)
is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with
"Muscat Perle,"

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

PERRY DAVIS' VEGETABLE PAIN KILLER
after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy, and positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The fact of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, in an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

If Fair Weather,
THE TENTH PUBLIC CONCERT
—BY THE—
PORTSMOUTH CORNET BAND,
will be given
ON "MARKET SQUARE,"
This (Tuesday) Evening, Aug. 14th,
commencing at 8 o'clock.

For the Chronicle.

FACTS ABOUT THE FIRE AT GOSPORT. The total valuation of taxable property in Gosport was only $24,719, and this was the accumulated result of over two hundred years of hard earnings and small savings.

$14,000 was offered for the Atlantic House, totally destroyed; and the other property burned made the total loss about $20,000. On this loss less than $6000 has been realised from insurance, and four of the principal sufferers had no insurance whatever.

The proportion of loss is much greater than by the Portland conflagration, while the ability to recover is very much less at Gosport.

About $20,000 a year is spent in Portsmouth annually, for gear and supplies by Gosport people, to say nothing of the thousands expented there by the Laightons, who have generously contributed in the case.

Not a dollar has yet been forwarded to the Selectmen, by Portsmouth, for *general* distribution; though some generous contributions have been there made by some benevolent friends of the town to one or two of the sufferers.

No tempest-tossed ship or boat ever signalled their distress to the islanders in vain, and they do not yet believe that their own appeal for helps will be disregarded in Portsmouth. A SMITH'S ISLANDER.

POLICE COURT, Aug. 13.—Daniel McLaughlin, who was up before the Court on Saturday, seems to have been well satisfied with his treatment on that occasion, as he made his appearance again to-day, and was again assessed $6 86 for being drunk. We don't know whether it was the "same old drunk," or an entirely new one.

Nahum Ferguson, a vagrant, idle person, and beggar, was sentenced to fifteen days hard labor in the House of Correction, and to pay costs $4 80.

Marshal Dodge, accused of disturbing the peace in his own house, was acquitted.

☞ James M. Lovering, Collector of Internal Revenue for this District, has gone to the Philadelphia Convention. He is expected to room with Capt. Marcy in the wigwam.

NAVAL.—Carpenter Wm. F. Laighton and Sailmaker Thomas O. Fassett have been detached from special duty at this naval station, and placed on waiting orders.

☞ Mr. Thomas P. Moses, after an absence of nearly a dozen years in South Carolina, arrived home in this city a few days since.

☞ At this Season of the year, no party should be without the Cholera Syrup. Prepared by S. Gilbert, 27 Daniel, corner Penhallow street. Good in all bowel complaints.

☞ Perley telegraphs from Philadelphia, Monday, that a rain has begun, which stops work on the Wigwam, so that the Convention may not be in working order so soon as was expected,—but in the mean time talk and caucusing go on.

Vallandigham and Ben. Wood are endeavoring to gain notoriety by declaring that they will claim seats as delegates, and that they will not support what they irreverently term "Seward's d—d nonsense." This has given rise to discussion.

A majority sustain the decision that these peace Democrats cannot respond to the call, and must not participate. Gentlemen of the genuine copperhead persuasion assert that unless gentlemen of all shades of opposition to what they call "nigger worshippers" are admitted, no common ground can be selected upon which all can stand. The end of the discussion is an adjournment to the bar—to drink the health of Andy Johnson. William Bigler and Fernando Wood profess to be so anxious for harmony that they will withdraw cheerfully if it is thought necessary. Orders have been received from Washington to exclude Vallandigham if possible, and to give all possible prominence to the few Republicans present.

The Southerners say that they will permit the Republican renegades to ostensibly control the Convention, but they expect in return a proclamation of amnesty by President Johnson, and they say that Mr. Stanton must give a further proof of his submission by dismissing Gen. Howard from the Freedmen's Bureau.

It is understood the managers don't want much speaking in the wigwam, for fear of a dispute; but 8 or 9 talkers were to speak Monday night, in a Hall.

☞ At one o'clock on Sunday, a fire took place in Lawrence, Mass., destroying the great Repair Shop of the Boston & Maine Railroad, the paint shop and the blacksmith shop; also four or five cars loaded with valuable machinery. Only the round-house was saved. Loss to the company $100,000. Some of the men were in the house at half-past 12, and saw no fire. It is thought to be incendiary work.

Ayer's Pills.
ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the languid vital organs of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if neglected, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.
They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.
Ayer's Ague Cure.
For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.*
This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brethren of the army and the west, try it and you will endorse these assertions.

The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.

Morning Chronicle.

☞ A lady sojourning in New Orleans, (whose name is kept back for obvious reasons) wrote a letter to Boston, Aug. 1, from which extracts are published in the Boston Journal. She was accidentally in a friend's house near the scene, and was an eyewitness of some of the riot. She says: "I cannot restrain my indignation at the most brutal, cowardly and fiendish course of those in authority over us. From the balcony I saw nine unoffending blacks brutally murdered and their corpses mutilated in a shocking manner. Long after the breath had left their bodies they were stabbed with long knives, and their brains beaten out with bludgeons and brickbats. Rev. Mr. Horton, who was invited to open the Convention by prayer, when he saw the police about to fire upon the unarmed assembly, raised his arms, and while imploring them to desist, received three bullets in the breast.

You can depend very little on the first accounts which reach you, as the city authorities held the telegraph up to a late hour, and suppressed all communications which were unfavorable to their side. Everything is very quiet here now and we feel a greater degree of security now that Gen. Sheridan has arrived from Texas."

LADIES SHOULD READ NEWSPAPERS.—It is a great mistake in female education to keep a young lady's time and attention devoted to only the fashionable literature of the day. If you would qualify her for conversation, you must give her something to talk about—give her education with this actual world and its transpiring events. Urge her to read the newspapers, and become familiar with the present character and improvement of our race. History is of some importance; but the past world is dead, and we have nothing to do with it. Our thoughts and our concerns should be for the present world; to know what it is, and improve the condition of it. Let her have an intelligent opinion, and be able to sustain an intelligent conversation concerning the mental, moral, political and religious improvement of our times. Let the gilded annuals and poems on the centre-table be kept a part of the time covered with the weekly and daily journals. Let the whole family, men, women and children read the newspapers.—*Godey.*

— The Pall Mall Gazette states that "a while since it was announced by a clergyman that 'a glass of sherry, with a biscuit, at 11 A. M., half a pint of bitter ale at an early dinner, and another glass of sherry in a cup of arrowroot at supper,' would be found efficacious in the prevention of cholera among the laboring classes."

— A private letter from Vicksburg, Miss. states that at least thirty freedmen have been murdered in that county within the last six weeks. Union men are seeking refuge in the city because they dare not remain longer at their places in the interior.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice, and experience on a unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and unfits the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for their use, with a description of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

VEGETABLE VENGEANCE.

[A Sensation Story.]

BY A VEGETARIAN.

He had done the deed! But little did he guess that the eye of an intelligent potato in the next field was upon him. The potato poured the dreadful story into the ear of the corn, which let out the secret in its (s)talk, and though I am bound to add that the corn was only after thus betraying confidence, the story got wind, and the cucumber was in a most distressed frame of mind in consequence. The culprit was overtaken by justice and several scarlet runners, and taken before a justice of the peas. The case was investigated to the very roots, and the potato was, of course, principal witness for the prosecution.

Would'st know, oh reader, the wretched man's guilt? He had shed the blood of a turnip, little expecting it would ever turn up in evidence against him. He was executed, of course—the mode of execution, decapitation, in order to sever the carrot-id artery.

— Men may blush to hear what they were not ashamed to act.

— Twenty years ago, there was but one homeopathic journal this side of the Atlantic; now there are two quarterlies, five large and several smaller monthlies, devoted wholly to scientific and professional matter.

— From a report of the London Pneumatic Dispatch Company it appears that 120 tons of goods can be passed through the tube per hour, at the rate of eighteen miles an hour, at the cost of under 1d. a ton per mile.

— It is told of the late Miss Mitford that she once bought a turban on her way to an evening party and put it on in the carriage before her arrival; but the delight of the guests knew no bounds when she appeared in the drawing-room still carrying on her head-dress the shop ticket, which described her as "Very chaste—only 13s. 6d.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by return mail for One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

NEW ADVERTISEMENTS.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, object one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

THE BIG GUN IS LOADED!

LET THE BUZZARD SCREAM!

A. Q. Leach & Co.,

Still survive, notwithstanding the Barking of Small Fry about "Transient Humbugs," &c., and are selling to everybody who wishes to buy

DRY GOODS,

— AT —

UNPRECEDENTEDLY LOW PRICES.

Grave and important information for all who are at liberty and desire to spend their money where they can get the most for it.

A. Q. LEACH & CO.'S SYSTEM,

(that is, buying and selling cheap,) which is so obnoxious to the large profit seller, is fairly begun,

At No. 29 Market Street,

And such a time for doing good and showing up the extortioners was never known before.

DOWN WITH EXTORTION AND HIGH PRICES!

Stick by the men who have advocated Low Prices!
The great advantage of trading with and within your means, at all times, is fully illustrated by the

LOW PRICE CASH SYSTEM,

NOW RAGING AT

A. Q. Leach & Co.'s, 29 Market Street,

While, on the other hand, the MAD, GAMBLING SYSTEM is thoroughly exposed at

29 MARKET STREET.

Several Big Things for prudent Housekeepers to consider before Spending their Money:
Big Stocks, carried over or bought early at High Prices; Big Rents; Big Notes at Big Rates of Interest, and no real takers; as against

A. Q. Leach & Co., 29 Market Street,

Light Expenses, and a Large Stock of Goods, at the

BREAK DOWN PRICES!!

And the good old mottoes of "Small Profits," "Good Value," and "Quick Returns," flying to the breeze.

Although we are burned out at home, we find this as good a place to do Business as any in New England, and

We are Going to Stay!

And will not be undersold, if it takes

THE LAST COW IN THE BARN!

To Dealers and Country Traders

We offer peculiar inducements, as we are fully resolved to get rid of the Goods, let the Sacrifice be ever so great.

☞ There will be much loud talk and chafing about this time among Retailers who are *Overloaded with Goods*, at high prices, about selling *Dry Goods at Less than Cost*, but the safest way for all buyers is to call and get

A. Q. LEACH & CO.'S PRICES,

to take around in their pockets and compare.

MAKE A NOTE OF THIS.

Many City Retailers would do well to call some fine morning and see the RUSH and WALTZ go on; they would soon be convinced that it does not require Elegant Stores or a life-long Residence to sell Dry Goods, when they are sold at three-fourths of their value.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, AUGUST 15, 1866.

☞ We find the following item in a Johnson paper in Massachusetts:—

THE OFFICE HOLDERS.—We have been informed that some of President Johnson's office holders, while pretending to support the conservative movement, are secretly at work to defeat it. They are well known and understood. They think they are smart but they may get euchred. We would recommend them to attend to their duties and not make themselves too conspicuous or undertake to ride two horses at one time, for they may get thrown. *A word to the wise is sufficient.*

Who is this, but the meanest of all possible threats,—made by some one who calls himself a democrat, who prates of freedom! Is that democracy, which would make every office-holder the mere *serf* of the President, and the mere echo of his opinions? It is, moreover, as idle as it is mean:—put forth, not with *knowledge* of a case,—but with *suspicion* that the great cheater will get cheated, as he ought to be and will be in a thousand cases;—and with the hope that some timid or needy office-holder will be frightened into the support of measures he hates, and of a man who he can't help despising.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller will preach at South Hampton, Sunday, Aug. 26.

—— Hon. Josiah Minot of Concord has been chosen President of the Concord Railroad, *vice* Josiah Stickney, resigned.

—— The Rockingham Association of Universalists will meet at Fremont, Wednesday, Aug. 22, at 10 o'clock, for a session of two days, closing Thursday afternoon with the Communion.

—— Mr. William Huntoon of Unity, went out of his house on Sunday, Aug. 5, but not returning as usual, was sought for by his friends, and found dead in his cornfield, probably from appoplexy.

—— Henry P. Rolfe, Postmaster at Concord, and of the delegation this State to the Philadelphia Convention, arrived at Washington Monday morning and had a long interview with the President.

—— The Directors of the Boston & Maine Railroad, have purchased the real estate, belonging to Edward S. Shortwell, and Thomas Shinnick, near the Exeter Depot, for the purpose of making improvements on the Depot. The Company paid for both lots $2200. $1100 each.

—— The Rockingham County Agricultural Society have decided to hold their Fair in Exeter. The Gilman field, west of the railroad, (near the depot,) has been secured for the Fair ground. It will be held on Wednesday and Thursday, September 12th and 13th.

Dr. George B. Loring of Salem, Mass., will deliver the address.

—— Messrs. Purington & Allard, House Painters of Exeter, ascended the outside of the cupola of the Town Hall, to the feet of the figure of justice. Mr. Allard stood upon the pedestal upon which the image stands, clasped the image in his arms, while Mr. Purington stood upon Mr. Allard's shoulders, and painted the head and arms of the image. The feat was performed Saturday, Aug. 11, in view of many citizens.

—— There will be a meeting of the Alumni of the New Hampshire Conference Seminary and Female College at Sanbornton Bridge, 22d and 23d of August.—Wednesday evening a lecture will be given by Prof. C. S. Harrington of Middletown, Ct. Thursday afternoon Prof. E. W. Howe of Jamaica Plain, Mass., will deliver an oration. In the evening there will be a poem, and the Historian's Report, supper and speeches.

☞ Gen Butler addressed the people of Lynn on public affairs one evening last week, when he alluded, among other things, to Montgomery Blair's threat that the President would in a possible contingency recognize the Southern Senators and Representatives elect with their Northern allies as the legitimate Congress; and he added "I don't know what the remedy would be, but I think the rising at Fort Sumter was not a circumstance to what we should see.

☞ A Saratoga correspondent says: In consequence of the quarrel existing between Morrissey and the hotel keepers, the former intends to erect in Saratoga the largest hotel in America. It will cost one million of dollars. Among the stockholders are Commodore Vanderbilt and John Davidson. The former subscribes for $200,000 worth of stock, and the latter $100,000.—To punish the Lelands and other hotel keepers the rates for board are to be two dollars a day instead of five dollars, the present prices.

☞ The Philadelphia Wigwam, tho' not finished, was ready for use at noon Tuesday, and the Convention commenced.

☞ Mr. Norman C. Greenough, a most skilful watchmaker and musician, and an estimable citizen of Newburyport, died there last Saturday, aged 45: his death is a public loss.

THIS IS TRUE OWNERSHIP, and nothing else is, not that which the purse contains, not that which title deeds may cover, is owned; *owned* in the highest sense; for, do the best you can—manage your affairs never so wisely, yet despite all your precautions, time will turn your purse to ashes, and scatter its contents to the four winds; and the law will open the safe which you allow no one to approach, and distribute your bonds and deals far and wide. Not that which is in your safe, but in your soul, is owned. And it sometimes happens that the wealth of the soul is inversely proportioned to the contents of the safe.

The thread of life is very frequently picked up at the wrong end, and traced backward—the chief business of life completely transposed. If by some evil power of transmutation, the most valuable things were changed into the least valuable,—gold and silver into chips of granite; beauty to deformity, harmony to discord, happiness to misery,—how we should lament and bewail its exercise, not simply as a misfortune but as unmitigated folly. The great end of life in this world, is to transmute substance into soul, to develope and enrich the inner—the everlasting—man, and yet many spend the whole lives in transmuting soul into substance—the superior into the inferior value, and seem never so happy as when they have knocked out the corner stone of their moral and spiritual consciousness and self respect and converted it into real estate or 7-30s.

Not what you *have*, but what you *are*, is the chief question, and what you have beyond the necessaries and simple conveniences of life is like a ball chained to the feet, or manacles on the hands, unless it helps you to become what you ought to be.

The elements of vegetable growth do not exist for themselves, are valueless in their primary conditions, but organized by vegetable into higher unities, they serve noble purposes. So this world of things and principles, of matter and force, of vast opportunities and inexhaustible resources, does not exist for itself, but was created and is continued for the purpose of being transmuted by the human will into mental, spiritual faculty and power. Not how much of the world we have heaped up outside of ourselves, but how much of it we have imported into ourselves, and assimilated to our souls, substance to retain and possess it forever, is the chief concern.

At bottom there is no such thing as material value. The simple question "What for?" persistently put, soon drives us back from all material to immaterial considerations. What for do you want money, but for the things it will buy? And what do you want the things it will buy for; and the moment you begin to talk about actual enjoyment, personal improvement, you are far above mere material things. Do you still say the standard of value is in matter and not in mind and morals? Let us see: is not the value of your residence increased or diminished by the character of those who became your near neighbors. Fill the town with another class of people, and the soil, surface, buildings, streets, may remain precisely as they are, but the property will not bring half its present price. There is not an acre of land in the town, the price of which is not directly and very appreciably affected by the grade of our schools, the tone of our churches, and the intelligence and morality of the people. In which then is the inherent values, in houses, lands, and stocks, or in the mental and spiritual conditions which they symbolize and facilitate. If you would increase the value of real estate, raise the character of the people who occupy it. An additional thought in their heads—an additional virtue in their hearts, will certainly enrich the soil on which they tread.

No, brethren and sisters, we have not learned the secret of right living, of the most delightful experience—of the power of spiritual alchemy we possess, till every thing of use or beauty, houses, lands, stocks, business, society, scenery, friendships, knowledge, is made to subserve spiritual purposes, and enrich the inner life. Labor, sacrifice—even daily drudgery, become a holy and blessed ministry, by perceiving their spiritual significance. They are thus converted into the means of personal improvement. It is the soul of things that gives them their value; what you see, handle and often highly prize, is only the body, husk, shell, and not until it is seen to be but the shell, the symbol of something more valuable than itself—not until that more valuable thing is known and appropriated, is life, with its manifold opportunities and resources, rightly prized or used. And when the truth is perceived, that the soul of things may be enjoyed, owned, assimilated, without owning the body, much of the feverish unrest and jealousy which now mar our happiness—much of the prevalent desire to possess things, merely for the sake of possession, and without regard to their real meaning and higher uses, would subside.

My friends, we do ourselves great injustice, we impoverish all our lives and cheapen all our pleasures, by over estimating mere material ownership. I will not say it is unimportant. As a means to something higher, it is immensely important; more so, I apprehend, than any of us conceive; but as an end often less important than any of us conceive. I almost envy the man who knows how to transport his means into his soul, who grows rich about the heart as his possessions increase. I pity the man who allows his increasing possessions to crowd him, and at last to drive his shriveled soul into a corner.

Study to know the exact value and purpose of things, to own and assimilate all the highest values, however little or much you may now possess of their body and shell. Open your eyes in this world of sights, your ears in this world of sounds, your minds to the myriad of acts, and your souls to the divine and ennobling influences all about you, that you may be able to say in truth to the richest, the wisest, and the best of earth, to the angels of heaven, and reverently to God even with regard to the elements of his being and the sources of his happiness, "All mine are thine, and thine are mine."—*Rev. Dr. Foy*

— Oil and black lead is perhaps the best substance for lubricating wagon axles. Lard and flour is nearly as good.

☞ Cholera cases have occurred at Memphis, Tenn., La Crosse and Chicago.—The steamer Continental which arrived at St. Louis Monday morning, with a detachment of 16th colored infantry had 77 cases of cholera on board, caused by eating Cuba sugar. The steamer, with her passengers, is anchored in mid-stream. The captain reports 51 deaths by cholera since leaving Cairo, and 26 cases now on board. The steamer Henry Ames also arrived from the South, had 7 cases and two deaths on board. The Board of Health are taking active measures to prevent the spread of the disease. District physicians have been appointed to attend gratuitously on the poor, and depots established where medicines can be had free.

☞ The liquor recently seized by the State Constables at North Adams, Mass., having been stored in the building used as a lock-up and Police Court room, it was on Sunday night blown to ruin with gunpowder. It was situated in a populous neighborhood, and injury was done neighboring buildings including Millard's great shoe factory, but no lives were lost, although many were endangered.

It is quite certain that no temperance man took part in this gunpowder plot, but some dealer in fluids probably found the powder, and some poor victim of a vicious habit acted the part of Guy Fawkes. The blown up liquor will do no harm:—but the owners of shattered buildings, and those persons whose lives were in danger, would have a good action against the culprits, not to mention the crime of arson.

☞ The Portland Advertiser of Monday came out in new type, on a new press, and is printed in a new building, yet unfinished. The editor says, after mentioning some difficulties:—

But here we are—our desk is fastened on one side to a window, and on the front has two upright rough boards running up two feet, having on their summits an eight penny nail to hold our copy and galley proofs. Ten carpenters are pounding on all sides and overhead, and "slam bang," "whack," "crack," and other interesting harmonies salute our ears. We get our proofs with a plainer and mallet, and have got an interesting gentleman of the "Freedmen's Bureau" to run our press. Who says we cannot get out a daily newspaper?

☞ A Washington dispatch says the following notice has been served on Union citizens of New Orleans:—

"To Mr. ——, Sir: You are hereby notified to leave this city within seventy-two hours. Your presence cannot be longer tolerated in this community.

By order of the committee."

— The Massasoit Fire Insurance Company, which was reported to have become insolvent by reason of the Portland fire, will pay every dollar of its indebtedness.

— Miss Mary Ingalls, one of the oldest inhabitants of Salem, died in that place at her residence in Mill street recently, at the advanced age of ninety-three, of paralysis of the brain. Miss Ingalls was born in the house in which she died, and resided there until the day of her death.

— At Wheeling, Va., the severest thunder storm ever known in that city occurred on Sunday night. A number of bridges, culverts, telegraph poles and houses were washed away. A family of seven persons, named Robertson, residing six miles west on the National road, were carried away, and all perished.

A man and woman were killed by the lightning in that city. The storm seems to have spent its fury within a radius of thirteen miles.

Monroe Taylor had put a few bars of his celebrated Gold Medal Soap on the top stair for the one that would get it first, I'll be bound there ain't one of you but what would use your utmost exertions to gain the prize; my wife says there ain't anything like it, and she would recommend the whole parish to use it. 17

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY;

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It possesses a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Tonic in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing, for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and recover is unexcelled as an

Appetizer,

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MIRACLE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a place among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

☞ The Melcher House at the corner of Bridge and Islington streets—(the home of John Melcher, whitesmith, who deceased more than fifty years ago)—has been sold by the heirs, and is now being changed into a shop or saloon. Mr. M., its former owner, was a good mechanic, the apprentice and successor of Noah Parker, who was one of the best smiths that ever blowed a coal, and whose benevolence and intelligent christian zeal made him the first pastor of Universalist society in Portsmouth; and this apprentice, as also other workmen of his, became parishoners. Mr. Melcher was one the first in this place who had an oven stove for cooking: and partly through his influence one of the first stoves was used here in a place of worship.

☞ Whitmore & Clark, with their large troupe of performers, appear at the Temple to-night. The Gardiner Home Journal says of them: "They are all first-rate musicians, and many of them are superior vocalists, while in the character of broad farce and burlesque they have several unequalled performers, and we advise all who wish to enjoy a good laugh, and whose conscience will allow them to take $5 worth of fun for 35 cents, to give them a call."

☞ A correspondent, who is somewhat afraid of dogs that bite, suggests that the City Dog Ordinance be so altered as to kill the dog that bites any person in the street, even when he is led by a string,—and to punish the owner of such dog by a fine.—The present dog law provides that no dog shall be at large without a muzzle, but it has been held that a dog led by a string is not at large.

POLICE COURT, Aug. 14. — Charles Thompson, drunk, fined $3 and $3.86 costs.

John Hickey, same offence and same fine.

John Grimshaw, for alleged violation of ordinance requiring dogs to be muzzled when running at large, was acquitted.

☞ Don't forget the excursion to the Shoals to-day; the steamer Pioneer leaving at her usual hour, and returning in the evening.

— The wages which sin bargains for with the sinner are—life, pleasure and profit; but the wages it pays him with are—death, torment and destruction. He that would understand the falsehood and deceit of sin must compare its promises and payments together.—*South.*

— As a passenger was leaning out of a car window at Norwalk, Conn., depot, recently, a seedy individual on the outside, just as the train started, exchanged hats with him, obtaining a new castor in place of a dilapidated glazed cap, which he coolly placed upon his victim's head and walked off.

— Some practical individual has ascertained by mathematical investigation, that if the entire corn crop of Illinois for 1865 were made into Johnny cake, it would put a cake into the hands of every soul on the globe, large enough to feed the planet for two days.

— Two laborers upon the fort at Clark's Point, New Bedford, on Saturday drank nearly a whole bottle of tincture of cantharides, which they found in an old medicine chest. They thought it was some kind of liquor. They were terribly sick and vomited blood.

— One of the pickpockets arrested in New York on Saturday begged hard to be let off, promising to go to Boston and be honest. After his picture was taken, the officers permitted him to go. He has been in the business from boyhood, and his father and brother were both criminals.

— Henry McElwaine, chief of the Chicopee police, has been detected in extorting money—$5 in one instance and $7 in another—from persons who have been arrested for minor offences. He has been suspended from office by the Selectmen, and has sent in his resignation, which will probably be accepted.

— The reply of the superintendent of one of the principal Maine railroads to a circular from a cabinet officer at Washington, asking him to carry delegates to the Philadelphia convention for half fare, was, "that he was not aware that there were any such fools in Maine as to attend that convention; but if there were any, he would take them as freight!"

— Col. Leavenworth, the Indian Agent in the country of the Kiowas and Camanches from the north and those from the south, together with the Arapahoes and the Abuallaia and Brule bands of Sioux, are meeting in the Smoky Hill country to hold their great Medicine Lodge. The Cheyennes say the whites shall not make roads through the Smoky Hill country, as it is their hunting ground.

GEN. BANKS.—The New Orleans Picayune of Aug. 7, in an editorial article, has the following words about Gen. Banks:—Gen. Banks says he "knows those people down there well," and upon this presumes to found his authority. Now, we presume to say that Gen. Banks knows nothing whatever of our people, except what he thought to have learned outside. He was *never admitted to society while here.*

We italicise these closing words, to save comment. The reader can make his own.

☞ A curious weapon has been invented by Mr. G. Harding, in England. It is a plain tube, without a breech, open at both ends. The shot is placed in the centre, a wad is placed behind it so as to confine the charge, and a second wad is placed at such a distance as to leave an air space behind the charge. There being no recoil from the gun, it is termed "the non-recoil." One would think that the marksman would be in great danger of receiving the charge in his eye.

☞ A correspondent of the *Akhar*, an Algerian journal, gives a receipt for a dish made of locusts, which he calls *croquets a la Benoton.*" "Take the locust gently between the finger and thumb of the left hand, cut it in two with a knife, and pour into the animal's inside a small quantity of good rum; let them stand two days, and then cover with a fritter paste, and fry them; sprinkle with sugar, and pour into the dish a small quantity of Burgundy." It would seem likely that it might be more piquant than "locusts and wild honey."

Elegant Residence for Sale.
(On account of removal of owner.)
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, if adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

AN OUTSPOKEN POSTMASTER. — The following letter is certainly very explicit. The writer shows no special care in his choice of words. His phrases are not in the best of taste, but his truths and facts and inferences cannot be controverted. It is to be hoped that the President and his clique may stir up a few more such officials:

POST OFFICE, NEW CANAAN, Conn., Aug. 6. *Hon. Alexander W. Randall*: Sir; Your circular for the call of the Wilkes Booth Convention to meet in Philadelphia on the 14th inst. has been duly received under the frank of the eminent Pennsylvania senator. I suppose I am indebted to the honorable Connecticut renegade for this early "smoking out" attention. For this mark of extreme kindness be and you have my thanks. Most of the apparent purposes of the call met my entire approval, but chaff is at a discount just now.

No man unwilling to be deceived can mistake the latent object of the intended gathering, rising as it does from the ashes of the assassin. Had Wilkes Booth never lived, the convention would never have been called. Now, every sympathizing friend of his foul deed, from Maine to California, indorses it! Every indulgent, conciliatory advocate of the interesting ceremony of hallying, bludgeoning and murdering public men (who advocate the rights of man) approve it!

Every patriotic resolver "that the war for the Union is a failure" is in ecstacies over it! Every bitter secessionist, every fighting rebel in the terrible war that has cost this nation hundreds of thousands of lives and billions of money, every conniving traitor that has been struggling to tear down the government that Washington planted and Lincoln saved, is singing peans of glory to it. And every press in the entire United States now advocating it, is obliged to excuse, palliate, and defend the burning, murders and massacre continually cropping out throughout volcanic rebeldom. From all such sympathies, tendencies and operations, Mr. Randall, I would most respectfully respond, "Good Lord deliver me." My conscience, my manhood, are my own, to me they are of more value than any office on earth. You have my answer. Briefly yours,

NOAH W. HOYT, P. M.

P. S. Private—If our noble, sober, patriotic, honorable and trustworthy President would but pardon Jeff. in time to make him President of the Convention, he would add another to the many grateful obligations he has already conferred upon the million of loyal hearts who took him out of the grasp of rebels and elevated him to the point where Booth and Atzerot swung him to power and infamy. N. W. H.

— A rough individual, whose knowledge of classical language was not quite complete had been sick, and on recovering was told by the doctor that he might take a little animal food. "No, sir," said he, "I took your gruel easy enough, but hang me if I can go your hay and oats."

CAR ROBBERS.—The New York Correspondent of the Boston Journal says:

The most disgraceful thing connected with our police are the car robberies which have been so notorious for over a year. A set of desperate men, as well known to the police as is the Mayor of New York, have carried on a systematic robbery, openly and notoriously, for a twelvemonth. They would crowd the platforms of the cars at the place of starting, or come aboard from three to seven in number at given points on the road. The conductor and driver knew their mission, but were powerless. If they intimated to the passengers their character or exposed them, they would beat them nearly to death and escape. Not only were persons robbed in the usual sly way by sleight of hand, but in the evening men and women would be bodily attacked in the cars and beaten as well as robbed, and it was positively unsafe for a single man to pass up and down in the cars after 10 o'clock at night. The police refused to make arrests. Usually they were absent when wanted, but when present they gave no protection. A new order has gone forth. All suspicious persons are to be arrested on the cars and taken to headquarters. All known thieves, pickpockets, burglars, &c., are to be taken wherever they are found, and brought to headquarters. If nothing is found against them, their likeness is taken and they are ordered to depart out of New York. If found the second time, they are to be sent to the penitentiary for vagrancy, for we have a State law that empowers the police to do this. And this new state of things is to be carried out without fear or favor or hope of reward.

As a matter of course, these rascals, who are to be thus disturbed in New York, will flow out into other cities and over the country,—as some have done already,—and rob elsewhere. Policemen and other people, take notice.

— During the recent session of a Teacher's Institute, while a Professor was endeavoring to illustrate the manner of teaching arithmetic, he took up a small globe standing on the desk, and asked: "How many units in the globe?" Answer—"One." Talking up his hat, "How many units in my hat?" Answer (by a naughty boy in the audience) "Shake it and see!" The Professor was taken down.

— A few days since the teacher in the primary department of the Graded School in Vergennes, Vermont, interrogated the pupils as to the reason of the saltness of the ocean. One little lad was confident he could tell, and the question was put: "Well, what is it that causes the saltness of the water of the ocean?" "The codfish!" replied the little original.

NEW ADVERTISEMENTS.
By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE."
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Morning Chronicle.

Portsmouth N. H.

THURSDAY, AUGUST 16, 1866.

THE PHILADELPHIA CONVENTION on Tuesday, had for temporary chairman Gen. Dix,—and it is decided by the managing committee that Senator DOOLITTLE is to be President in the permanent organization.

Vice Presidents—From Maine, Leonard Woods; New Hampshire, Daniel Marcy; Vermont, Myron Clark; Massachusetts, R. B. Hall; Rhode Island, Alfred Anthony; Connecticut, O. F. Winchester.

It is a remarkable fact that two of the Vice Presidents from New England, are Ministers, Rev. Messrs. Hall of Massachusetts, and Woods of Maine, the latter being a D.D. [Does anybody remember a howl about ministers being politicians?]

Fernando Wood, H. C. Dean, and Vallandigham, have retired—to please pretended loyalists, who thought their presence would damage the concern. The Boston Herald's correspondent says, under date of August 14:

Vallandigham did not surrender this morning until after a long discussion. The particulars of the bargain have not been made public.

When the South Carolina and Massachusetts delegations entered the Convention together, many old and venerable men were so moved at the sight that they shed tears of joy.

Tuesday's session was very brief, and the Boston Advertiser's correspondent says, "The whole performance had been cut and dried, and was rattled off in short order."

The Herald's correspondent says:

Since the adjournment all seem less anxious than before, feeling that the great ball is fairly and fully in motion; and most points to be passed upon being tolerably well settled, discussion is less rigorous than before.

The same correspondent telegraphs at midnight:

A new question excites considerable animated comment among delegates. It is a suggestion emanating from a source not generally known and difficult to ascertain. It is to incorporate in the resolutions a provision looking to the abandonment of the organization known as the Democratic party. The proposition does not meet with extensive endorsement by any means. If introduced it will provoke debate *in extenso*, and some say a division.

☞ A rainstorm which began in Philadelphia on Tuesday afternoon, kept on till 10 o'clock Wednesday,—and of course the Convention did not go to the Wigwam: but carpenters had been at work doing what they could to keep out the water. At 10, the sun came out, and the Convention began to go in. No speaking is to be allowed, except by appointment of the delegations of the States, severally, and these are to speak after the convention has passed the resolutions and adjourned. The resolutions are not to be discussed, but swallowed in a lump—probably to avoid explosions.

Vallandigham held on to his ticket as a delegate, until a peremptory order was telegraphed from *Washington*, that he must not be in the convention, at which, says Perley, "the copperheads who sustained him through the war uttered curses not loud but deep."

NO NEW THING.—The Copperheads of Massachusetts and the Rebels of South Carolina walked into the Wigwam arm in arm. They were united in influence during the war, though they could not then lock arms. They must have come together like parted magnets.

GEN. SHERIDAN'S DISPATCHES.—Various statements have been made in regard to the tenor of Gen. Sheridan's dispatches about the New Orleans riot. The Jersey City Times now makes the following statement:

"A gentleman just from Washington informs us that he knows that the following is a part of what General Phil Sheridan did send in his dispatch to the authorities at Washington in reference to the riot at New Orleans. He says Gen. Sheridan used the following language:

'This is one of the greatest outrages that ever occurred in any country. I refuse to obey the orders of any 'confederate.' I tender my resignation, and shall keep New Orleans under martial law until further advices.'"

MEXICO.—Advices from Matamoras to Aug. 11, say the French evacuated Monterey on the 28th ult., spiking their cannon and destroying their ammunition. The Liberals occupied Tampico the 1st. The French were reduced to extremity; there was no hope of reinforcements.

The Imperial garrison at Sedledo spiked their guns and destroyed their ammunition, and went to relieve Monterey, but retreated to San Louis Potosi. All the Northern States will be abandoned by the Imperialists, and San Louis Potosi would be invested by the Republican Governor of that State.

The French garrison at Tampico was driven to the citadel, and the whole place would be captured. A French iron steamer was sunk by the Republicans in the channel below the city.

Gen. Lew Wallace had arrived at Matamoras on the steamer from New York, with arms and ammunition for the Governor of Tamaulipas.

Communication.

N. H. ASYLUM FOR THE INSANE.—I have examined with a deep interest the 24th annual Report of the Superintendent of the New Hampshire Asylum for the Insane, an institution whose establishment I was the first in this State publicly to advocate, and therefore rejoice at its present management, condition, and success. The whole number of insane which have been admitted since the opening of the Asylum is TWO THOUSAND THREE HUNDRED AND FORTY-FOUR, of whom a small majority have been females. The number in the Asylum on the 1st of May last was 236,—111 males—125 females. By skilful treatment a large number have been restored to their reason, and returned to their friends. Where the disease has been of long duration, a cure has been difficult, often impossible. The buildings on the farm, which is very productive, are very capacious and commodious, and the pleasure grounds, trees and scenery delightful, all in view of the river.

The receipts last year to the 30th April ult were $52,932.22, and the expenditures for the same period were $52,838.21. There have been numerous donations. The legacy of the late Moody Kent for the benefit of the insane is estimated at $140,000. During the year there was received for the board of patients $42,970. But the poor are supported out of the funds of the institution. The patients have the benefit of a library, fast increasing by donations. Lectures are frequent. A perusal of the Report, of which three thousand copies are printed for circulation, would be interesting to all.

Dr. Bancroft, the learned and skilful superintendent, in the report, says that "Insanity in its numerous forms is disease, with its laws and conditions to be studied like other diseases, and like them to be combatted by the use of remedies with a view to a cure, or at least a mitigation of consequences." It appears that the patients annually increase, and therefore it is requisite that the buildings should be enlarged. By liberal contributions to the Institution, those who have wealth will have the reward of an approving conscience, and the public thanks. A. B.

DESPERATE ATTEMPT TO BREAK JAIL. On Wednesday afternoon a party of eight or ten persons made an attempt to break away from the New Haven county jail.—The leaders in the attempt were a post of fice robber named Gladwin, the New York and Boston bond-robber, and another notorious convict.

The attack was made upon the warden. Mr. Webster, the keeper of the prison, was absent for the first day's relaxation in a long period. The absence of this determined, powerful and courageous man furnished the jail-breakers with the opportunity they coveted. As the warden entered the prison proper they rushed upon him. Gladwin led off with a hammer in his hand, with which he struck the warden a number of murderous blows upon the head, stunning him so much as to render him incapable of effectually defending himself. The colored man, Buckley, simultaneously seized the almost helpless warden by the throat, choking him by main force. Others of the party seized his coat and thrust their hands into his breast pockets, where they had often seen the warden place the key to the prison—but the key, to their dismay, was not there.

At this critical juncture of the conflict—which occupied far less time than it has taken us to describe it—relief for the warden came from a most unexpected quarter. A party of prisoners who refused to act with the jail-breakers, rushed to save his life.—Foremost among them were the two German shoplifters. These and others clinched with the jail-breakers and a desperate encounter ensued. But it resulted in the jail-breakers giving way and yielding the field—their disheartenment at not finding the key no doubt contributing materially to this their complete failure. Mrs. Webster, wife of the keeper, was a witness through iron bars of the bravery of the men who rushed upon the jail-breakers, and speaks in terms of highest praise of their manly conduct.—The alarm was at once given, and a posse of police and Sheriff arrived upon the scene and took measures to prevent a recurrence of the desperate efforts just thwarted, by placing the conspirors in cells inside heavy iron doors.

THE NAVAL ACADEMY.—A letter published in a Kentucky paper, describing the Naval Academy at Annapolis, contains this passage:

"One boy from Kentucky, well formed, physically and mentally, very active, himself rejected, said to me: 'The Eastern boys get in, but only one out of fourteen of us from Kentucky has been admitted.' This was a simple commentary on the educational systems of the different sections. Nature has done everything it could; but the one lacked that thorough drill in the elementary English branches which is acquired in the primary schools of New England."

— Isham G. Harris, ex-Governor of Tennessee, who is one of the colonists at Cordova, in Mexico, says he works harder than any freedman in the Southern States.

NEW HAMPSHIRE ITEMS.

—— Lt. Col. Hiram Rollins, of the N. H. 2d regt., is very indignant at being called a "my policy" man.

—— Mr. F. R. Ambrose, late of the Central House, Boston, has taken the Eagle Hotel, Concord.

—— Levi Fickett, a lumberman, whose bold escape from jail at Concord, about the first of June, was chronicled, was arrested at Greenfield, Mass., on Saturday week. It is stated that it required six men to secure Fickett, who was taken from his bedroom in the evening. After escaping from Concord, Fickett went to Maine, where he worked some days in a cotton factory; then he repaired to Hudson, Mass., and stopped a week with his wife. He then went to Greenfield, where he was caught. He displayed great boldness and shrewdness in breaking jail, but was afterward very indifferent in exposing himself in public.—Fickett was taken back to his old quarters at Concord.

THE SQUIRREL RAID.—The fact that squirrels of the red and striped variety abounded in Concord, (says the Concord Statesman) was mentioned several weeks ago. It now appears that they are found in equal plenty in many if not all the populous places in the State, while in farming neighborhoods they were never so numerous. They are every where, and approach the doors of domestic dwellings, as if they had "rights which white men are bound to respect." It is not for lack of their usual food that these pleasant little fellows have gone into the villages, nor have they fled from the pastures and woods to escape rough usage from other quadrupeds; because their kindred are there, as usual. The cause is yet unknown.

Their reputation has not been at all improved by village life. They bite apples on the trees, and created, in the time of egg hatching and the growing of young birds, the most profound distress amongst parent birds. One of the red variety, plundered the nest of a robin on the premises of the editor, and killed the young. The culprit soon found himself in hot water; and between a cat on the trunk of a tree, following him up, and two robbins dashing at him in the upper branches, was placed in position which required the exercise of all his agility and skill to avert his deserved fate.

FROM ST. PETERSBURG, RUSSIA, Aug. 12th.—The U. S. naval officers made an official entry into the city yesterday, in the presence of 50,000 people, and were welcomed with a magnificent ovation. There was music and a great display of flags, waving handkerchiefs, hearty cheers and great enthusiasm. Cassius M. Clay, the American Minister, gave an entertainment at his hotel to the Diplomatic Corps and heads of departments. Many distinguished citizens were present. There was a ball and supper at the rooms of the Yacht Club in the evening, at which the most beautiful ladies in the city were present, dressed in Union colors. A brilliant illumination of the city and a display of fireworks also took place. The whole affair was a splendid tribute to America.

THE CABLE.—The St. Johns Globe gives the following view of the effects of the Cable on public opinion and knowledge:—

When the Great Eastern got to Newfoundland, Mr. Field sent over a number of dispatches to public and private individuals, announcing the success of the Cable undertaking. The President of the United States, in his response, expressed a wish that "the Cable under the sea may tend to promote harmony between the Republics of the Western and the Governments of the Eastern hemispheres." We hope that the President will not be unmindful of how much he can do during his term of office in this direction. Mr. Seward expressed the opinion that had the Cable been laid in 1858, the governments of Europe would not, in 1861, have been led into the error of supposing that the rebellion could perpetuate slavery or divide the republic—a very characteristic hit at the feelings of the European people concerning the United States. Yet hundreds of thousands of people in British America, united to the American Union by telegraph lines, believed that the war *would* break up the Union.

— Coal has been discovered in large quantities upon the prairies, and within a radius of ten miles from Leavenworth, but parties are now engaged in boring for coal within the city proper, and a shaft has been sunk five hundred feet, with good prospects.

— Dyspeptic persons, would you be cured of this dreadful disease, and all others arising from the use of common saleratus? Also, have you white, light and healthy Bread and Biscuit? Do not fail to procure a paper of Herrick Allen's Gold Medal Saleratus, after which you will never use any other. It is the best in the world. Try it. Call on your Grocer for it. and its taste is exquisite. Its soothing effects on the NERVOUS FLUID is most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and eliminating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow alcoholic stimulants.

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other cases of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auldawlm

MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. ☞ In our notice of the old Melcher House, corner of Bridge street, we gave the name of the former owner, John Melcher: —but a friend corrects the error, saying his name was Nathaniel.

CHOLERA IN ST. LOUIS.—Great excitement exists in St. Louis about the cholera, and drug stores are crowded with anxious persons seeking a preventive. It is stated that men die on the streets and are left on the ground. Hundreds of cases are not reported by the Board of Health for fear of a panic.

☞ The following letter from William Cullen Bryant will be read with pleasure by all who wish success to the introduction of GOOD DOMESTIC WINES:

NEW YORK, March 20, 1866.
DEAR SIR:—I am glad of the opportunity of saying that the California Wines introduced here by PERKINS, STERN & CO., seem to me of excellent quality and perfectly pure from any foreign intermixture. The kind which bears the name of California Port, in particular, meets with very general favor. Some time since I received from the Portuguese minister a box of Port directly from Oporto, of very fine quality, and this California Port is nearer to it in flavor than anything I have met with since.
I am, respectfully yours,

Elegant Residence for Sale.
[On account of removal of owner.]
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The House is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The House is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The House is fitted throughout with Stewart Mantels.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fruit trees and thrifty shrubbery,—and is so situated as to command a delightful view of forest, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.

BETTER THAN GOLD.

Better than gold is the sweet repose
Of the sons of toil when their labors close;
Better than gold is the peaceful sleep.—
And the balm that drops on his slumbers deep
Brings sleeping draughts to the downy bed,
Where luxury pillows his aching head;
His simple quiet labor deems
A shorter road to the land of dreams,

Better than gold is a thinking mind,
That in the realms of book can find
A treasure surpassing Australian ore,
And live with the great and good of yore,
The sage's lore and the poet's lay,
The glories of empire passed away;
The world's great drama will thus enfold,
And yield a pleasure better than gold.

Better than gold is a peaceful home,
Where all the fiendish clarities come;
The shrine of love, the heaven of life,
Hallowed by mother, or sister, or wife.
However humble the home may be,
Or tried with sorrow by heaven's decree,
The blessings that never were bought or sold,
And centre there, are better than gold.

Nothing truly can be termed my own
But what I make my own by using well.
Those deeds of charity we have done
Shall stay forever with us: and that wealth
Which we have so bestowed, we only keep;
The other is not ours. —*Middleton.*

WHAT IS IT GOING TO BE?—The following will pass muster we think, among the frequent stories of bright juveniles: The parents of a fine baby, several weeks old, in our village, received one day last week a call from a young "four year old" stopping with a neighbor. Bobby was delighted with the baby, whose parents proposed that he should give it a name. Proud of his responsibility, our hero reflected a few moments and gravely solved the first doubt in his mind by the pertinent enquiry—"What is it doin to te, a boy or a dirl?" We did not learn the name that was ultimately given, but duly admired our hero's caution in first learning what it was "doin to be."—*Coos Republican.*

A STORY OF THE WAR FOR THE TIMES. A Minnesota paper gives the following narrative:

CHAPTER I.

The ex-soldier was a soldier of the Union army in the war against the rebellion.

CHAPTER II.

The soldier was honorably discharged from military service, and afterward appointed Postmaster at Rochester, under President Lincoln.

CHAPTER III.

The ex-soldier held the position till after President Johnson had published a circular directing that federal offices should be filled by soldiers.

CHAPTER IV.

The ex-soldier was turned out of office to make room for an ex-civilian.

CHAPTER V.

The reason of all this "over true tale" is that the ex-soldier has not changed his politics, though a President and a United States Senator have changed theirs.

To be conducted strictly in accordance with the rules of the National Ball Club Association, the laws of the Medes and Persians, the Code Napoleon, the City Ordinances, and the regulations of the Board of Health.

No player to be allowed more than one hour to run a base.

Players to have the privilege of catching their ball in hats or caps, but the use of peach baskets and potash kettles to be positively prohibited. Mosquito nets may be used in catching "fly" balls.

All "foul" balls to be deordorized before being used.

Any player caught out without his night key, to be furnished lodgings at the station house.

Should the "pitcher" become crocked during the game, a new one to be provided from the nearest crockery store.

No cotton "batting" allowed.

No player to be allowed to strike the ball with a political Club.

No levity on the part of strangers admitted.

Omnibusses to start for the first base every half hour.

Ambulances to be ready at convenient points to carry off the wounded.

In order that there may be a correct report by eye-witnesses—after the reliable manner of war correspondents—newspaper reporters to be positively prohibited from approaching the grounds.

An efficient medical staff to be in attendance.

EXPERIENCE WITH HENS.—"P." writes: My experience with hens during several years has led me to the following conclusions: 1st, hens well fed and cared for, usually lay the first season, daily, small or medium sized eggs, until they take a notion to set, which is generally when they have laid two or three dozen eggs. If not permitted to set, they will begin to lay again in two or three weeks. Some hens, however, do not incline to set very often—these will not lay so constantly. 2d, the second season, hens lay large eggs, quite too large to sell by the dozen, but seldom or never oftener than every other day. 3d, pullets hatched from eggs laid by hens more than twelve or fifteen months old, are apt to be like their mothers—to lay large eggs, but not daily. Therefore, I would never keep a hen through the second winter, and never set eggs of hens after they have moulted, or of those that are more than a year and a half old.—*Agriculturist.*

— There is now in Paris a Signor Muratori, who professes to be able to make any description of clothing shot-proof. The results of his invention are said to be almost miraculous. A thin jacket, weighing only two pounds, which had been previously prepared by him, is reported to have successfully resisted a Minnie ball fired from a rifle.

By a New England Lady.
A New Novel by the Author of 'Madge.'
D. APPLETON & COMPANY,
443 & 445 Broadway, New York,
PUBLISH THIS DAY,
"SHERBROOKE,"
By H. B. G., Author of "Madge." 1 vol. 12 mo. Cloth. Price $2.00.
The scene is laid in a New England village; the plot is most admirably conceived, and the style is eminently chaste and pure. The whole tone of the work is elevating and ennobling; at the same time the story is intensely interesting and exciting, obliging one who has commenced the reading to finish, even to the laying aside of all ordinary duties. 'Aunt Lydia' and her proverbs would never be forgotten by the reader. 'Hope,' the heroine of the story, is a model in many respects, and young ladies would do well to imitate her example. We predict for 'Sherbrooke' an immense sale."

Ayer's Pills.
ARE you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the royal remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, re-act upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.
They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.
Ayer's Ague Cure.
For the Speedy and Certain Cure of *Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic marshes.*
This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce one quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.
Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Dealers in Medicines everywhere. jy2

FRIDAY, AUGUST 17, 1866.

PERJURY PUNISHED JUSTLY, WITHOUT TRIAL.—In Boston on Wednesday, in the Superior Criminal Court, Thomas Kirby was tried for the larceny of a coat, and the jury without leaving their seats convicted him, as the testimony was too strong for a doubt. Kirby, who was allowed to testify, contradicted every one of the government witnesses by swearing directly contrary. Judge Russell in passing sentence, stated that it was evident the prisoner had perjured himself, and asked Assistant District Attorney Guiney if he intended to prosecute the defendant for perjury, to which the Attorney replied that he did not, as it would be impossible to follow up defendants in their testimony. The Judge then said that he should pass a heavier sentence than he at first intended and give the prisoner five years imprisonment instead of one in the State Prison, which sentence was pronounced, and thus Kirby's perjury cost him the loss of four years of his liberty.

IN THE PHILADELPHIA CONVENTION, Wednesday, two documents were read, viz: Mr. Vallandigham's *letter*, in which he yields to the wish of the managers, to keep out—and a dispatch from President Johnson, in reply to some soft-soaping which the managers had bestowed upon him. As it is very short we give it verbatim.

To Hon. H. O. Browning and A. W. Randall, Philadelphia Convention: I thank you for your cheering and encouraging dispatch. The finger of Providence is unerring and will guide you safely through.—The people must be trusted and the country will be restored. My faith is unshaken as to the ultimate success.

ANDREW JOHNSON.

The dispatch to the Associated Press states:—

Mr. Hayes of Illinois offered a resolution, directing the Committee on Resolutions to report in print and to supply a copy of the resolutions at the time of presentation.

He proceeded to discuss, when Tilden of New York raised a point of order that under the rule adopted the resolution must be referred *without debate*. The chair sustained the point of order, and declared the resolution was *so referred*.

Mr. Hayes, notwithstanding, continued to address the Convention. He did not expect the Convention to adopt any resolution or platform indorsing his opinions or the opinions of the Democratic party, to which he belonged.

The question of order was again repeated and sustained by the Chair, that there was nothing before the Convention, and Mr. Hayes subsided.

[Thus the gag law was sustained.]

There was comparatively a *small number of visitors* to the wigwam to-day, most people being satisfied with reading the reports which are telegraphed to the centre of business direct.

The committee on resolutions and address were still in session at 9 o'clock this evening.

It is generally believed that they will agree upon an address to-night. It will be reported to the Convention Thursday morning, and that after its adoption the Convention will adjourn.

The Boston Herald's special says:—

The Committee on Resolutions and the Address to the people of the country met in secret session in one of the parlors at the Continental this evening at 9 o'clock. They have a stupendous task before them to select from the multiplicity of resolutions submitted to them at the Convention, and by individual delegates on the true creed of the new party. Their deliberations and discussions will be carefully elaborated and it will undoubtedly be late ere the Platform and Address are agreed upon.

MEXICO.—The N. Y. Herald's City of Mexico correspondent says 18 citizens have been arrested, charged with conspiring to abduct Maximilian and hold him until he consented to leave the country.

The Santa Anna and Ortega conspiracy is said to be quite formidable, embracing the Archbishop of Mexico. The new minister of war is said to be in favor of declaring martial law throughout the country.—The new ministry is unpopular with native Mexicans. An insurrection lately took place in the State of Vera Cruz, where the Imperial officers of 500 Austrian troops, with their arms and ammunition, who were sent to quell it were captured.

Matamoras is blockaded by a corvette.

— Mayor Stevens of Portland has received $16,000 from Montana, for the relief of the sufferers by the fire.

— Telegrams received from New Orleans, state that Cutler and other Conventioners are preparing an address in which they give reasons for not meeting again. They propose another Convention, sometime in September.

— A strike of the weavers in the Germania Mills, at Holyoke, Mass., a few days since, on account of a reduction of their wages, has terminated by the discharge of some of the men and a return to work of most of the female operatives.

— Merrick L. Barnes has been fined $30, and his wife sent to prison three months, at Worcester, Mass., on a charge of being swindlers, having operated at Dalton, Ohio, Hartford, Providence, Clinton, &c., by pretence of great poverty. He is an able-bodied man—a moulder by trade.

NEW HAMPSHIRE ITEMS.

—— Several deaths from diptheria have taken place in the town of Piermont within the past few days.

—— On Wednesday morning, a house in Fisherville, Concord, was destroyed by fire, whereby six families have been left houseless. Loss three thousand dollars; insurance twelve hundred dollars. It is supposed to have been the work of an incendiary.

☞ Fifty-two out of eighty-two counties in North Carolina have been heard from, with a record of 1600 majority against the new Constitution. We look upon the result as one unfortunate for Mr. Johnson's extra-pacific plan of enforced reconstruction, and in accordance with Justice Ruffin's view of the President's "despotism" in dictating constitutions. We do not think Mr. Johnson had any intention of wronging the most sensitive rebel in North Carolina; but see how they estimate his indulgence! The President himself reconstructed the vote by which his agents and their measures are defeated.

☞ In obedience to General Orders, No. 59, current series, from the Adjutant General's Office, Major General MEADE assumes command of the *Department of the East* with headquarters at Philadelphia.

The Officers comprising the General Staff of the Department will be hereafter announced, until which time the staff officers of the late Military Division of the Atlantic will continue to act.

A BREECHLESS GUN AND NO GUNPOWDER.—The London Builder says: "A startling invention in gunnery has been announced by Mr. Harding, who makes not merely a breech-loader, but a gun without any solid breech! He takes a tube open at both ends, and this forms his gun, which is loaded and discharged with deadly effect. The plan is simply this—that a piece of wadding is rammed in at one end of the tube, then another piece, leaving a space and of course some air between them—closely compressed; then the powder is placed in, and then the ball on the powder. The breech is practically formed by the air contained between the first and second piece of wadding. Others are inquiring if gunpowder itself should be got rid of altogether midst all these changes. Captain Daxon says, yes; and sends us one of his guncloth charges, a piece of rolled tape, so to speak, in a paper case, open at one end. The patentee claims for the guncloth charges freedom from all risk of accidental explosion, 'except when confined in a gun-barrel or bomb shell. They are non-explosive; they burn, but do not explode; if lighted and held in the hand they are harmless; they may be dropped down a red-hot barrel without fear of danger. A hundred may be lighted at once, and the result will not be more explosive or dangerous than setting fire to a handful of shavings, neither would the firing of a whole magazine be attended with more danger than the burning of so much wood, cotton or paper.' The recoil is scarcely perceptible; the report is only one-half; smoke there is none; the combustion is perfect, and no residue is left to foul the barrel; and, with all, the charges are superior to gunpowder as a propelling force—at least so says the inventor. Gun cotton was, as fomerly made and used, an uncontrollable, unmanageable, capricious force, besides being liable to ignite at a low heat and fire by spontaneous combustion. Gun cloth, this patentee says, as made according to his patent, is a strong but docile servant; weight for weight many times stronger than gunpowder, and capable of being used with entire safety in existing fire arms."

A NEW NAME.—The Correspondent of the Boston Herald predicted that, the name, style and title of the new organization shall be the "National Union Party." This is in strict accordance with the expressed wish of several Southern papers, which alleged that the Democratic party had become so unpopular and odious that the *name* must be altered. It is not for us to find fault with the new name: the old one was certainly a great misnomer. But, query, whether "the old wheel-horses of Democracy" will give up their favorite name.

SIGNIFICANT.—The Philadelphia correspondent of the Boston Post says in his dispatch:

"This morning the trees in front of the Post Office were posted with exaggerated prints of the sufferings of the Andersonville prisoners. The intent is obvious."

Who could have thought of any connection between the sufferings of the Andersonville prisoners and the Philadelphia Convention? And yet these prints, without a word of explanation attached to them, seem to be perfectly, fearfully well understood by the Philadelphia conventionists.

☞ On Tuesday night at Salisbury, Mass., Amos Pettingill's saw and planing mill was burned. Loss $7000; no insurance.

☞ Major Joseph Stephens, the celebrated dwarf, died of apoplexy at Lyman, Me., Tuesday night, aged 61 years. He was thirty-six inches high, and weighed at the time of his death forty-five pounds.

— J. N. & J. T. Winslow loss $3000 by the burning of their pottery at Westbrook, Me., on Sunday night, by an incendiary fire.

— A Boston coal company, whose stock two years ago sold for $170 per share, suspended operations on Saturday. The last quotations of its stock were fifty cents per share.

CHANGE OF COMMANDERS AT RICHMOND.—The Albany Journal dwells upon the "banishment" to Utah of that sterling officer, Gen. Terry, who, by his thoroughgoing admistrations at Richmond, has made himself obnoxious to all unrepentant rebels. Of his successor, and of the reasons of the change, the Journal says:

"Gen. Schofield is a West Pointer, and a very respectable soldier. But he is also a 'Johnson conservative' and an enthusiastic supporter of 'my policy.' During the early period of the war, as commander of the Department of Missouri, he incensed and embittered every loyal man in that State by his shameful intrigues with the Rebels who are now leading the 'claybank' faction, and by his namby-pamby, shilly shally method of meeting their atrocious combinations.—Like McClellan, he was for carrying on the war with kid gloves and tufts of grass.—Afterwards, as a corps commander under Sherman, he did some very good fighting; but he was never placed in a position which made him odious to the Rebels.

The same reasons which prompted the banishment of the lion-hearted and energetic Terry to the distant plains of Utah, undoubtedly suggested the appointment of his inefficient and incapable successor.—And the Rebels of Virginia have no reason to regret the change."

☞ Mr. S. S. Fish, a prominent young lawyer of New Orleans, who was seriously wounded at the recent riot, and was subsequently imprisoned, thus describes the manner in which he was treated:

After Rev. Mr. Horton had been shot while showing a flag of truce and proffering surrender, I made my way out of the door, to the landing at the head of the stairs. I met a young man in citizen's dress, armed with a club, whom I asked if we could surrender. He replied, "No, we intend to kill you all," and then he raised his club to strike me. I rushed to a policeman who stood near the stairs, and begged him to take me prisoner, that my life might be saved. He made no reply that I remember of, but pushed me from the landing, and forced me to descend the stairs alone. At the bottom I was encountered by two citizens, who attacked me with their fists. I broke from them, ran to a policeman on the pavement, and begged him to protect me.

He knocked me down with his revolver. I, rising, much stunned but conscious, ran toward another policeman who I saw standing in the centre of the street, calling on him to save me. He replied by taking deliberate aim at me. Two of the balls wounds he gave me I can not tell, as I fell to the ground senseless. The next I remember I was between two policemen, who took me through Common, Carondelet and Lafayette streets to prison. All along Common and Carondelet streets respectably dressed, apparently business men, came out of the stores and standing on the pavement, cried, "Kill the d—d Yankee—white nigger!" I was kept in a cell some time, laid on a plank, unable to get release or bail, till Judge Hart came and removed me to the parlor above, and from there I was brought here.

☞ A man named William L. Fleming was arrested in Providence, R. I., on Tuesday for stealing a box containing $20 in coppers and some tobacco, from the store of George Eulebach. He says he is the man who forcibly entered U. S. Senator Benj. F. Wade's room in Washington last winter and demanded his signature to a certain document. The Providence Journal says there can be no doubt that he speaks truly, as he has papers which prove the fact. Besides a manuscript account of the Wade affair, or Fleming's version of it, there was found upon the latter a history of his life and exploits in Kansas during the disturbances in that Territory from 1857 to 1859, when he claims to have been a colonel on the Free State side. It is evidently the production of a disordered intellect. Fleming belongs in Watertown, Mass., and is about 40 years of age. He is a burly man, weighing some 230 pounds, and has, it is said, an extremely vicious expression of countenance. He has been arraigned on a charge of burglary, and if convicted upon his trial, will probably be sentenced for a long term.

A FALSE RUMOR EXPOSED.—A few days ago the Secretary of War issued an order directing an investigation as to the alleged outrages of colored soldiers upon the citizens of Helena, Arkansas. That investigation is now being made. Wednesday the President received the following dispatch from the Mayor of Helena:

HELENA, Ark., Aug. 15.—*President Johnson:*—Rumors going the rounds of the papers of a riot here on the 7th inst., are entirely unfounded. A street fight between a drunken man and some soldiers, which was immediately stopped, gave rise to the rumor. Perfect quiet and harmony prevail.

H. W. GRANT, Mayor City of Helena.

[Our readers may remember that we condemned the statement as improbable, when first published. It might be designed to influence somebody in Washington or Philadelphia, but whatever the design, it was a very clumsy lie.]

— A clerk in the Susquehanna House, Baltimore, has been arrested for an outrageous assault upon Mrs. Harriet E. Avery, from Lynn, Mass., who was stopping at that hotel.

— Some of the papers have chronicled the feats of a young girl in Erie, Pa., who, hearing a burglar in the house, with great presence of mind locked him in, and when her parents came home they killed him with croquet mallets. The burglar turns out to have been a rat.

FROM EUROPE, Wednesday.—In London it is said that the plans for the confederation of the British Provinces of North America have been definitely arranged by the Government; and the terms for the loan from the Government for the building of the International Railroad from Halifax, Nova Scotia, to a point in connection with the Canadian Grand Trunk Railway, have been settled.

In Paris it is reported that the French Government, i. e. Louis Napoleon, has abandoned the idea of extending the frontier of France by the annexation of certain German provinces on the Rhine.

From Berlin we learn that the Council of State is sitting in the Capitol, engaged in consideration of the re-annexation of Southern Germany to the German Confederation.

☞ The New York Weekly Magazine, published by Frederick S. Hill, New York, furnishes a large amount of interesting selected and original matter, at the low price of ten cents a number. Batchelder has it.

MISAPPREHENSION.—Common taters, said Mrs. Partington, after the preacher had ended his sermon—he having alluded to some commentators of the good book—common taters, she continued, well all sorts of taters this year are poor enough, but what has that to do with the gospel? Not half so much as the J. Monroe Taylor Gold Medal Soap has, for that will make the outside of the platter clean, if not the inside, besides it keeps folks from scolding or complaining; it is the best Soap, and needs no revival. 18

PERRY DAVIS' VEGETABLE PAIN KILLER after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. auluawlm

POLICE COURT, Aug. 16.—John Burke, drunk, was fined $3 and $3 86 costs, in default of which he was sent to the House of Correction.

Alexander McPherson, for keeping a disorderly house, was held to answer for his appearance at the S. J. Court, in the sum of $200.

☞ So rapidly have the Isles of Shoals grown in popularity as a watering-place, that even the extensive accommodations at Appledore have proved insufficient during the present season, and we understand that the Messrs Laighton contemplate still further additions to their buildings;—a house on the high land, connected by a covered way with the present hotels, being one of the proposed changes.

NEWCASTLE.—Communication with our Newcastle neighbors by bridge is cut off for a day or two, and we miss the line of coaches to the Island, which are prevented from running by reason of a portion of the planking of the bridge being removed for repairs. The bridge will be open for travel again in a few days.

☞ A telegraphic dispatch received in this city on Thursday, announces that Mr. G. Clark Abbott, formerly of this city, an officer of the Freedmen's Bureau, was murdered in Texas a day or two since.

☞ On Wednesday the following gentlemen were appointed Trustees of the Agricultural College on the part of the State:
Joseph B. Walker, Concord.
John D. Lyman, Farmington.
John B. Clark, Manchester.

Trustees of the State Library.

☞ The Doolittle Convention at the Philadelphia Wigwam adjourned *sine die*, on Thursday at 12.40. The session that day began at 10 o'clock. The President read a dispatch from Colorado, announcing election of A. C. Hunt, the Administration candidate for Congress in Colorado. The announcement was greeted with loud cheers.

The resolutions were applauded and cloud and unanimously carried,"—also the Address to the People. They amount to an endorsement of President Johnson and his Policy—nothing more and nothing less. No debate was allowed,—nothing discussed, either principle or measure, in the Convention. All was cut and dried by conclaves, committees and managers,—in the true style of a South Carolina election, where the Legislature chooses the Presidential electors. Forney says of it—"The supremacy of Andrew Johnson in the Wigwam is unchallenged and complete. There is scarcely a Southern delegate not indebted to him for a pardon which restored property and life forfeited by an inexpiable offense against an injured country. Scarcely a single northern delegate who is not a recipient or an expectant of official patronage."

On motion of Mr. Cowan of Pennsylvania a resolution was passed tendering the thanks of the convention to Mayor McMichael for his admirable police arrangements and their successful efforts in preserving the public peace, which was not much more in danger than Jeff. Davis's head.—And thus closes a great political farce, got up to amuse and flatter the President and deceive the people. It has answered the first purpose;—the second is doubtful.

CANADA AND THE FENIANS.—A Toronto (C. W.) special says 3000 volunteers have been ordered to Fort Erie to watch the movements of the Fenians at the Buffalo picnic. The volunteers manifest a very mutinous spirit, a part of them refusing to obey the order." Inadequate pay and bad treatment are the ostensible causes of their action. Three gunboats have arrived at Toronto and others are expected.

— The New York Times denies the statements that there are great failures of the peach crops of New Jersey and Delaware, and gives figures to show that the fruit is sold at one-fourth the rates quoted by parties in the interest of speculators, and that dealers, instead of being supplied from only one fifth of an average crop, anticipate having a full supply.

—The statements that Gen. O. O. Howard, Commissioner of the Freedmen's Bureau, and Gen. A. Baird, commanding the Department of New Orleans, are to be removed, are contradicted in official quarters.

— The New York Times says that one great merit of the "Conservative Union Party" is that its members "know what they want." From this announcement we should suppose that the redistribution of offices had already been settled.

— The prospect of ample fall feed for cattle never was better than it is just now; and farmers say that the quantity of rowen, or second hay crop, will go far to make up for the deficiency in the yield of hay this season, as compared with the mythical "average."

Elegant Residence for Sale.
(On account of removal of owner.)
The well-known and beautifully situated CUTTS HOUSE, on North Road, Portsmouth, recently occupied by Chas. Amory, Esq. The House contains eighteen rooms, with elegant bath room, billiard room, (containing a table in good order,) nursery, and all requisites for a properly arranged family mansion.
The house is in excellent repair, having been thoroughly refitted a year or two since, while its propinquity to the beaches, and the facilities which it affords for charming rides and pleasure sailing, render it one of the most desirable estates in the market.
The house is furnished with double windows (each with a sliding pane) throughout, is heated by a furnace, and many of the rooms have also elegant marble mantels and grates. In addition to the superior cellar, there is a first-class wine cellar. The house is fitted throughout with Straw Matting.
The out-buildings are very complete. A STABLE, with accommodations for five horses; CARRIAGE HOUSE; a splendid Harness Room, finished in chestnut and black walnut, with glass cases for harness; Cow House, &c.
If desirable, more land, adjoining, could doubtless be purchased.
The grounds comprise about four acres, with terraced Lawn, fine old trees and thrifty shrubbery,—and is so situated as to command a delightful view of forests, city and harbor. The winding drive about the house is underlaid with stone, and laid with shells.
